# American Flyer

**THE ONLY SCALE MODEL TRAINS  
IN THE WORLD WITH *Smoke,*  
*Choo-Choo, Two-Rail Track***

And they're better this year than ever before in American Flyer history! Just consider these features, found only in American Flyer trains:

## SCALE MODELS

Only American Flyer trains are true scale models throughout--replicas in miniature of the famous passenger and freight trains seen on real railroads. Compare any American Flyer locomotive or car with other popular makes of electric trains. Notice how American Flyer 3/16" equipment (3/16 of-an-inch in an American Flyer model equals one foot in the original) has the length and sweep of real trains. They don't have the stubby appearance of other out-of-scale makes. In gauges larger than American Flyer 3/16" "S" gauge true scaling is impossible without making cars and locomotives too big and cumbersome for most homes. So make your choice that of the experts--make it American Flyer and scale modeling.

## SMOKE AND CHOO-CHOO

One of the greatest developments on model railroading and it's exclusive with American Flyer! As the train hurries along the rails, clean, white Smoke puffs out of the stack while just-like-real Choo-Choo sounds keep time with the big driving wheels. Increase the speed and not only does more Smoke come out but the Choo-Choos are faster and increase in volume, just as in real locomotives! Best of all, American Flyer Smoke puffs out in thick, heavy volume that lasts for hours. Smoke is harmless to children, harmless to walls and draperies and is delightfully pine-scented for added appeal.

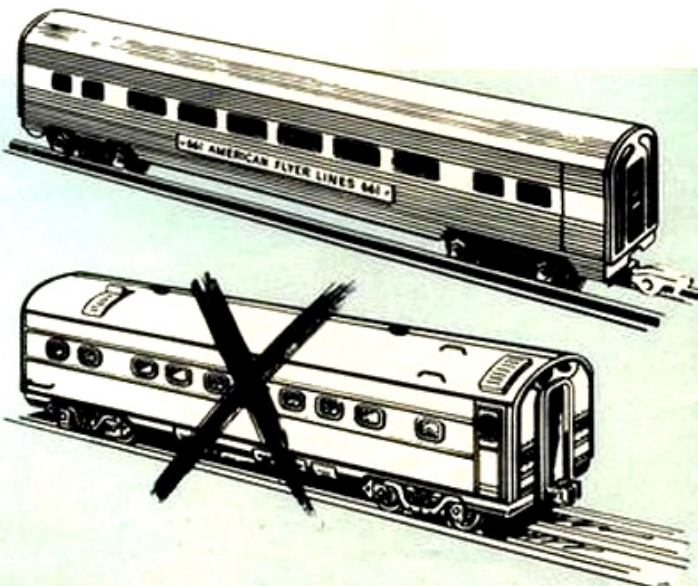

## TWO-RAIL TRACK

Look at the American Flyer roadbed in the illustration at left. Just like a real railroad right-of-way, isn't it? There's no old-fashioned third rail running down the middle to destroy realism. The rails are flat-top "T" design for proper wheel traction--not rounded rails which afford only a point contact. No scale model railroad fan would dream of having anything but two-rail "T" track because, unless it has two rails and ONLY two rails, track can't be realistic! That's why smart railroaders choose American Flyer--and two-rail track.

## Scale Model CARS and LOCOMOTIVES

Which of the cars shown at the right looks most like those seen on real railroads? Take a good look at the two cars illustrated here and you'll understand why American Flyer locomotives and rolling stock are such overwhelming favorites. Notice how the American Flyer car, built in the smaller, more practical 3/16" Gauge, has the scale length of a real railroad car. Yet it's not bulky or ungainly as are larger gauges. Only in 3/16" "S" gauge is such scaling possible. That's why American Flyer "S" Gauge is sweeping the country!

3/16 of-an-inch in an American Flyer Train equals one foot in a real-life train.

IT'S THE NEWEST FEATURE IN RAILROADING...

AND ONLY

*American Flyer* HAS IT!

## The NEW AIR CHIME WHISTLE

A sensational advance in model railroading and it's exclusive with American Flyer! This is an EXACT sound-reproduction of the famous Nathan Air Chime Whistle featured on radio, in newspapers and magazines and carried on such crack trains as the B. & O.'s "Diplomat" and "Cincinnati," the Wabash's "Bluebird," Southern R. R.'s "The Southerner" and others. This new real-life melodious Air Chime Whistle is not only replacing the present Diesel horns on big roads, but is also slated for most steam locomotives! Soon it will be the ONLY train whistle in the U.S., making all others obsolete!

Long, clear blasts or short, sharp toots...no raspy "sandpapery" sounds!

ALL AMERICAN FLYER WHISTLE LOCOMOTIVES MADE IN 1951 WILL HAVE THE NEW AIR CHIME WHISTLE. Think what that means in realism, in fun! Short staccato toots or long blasts can be sounded with ease. No other whistle made can do this realistically! With the American Flyer Air Chime Whistle there is no raspy, sandpaper sound, no irritating motor noise. There's no train slow-down, no big volume drop even if voltage is reduced. When the remote control button is pressed you hear the Air Chime Whistle INSTANTLY--there's none of the gear-grinding build-up that spoils realism. Tones are clean, sharp and clear! Furthermore, the new American Flyer Air Chime Whistle is completely trouble-free. There are no adjustments to make, no relays to get out of order. Yes, the big model railroad news for 1951 is the new American Flyer Air Chime Whistle.

Blow ANY Whistle Signal in  
the Railroad Code Book!

### LOOK AT THESE FEATURES!

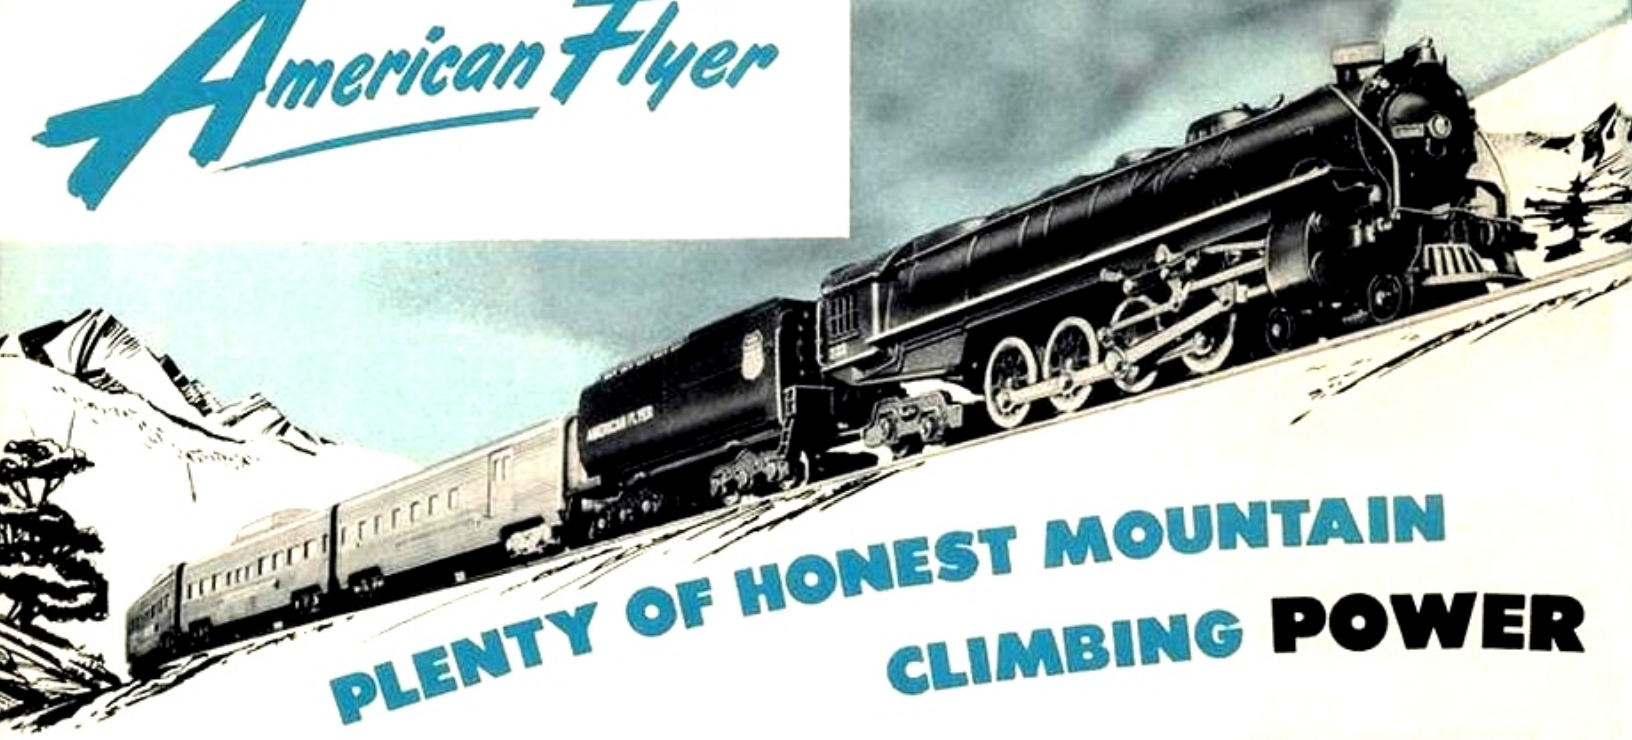

- Exact tone and pitch duplication of real Air Chime Whistle.
- Blow quick, short toots--impossible with other whistles.
- No grinding motor build-up, no fading of tone.
- Nothing to get out of order, no adjustments to make.

At Last! A Model Train Whistle that Sounds RIGHT!

NOTE: Due to emergency conditions beyond our control, The A. C. Gilbert Company reserves the right to change compositions, materials, finishes or carton packing, without notice. We cannot guarantee that orders placed will be shipped 100%.

# American Flyer

## PLENTY OF HONEST MOUNTAIN CLIMBING POWER

American Flyer locomotives have ALWAYS been famous for real, rugged power! With the famous Gilbert worm-drive motor (and Gilbert specializes in fractional horsepower motors, makes more of them than any other manufacturer in the world) American Flyer locomotives can climb stiff mountain grades, pull long strings of cars, streak along at high scale speeds. The reason? American Flyer trains and ONLY American Flyer trains are built to SCALE, thus have proper weight

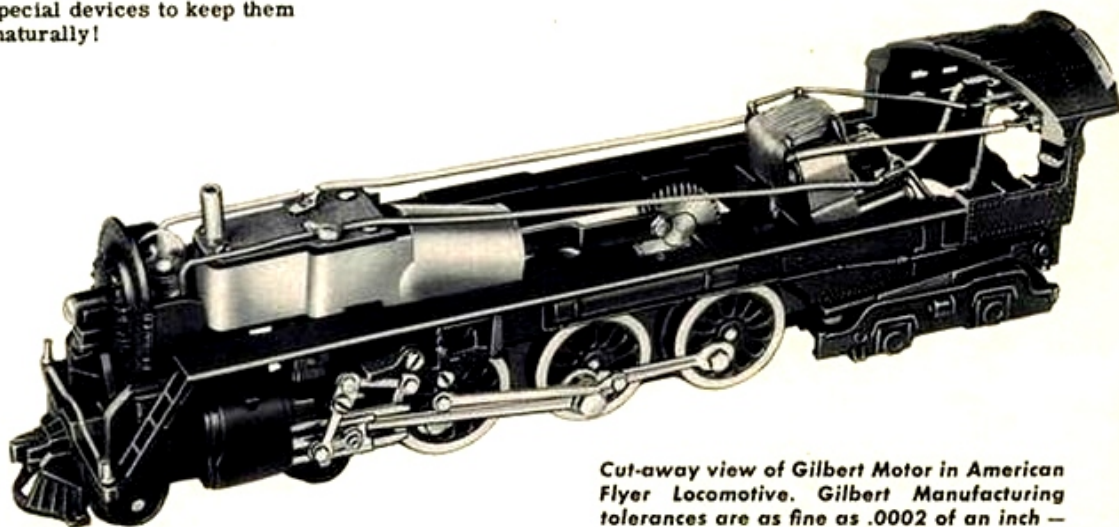

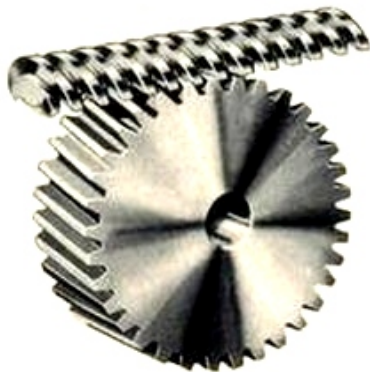

distribution and low center of gravity. Because they ARE in scale, American Flyer locomotives don't tend to topple on curves like other bulky, out-of-scale locos. This, plus the fact that American Flyer 2-rail flat top "T" track (on round rails there is only a small point of contact!) accounts for American Flyer power on grades, on long hauls and its speed on the "high iron."

## TRACK-GRIPPING WEIGHT LIKE REAL LOCOMOTIVES

Ever since John Stevens fired-up his hand-built steam locomotive more than 125 years ago, creating a brand new American era, railroad men have known that WEIGHT and POWER are the answers to good performance on the rails. That's how American Flyer locomotives are built--plenty of boiler weight and heavy driving wheels to provide solid, rail-hugging traction.

American Flyer trains don't need special devices to keep them on the tracks. They hug the rails naturally!

Another reason for American Flyer power is illustrated in the worm-and-gear from the Gilbert motor, below. This shows why gear action is smooth and effortless. It shows why American Flyer locomotives climb grades without slipping and make realistic starts and stops.

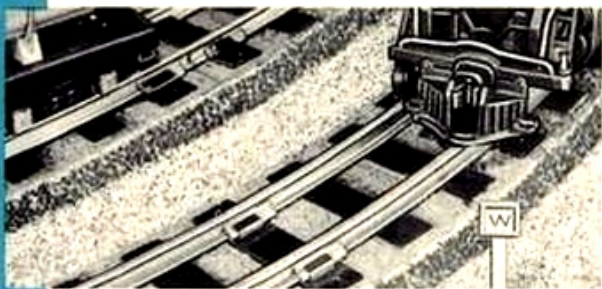

Cut-away view of Gilbert Motor in American Flyer Locomotive. Gilbert Manufacturing tolerances are as fine as .0002 of an inch — one tenth the diameter of a human hair!

# American Flyer

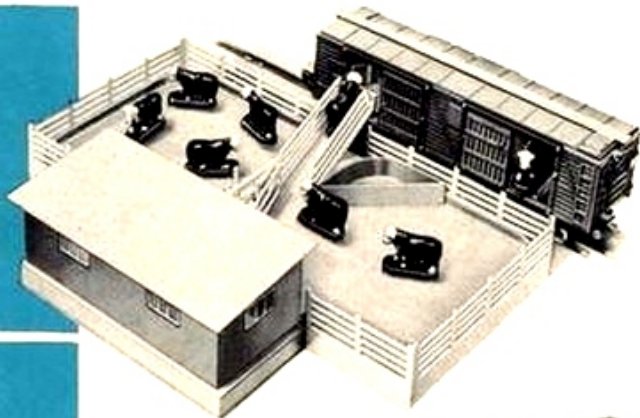

**BETTER THAN EVER FOR '51**

**RUBBER  
ROADBED**

Another American Flyer exclusive which created a sensation when introduced last year! Snaps onto American Flyer 2-rail track, looks like real roadbed. Deadens sound (wonderful for apartments, homes) and won't slip (no need to use nails or screws).

**LIFE-LIKE  
ACTION  
ACCESSORIES**

Nothing makes a model layout as colorful, realistic and exciting as American Flyer remote control Accessories. You'll find a large selection in every price range.

**REAL  
RAILROAD  
CARS**

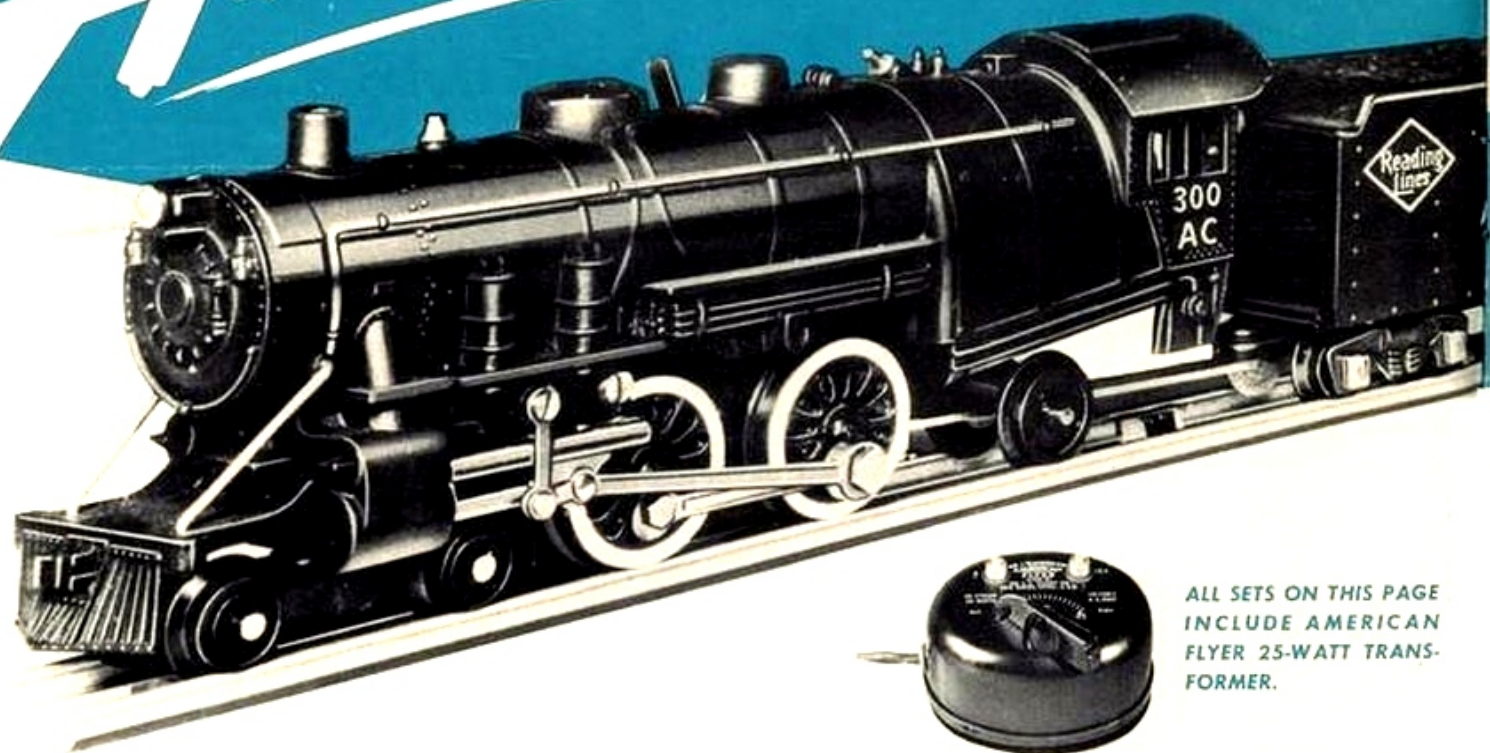

American Flyer stole a march with the beautiful streamlined all-aluminum passenger cars in '50. This year, American Flyer offers a selection of 35 scale model cars, both passenger and freight...largest choice in the model railroad business!

**POWERFUL  
LOCOMOTIVES**

Built like real to perform like real! Not only do American Flyer locomotives look like the big steam engines and mammoth Diesels of which they are true scale models, but they run like them, too. Superpower worm drive in the Gilbert motor assures instant, smooth starting and realistic operation. There's no jerky, jack-rabbit leap forward---your American Flyer locomotive gathers speed slowly and surely. Plenty of extra power, too; your American Flyer limiteds and fast freights can rocket along at scale speeds of 120 M. P. H.

## No. 590T "ATLANTIC" FREIGHT SET

Here's real value---and real American Flyer quality! Three scale freight cars plus an Atlantic-type Locomotive and Tender make this an outfit any boy would be proud to own. Train set fully remote controlled; cars uncouple at touch of button. Track forms 120" oval. Outfit measures 3 ft., 2 in. long.

### No. 590T FREIGHT INCLUDES:

- No. 300AC Atlantic-type 4-4-2 Locomotive and Tender. Loco die-cast; Tender pressed steel. 16" long.
- No. 631 Gondola Car. Green finish. For coal, ore, etc. 8".
- No. 642 Box Car. Red finish. Completely detailed. 7-3/16".
- No. 638 Caboose. Red finish. Has realistic cupola. 6".
- 12 sec. Curved Track, 1 No. 704 Uncoupler.
- 12 No. 693 Track Locks, No. 690 Track Terminal.
- No. 1 25-watt Transformer. Illustrated Instruction Book.

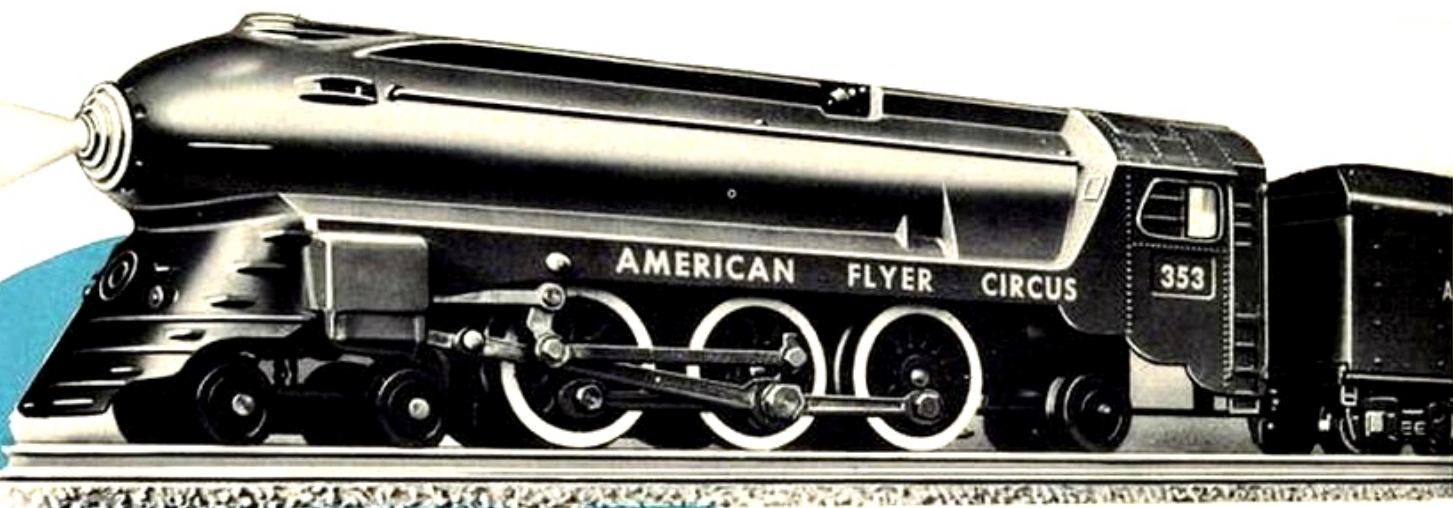

## No. 501T "ATLANTIC" FREIGHT OUTFIT WITH SMOKE AND CHOO-CHOO

It looks and performs like a train for which you'd expect to pay much more, yet it carries a low, low price tag! This remote controlled freight is powered by an American Flyer locomotive which puffs Smoke and has Choo-Choo sounds. When train goes faster, Smoke mounts in volume and Choo-Choos increase! Cars are accurate 3/16" scale; track and transformer included with set. Track forms 120" oval. Outfit measures 3 ft., 3/4-in. long.

### No. 501T TRAIN CONSISTS OF:

- No. 302AC Locomotive and Tender, with Smoke and Choo-Choo. 16".
- No. 640 Hopper Car, with gray finish. 6-3/8".
- No. 642 Box Car, with red finish. 7-3/16".
- No. 638 Caboose, with red finish. Has cupola, grab rails, etc. 6".
- 12 sec. Curved Track. No. 704 Uncoupler.
- No. 690 Track Terminal. No. 1 25-watt Transformer. Illustrated Instruction Book. Smoke Capsule and Funnel.

Outfits 5002T, 5104WT and 4904T, on this page, include an American Flyer "Superpower" Transformer.

**American Flyer**  
 MOST REALISM!  
 MOST POWER!  
 MOST VALUE!

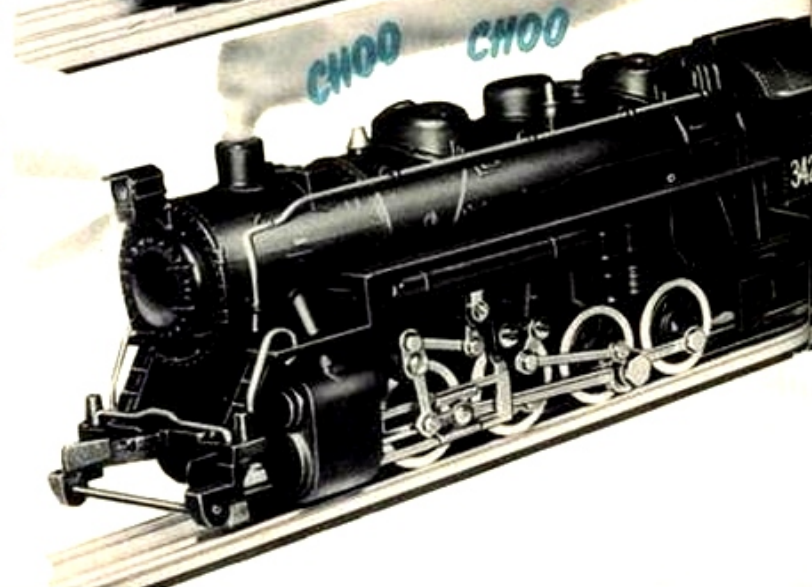

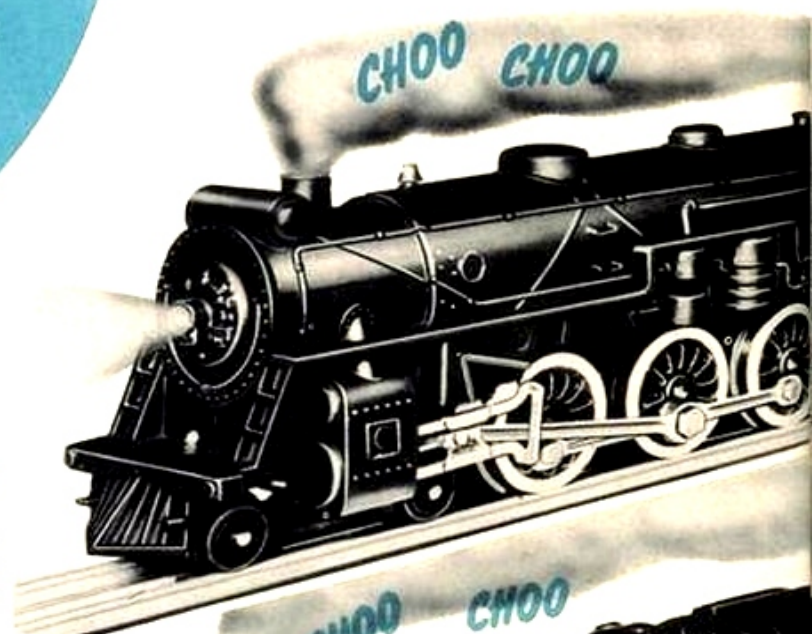

**No. 4904T "PACIFIC" FREIGHT TRAIN**  
 WITH SMOKE AND CHOO-CHOO

It's a three-car American Flyer "Pacific" Freight, complete with Smoke, Choo-Choo, and powerful 75-watt Transformer! Smoke and Choo-Choos increase with speed of train. Locomotive is 12-wheel type of the Pacific class, with 6 big drivers. Worm drive motor for smooth power. Cars include Box, Hopper and Caboose. Track forms 140" oval; set is 3 ft., 4-1/2 in. long. Packed 3 per carton.

**No. 4904T FREIGHT COMPRISES:**

- No. 290 Pacific Locomotive and Tender with Smoke and Choo-Choo. Loco die-cast; Tender pressed steel. No. 639 Box Car, with yellow finish. Intricate detail. 7-3/16".
- No. 640 Hopper Car, with gray finish. Hopper doors on underside. 6-3/8".
- No. 638 Caboose, with red finish. Has cupola, grab and end rails. 6".
- 12 sec. Curved Track, 2 sec. Straight Track.
- No. 706 Uncoupler, No. 690 Track Terminal.
- No. 2 75-watt Transformer, Illustrated Train Book.

**No. 4904T "PACIFIC" FREIGHT TRAIN**  
 WITH SMOKE AND CHOO-CHOO  
 Same as above, except without Air Chime Whistle.

**No. 5002T AMERICAN FLYER CIRCUS TRAIN  
COMPLETE WITH COLORFUL BIG TOP SETTING!**

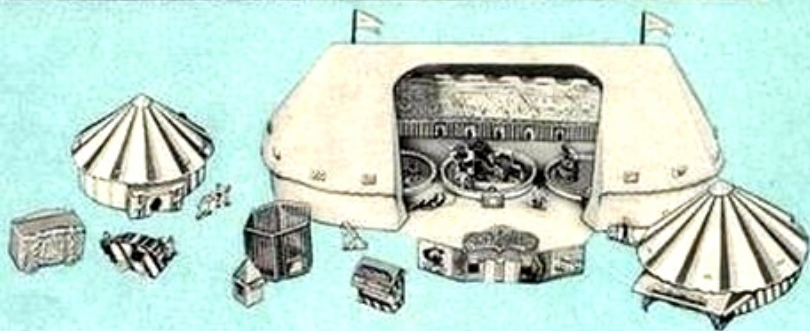

No. 5002T Set, below, measures 3 ft., 11½ in.; Track forms 140" oval.

One of the greatest trains in model railroad history--another American Flyer triumph! Not alone do you get a speedy American Flyer Circus Train, with Torpedo locomotive, trouper's car and animal cars, but a 27-piece Circus, ready to set up in a jiffy!

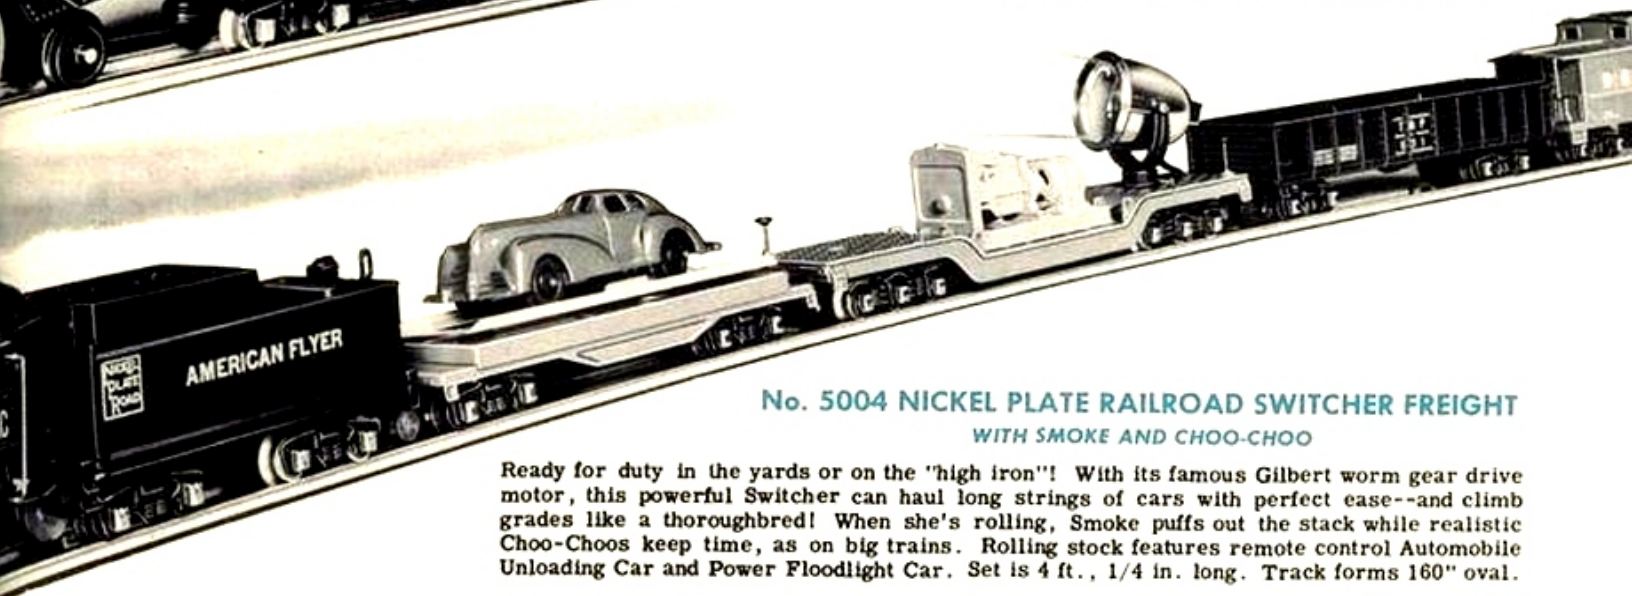

**No. 5002T TRAIN INCLUDES:**

- No. 353 Torpedo Locomotive and Tender, with red and yellow finish. 17-5/8".
- 2 No. 643 Circus Flat Cars, with Animal Cage and Truck. 8-3/4".
- No. 649 Circus Pullman Car, with interior illumination. Yellow finish, red lettering. 10-3/4".
- 12 sec. Curved Track, 2 sec. Straight Track.
- No. 1 25-watt Transformer, 14 No. 693 Track Locks.
- No. 690 Track Terminal, No. 704 Uncoupler.
- Circus Kit and package of tickets. Illustrated Instruction Book.

ALL AMERICAN FLYER TRAINS START, STOP, REVERSE AND UNCOUPLE BY REMOTE CONTROL

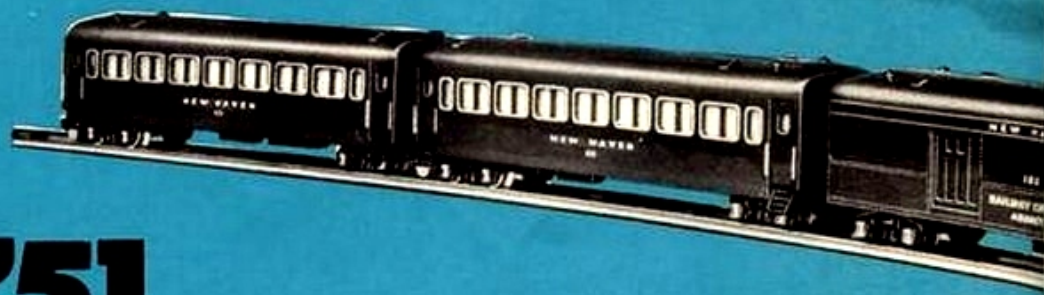

**No. 5004 NICKEL PLATE RAILROAD SWITCHER FREIGHT  
WITH SMOKE AND CHOO-CHOO**

Ready for duty in the yards or on the "high iron"! With its famous Gilbert worm gear drive motor, this powerful Switcher can haul long strings of cars with perfect ease--and climb grades like a thoroughbred! When she's rolling, Smoke puffs out the stack while realistic Choo-Choos keep time, as on big trains. Rolling stock features remote control Automobile Unloading Car and Power Floodlight Car. Set is 4 ft., 1/4 in. long. Track forms 160" oval.

**No. 5004 SWITCHER FREIGHT CONSISTS OF:**

- No. 342AC Locomotive and Tender, 14-3/4" long. Die cast loco puffs Smoke and sounds Choo-Choos. Has regulation appointments.
- No. 715 Automobile Unloading Car. 7-3/4". By remote control platform swivels and car rolls off.
- No. 646 Power Floodlight Car: 10-1/2"--No. 631 Gondola Car. 8". No. 630 illuminated Caboose. 6" --12 sec. Curved Track. 4 sec. Straight Track--16 Track Locks--Track Terminal. No. 706 Automatic Uncoupler--Illustrated Train Book. Smoke Capsule and Funnel.

to catch in '51

## No. 5114 PENNSYLVANIA K-5 PASSENGER TRAIN WITH SMOKE AND CHOO-CHOO

All ready for speedy transcontinental or commuter runs -- and ready, too, to drop off and pick up important mail on the fly! Heading up this de luxe passenger outfit is a 12-wheel rail giant that puffs Smoke and has Choo-Choo sounds - the Pennsylvania Railroad K-5 Locomotive. Rolling stock features the American Flyer Mail Pick-up Car that operates by remote control. Set measures 5 ft., 5 in. Track forms 160" oval. Packed 3 per carton.

### No. 5114 SET INCLUDES:

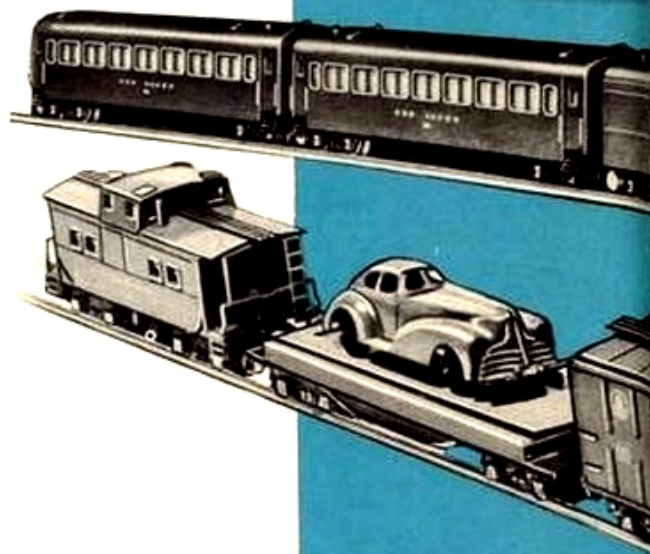

- No. 315 Pennsylvania Railroad K-5 Locomotive and Tender, with Smoke and Choo-Choo. 19" long.
- No. 718R Automatic Mail Pick-up Car, with Stanchion, Mail Sacks and Control Box. Car is 10-3/4" long.
- 2 No. 650R Illuminated Coaches, with inset windows. 10-3/4" long.
- 12 sec. Curved Track -- 4 sec. Straight Track. No. 706 Automatic Uncoupler -- No. 712 Automatic Track section. No. 690 Track Terminal -- 16 Track Locks -- Smoke Capsule and funnel. Illustrated Train Book.

## No. 5112T GENERAL MOTORS DIESEL SWITCHER SET COMPLETE WITH TRANSFORMER

The Locomotive which powers this remarkable train set is a minutely-detailed 3/16" American Flyer scale model of the new General Motors GP-7 Road Switcher--one of the real railroad's newest "yard goats." Double worm drive Gilbert motor provides plenty of power for yard service or mainline hauls. With its three freight cars there's plenty of action to be had with this outfit. Automobile Unloading Car operates by remote control. Set measures 34-1/4 inches. Track forms 160" oval. Transformer included.

### No. 5112T DIESEL SWITCHER SET INCLUDES:

- No. 370 GM Diesel Switcher, fully detailed. Illuminated number box on nose. 10-1/2" long.
- No. 715 Automobile Unloading Car. 7-3/4" long. No. 630 Illuminated Caboose. 6" long.
- No. 633 Box Car, with sliding doors for loading. 9-3/4" long.
- No. 706 Automatic Uncoupler -- No. 690 Track Terminal. No. 2 75-watt Transformer -- Track Locks -- Illustrated Train Book. 12 sec. Curved Track -- 4 sec. Straight Track.

## No. 5103WT AMERICAN FLYER "PACIFIC" PASSENGER SET

WITH SMOKE, CHOO-CHOO AND AIR CHIME WHISTLE

Packed with real railroading thrills! Not only does this scale model three-car passenger train puff real Smoke and sound Choo-Choos, but it blows a remote control Air Chime Whistle--real railroading's newest feature! Touch of a button sounds short toots, or long, drawn-out blasts. Coaches are fully illuminated inside; locomotive has regulation appointments and is accurately detailed. Set measures 4 ft., 2 in. Track forms 140" oval. Packed 3 per carton.

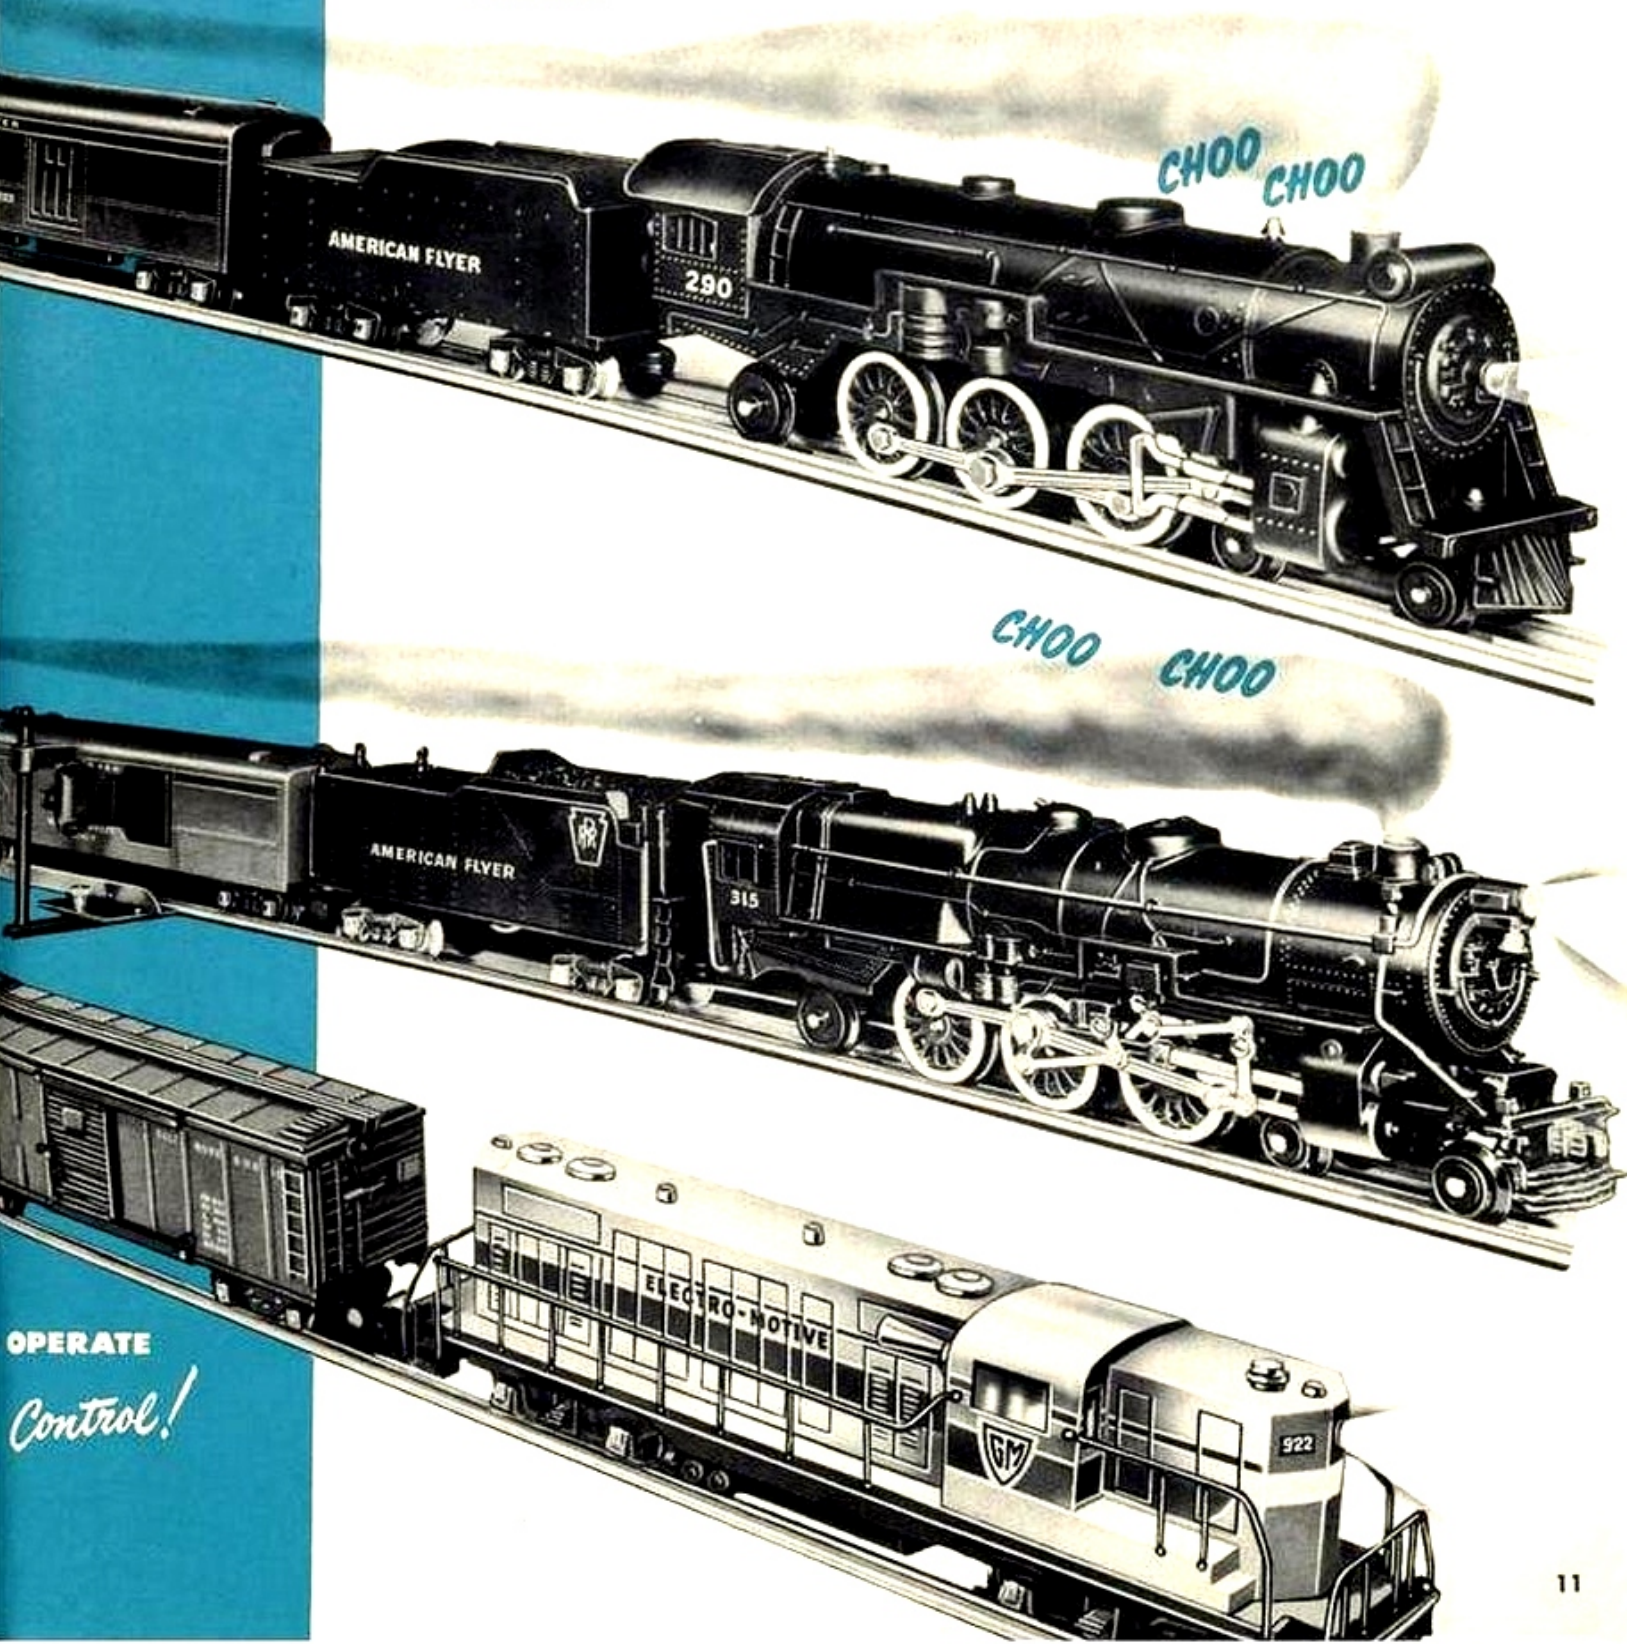

### No. 5103WT PASSENGER TRAIN COMPRISES:

No. 290 "Pacific" Locomotive and Tender, with Smoke, Choo-Choo and built-in Air Chime Whistle. 17-3/4" long.

No. 651G Baggage Car. Includes hatches, rivet heads and other detail. 10-3/4".

2 No. 650G Illuminated Passenger Coaches. Inset windows, steps, etc. 10-3/4".

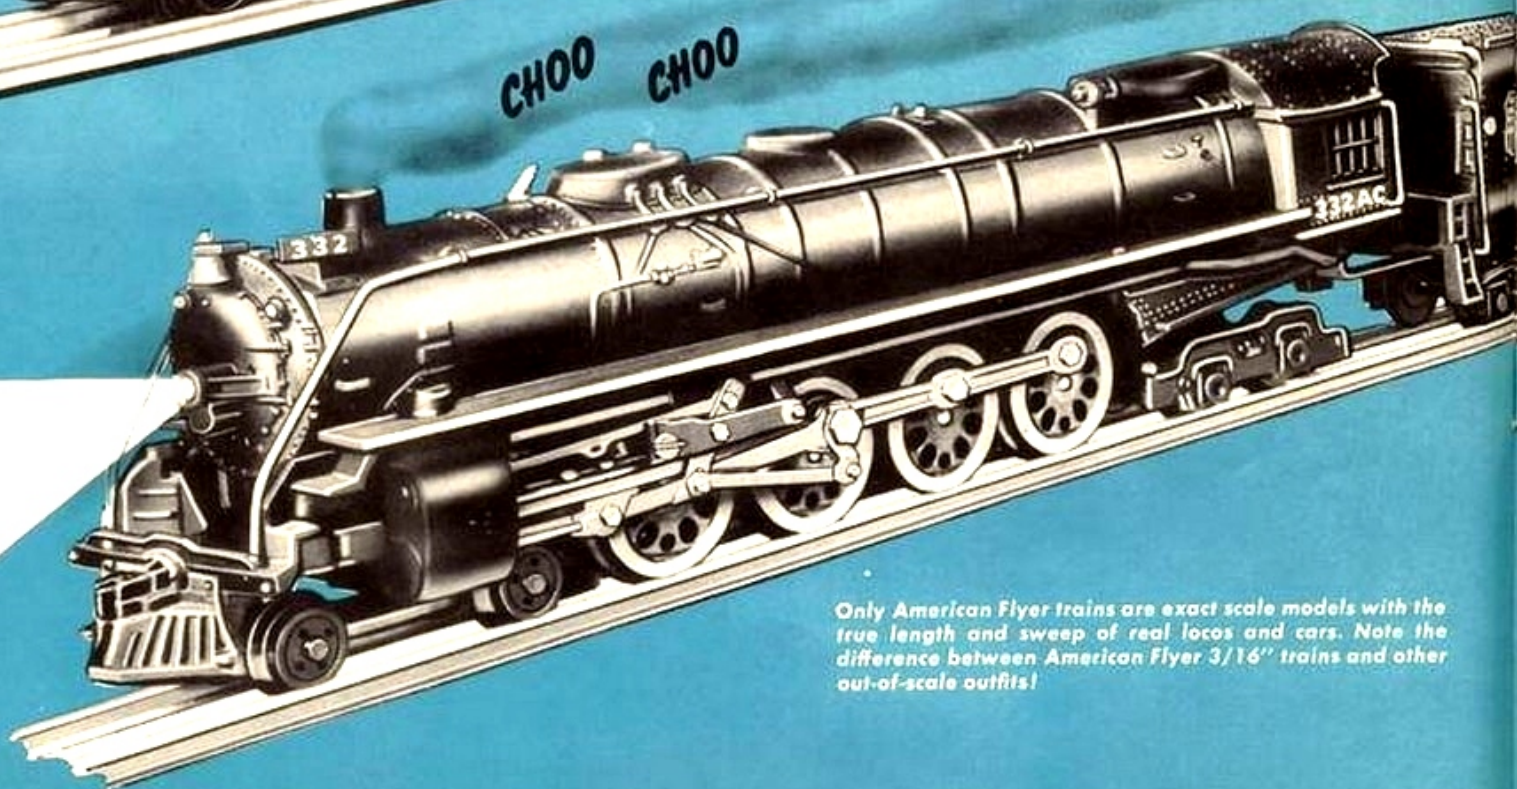

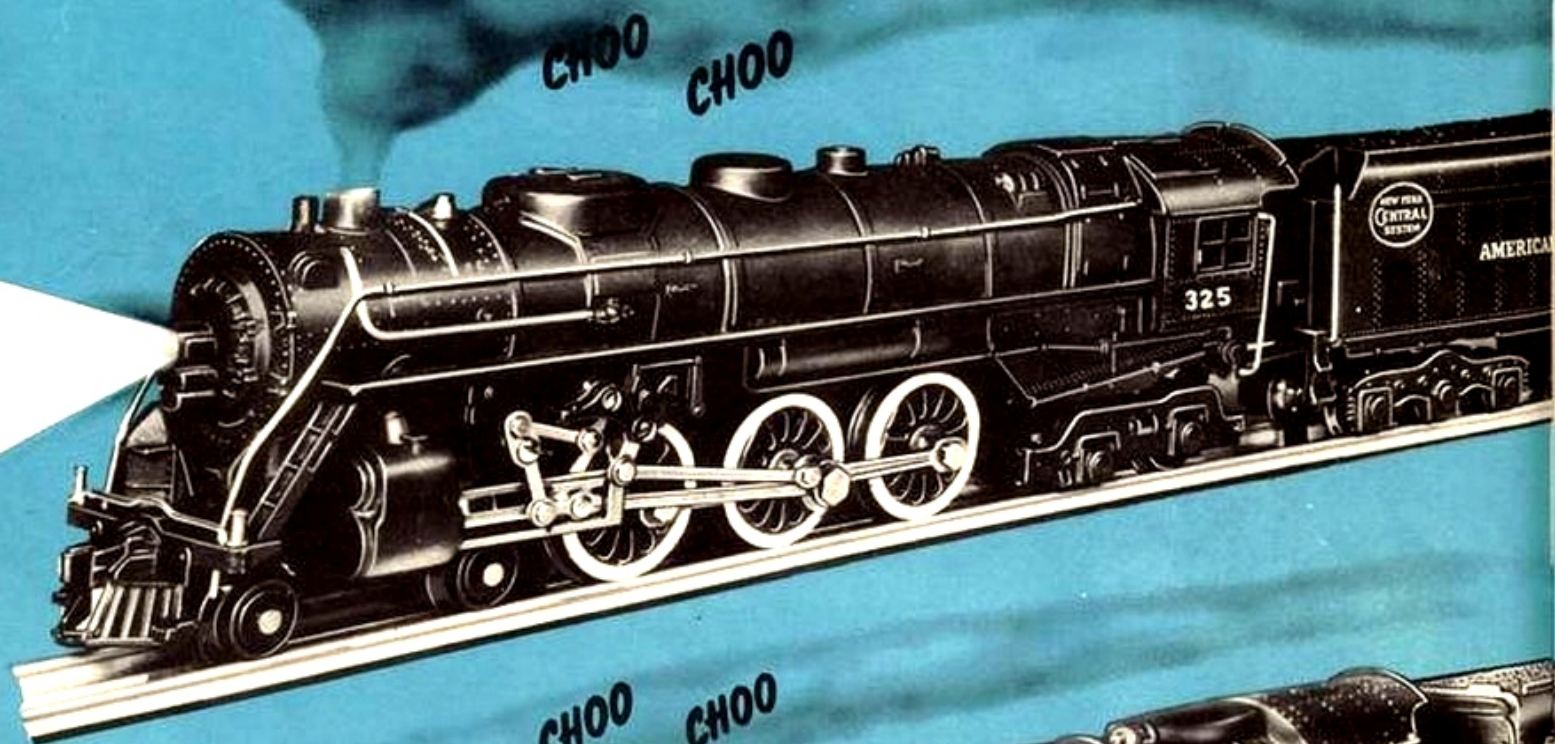

2 sec. Straight Track -- 12 sec. Curved Track; No. 2 75-Watt Transformer -- No. 706 Automatic Uncoupler -- Track Locks. Smoke Capsule and Funnel -- Track Terminal -- Illustrated Train Book.

ONLY

# American Flyer

HAS SMOKE • CHOO-CHOO • TWO-RAIL

Only American Flyer trains are exact scale models with the true length and sweep of real locos and cars. Note the difference between American Flyer 3/16" trains and other out-of-scale outfits!

## No. 5106WT AMERICAN FLYER "HUDSON" FREIGHT SET

WITH SMOKE, CHOO-CHOO AND AIR CHIME WHISTLE

A truly magnificent train set--four scale model freight cars plus a locomotive that looks and sounds like a real steam engine! All remote control operated, this extraordinary American Flyer Hudson-type loco puffs Smoke and sounds Choo-Choos as it speeds along the rails, while a touch of a button blows the new Air Chime Whistle. Here, indeed, is a set to bring joy to the heart of any boy--and his father! Transformer included. Track forms 160" oval. Set measures 4 ft. , 3 in.

### No. 5106WT FREIGHT INCLUDES:

- No. 325 Hudson Locomotive and Tender with Smoke, Choo-Choo and Air Chime Whistle. 19" long.
- No. 629 Cattle Car, with sliding doors and complete detail. 7-13/16" long.
- No. 631 Gondola Car. Has hand and grab rails, rivet heads, ribs, etc. 8" long.
- No. 625 Tank Car. Carries realistic Gulf Oil emblem. 7-5/8" long.
- No. 630 Caboose, with interior illumination. Complete detailing. 6" long.
- No. 706 Automatic Uncoupler -- No. 2 75-Watt Transformer. 12 sec. Curved Track -- 4 sec. Straight Track -- Smoke Capsule and Funnel. 16 Track Locks -- Track Terminal -- Whistle Control -- Illustrated Train Book.

## No. 5106T AMERICAN FLYER "HUDSON" FREIGHT SET

WITH SMOKE AND CHOO-CHOO

**SANTA FE DIESEL**

THE FINEST ELECTRIC TRAIN  
EVER MADE — EACH WITH TWO  
POWERFUL MOTORS AND THE NEW  
BUILT-IN AIR CHIME WHISTLE!

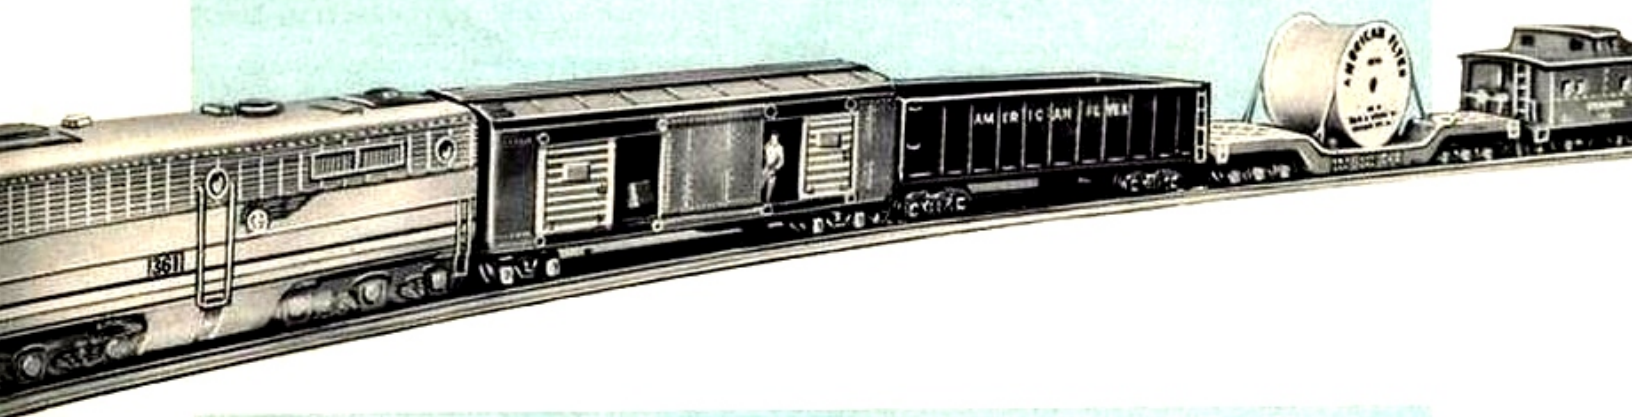

## No. 5107W AMERICAN FLYER SANTA FE DIESEL FREIGHT TRAIN WITH AIR CHIME WHISTLE

An exact replica in miniature of the famous Diesel-powered fast freights that rocket along at passenger train speeds! Two big Gilbert motors in the Santa Fe Locomotive provide plenty of mountain-climbing power or enable train to travel at realistic crawling speeds in yards, terminals, etc. Air Chime Whistle, with authentic pitch of real-life Nathan Air Chime Whistle, blows by remote control. Rolling stock includes Box Car which operates by remote control. Set is 4 ft., 9-1/4 in. long. Track forms 160" oval.

### No. 5107W DIESEL FREIGHT INCLUDES:

- No. 365 Santa Fe Diesel Locomotive with built-in Air Chime Whistle and twin motors. Combined "A" and "B" units measure 23-7/8" long.
- No. 734 remote control Operating Box Car, with crates. 7-13/16".
- No. 631 Gondola Car. Detailing includes ribs, steps, etc. 8" ..
- No. 636 Depressed Center Flat Car. Carries huge reel of simulated steel wire, lashed to body. 10-1/2" long.
- No. 630 Caboose, illuminated. Realistic cupola. 6" long.
- 12 sec. Curved Track -- 4 sec. Straight Track. No. 706 Automatic Uncoupler -- 16 Track Locks -- Track Terminal. Air Chime Whistle Control -- Illustrated Train Book.

## No. 5108W AMERICAN FLYER SANTA FE DIESEL PASSENGER SET WITH AIR CHIME WHISTLE

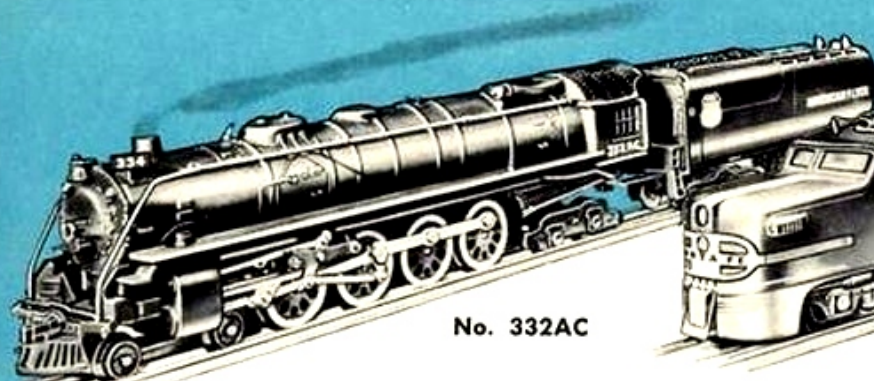

No train in model railroading's 50-year history has received such great acclaim, such extravagant praise, as this sleek, streamlined American Flyer beauty! Its performance is a joy to watch. Swift and powerful (TWO giant motors!) it streaks along the rails looking just like the real Santa Fe train of which it is a 3/16" scale model. New Air Chime Whistle blows short toots or long blasts; all-aluminum cars are illuminated and have silhouetted passengers in windows. Set measures 5 ft., 1-1/2 in. Track forms 180" oval.

### No. 5108W TRAIN CONSISTS OF:

- No. 365 Santa Fe Diesel Locomotive with Twin Motors and built-in Air Chime Whistle. Combined "A" and "B" unit measurement: 23-7/8" long
- No. 660 Aluminum illuminated streamlined Baggage Car. 12-1/2".
- No. 662 Aluminum illuminated Vista Dome Pullman Car. 12-1/2".
- No. 663 Aluminum illuminated streamlined Observation Car. 12-1/2".
- 12 sec. Curved Track -- 6 sec. Straight Track. 18 Track Locks -- No. 690 Track Terminal - Automatic Uncoupler-Air Chime Whistle Control -- Illustrated Train Book.

No. 332AC

## No. 332AC "UNION PACIFIC" LOCOMOTIVE AND TENDER WITH SMOKE AND CHOO-CHOO

Just look at the sweeping length of this mighty powerhouse and you'll understand why it's rated one of the finest model locomotives ever built. A full 21-1/2" from coupler to coupler and magnificently detailed throughout! Now, with Air Chime Whistle, plus Smoke and Choo-Choo, it's better than ever! Locomotive and Tender are both die cast.

No. 365

## No. 365 SANTA FE DIESEL LOCOMOTIVE WITH AIR CHIME HORN

Making its debut last year, this sleek beauty has been acclaimed by all who saw it! Thanks to precise 3/16" scaling, it has the length and sweep of the real Alco Diesel after which it is patterned. Now, with remote control Air Chime Whistle, this magnificent Diesel is even better. TWO powerful motors for extra climb, speed! 23-7/8".

## No. 295 "PACIFIC" LOCOMOTIVE AND TENDER WITH SMOKE, CHOO-CHOO AND AIR CHIME WHISTLE

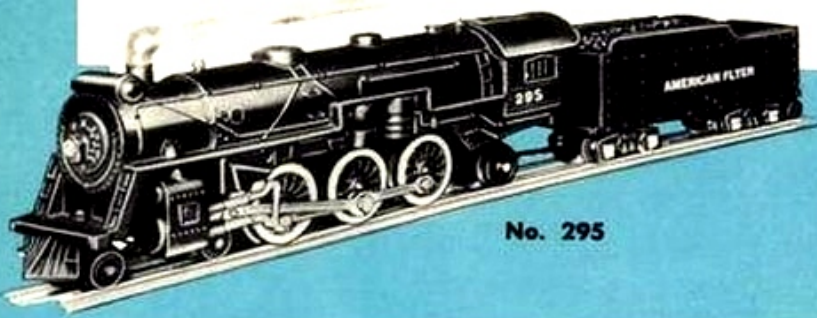

Here's real pulling power and plenty of it, with six big driving wheels for mountain-climbing traction and straight-away speed. New Air Chime Whistle sounds long blasts or sharp toots by remote control, synchronized Smoke and Choo-Choos make this a real beauty. Length is 17-3/4".

## No. 290 "PACIFIC" LOCOMOTIVE AND TENDER WITH SMOKE AND CHOO-CHOO

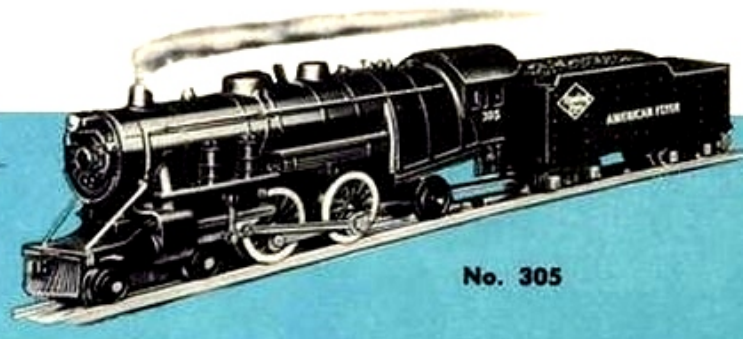

Same as above, except without Air Chime Whistle.

## No. 305 "ATLANTIC" LOCOMOTIVE AND TENDER WITH SMOKE, CHOO-CHOO AND AIR CHIME WHISTLE

Ready for yard duty or fast mainline runs! Die cast Locomotive and pressed steel Tender built to exact 3/16" scale, with realistic length! Smoke puffs from stack when Locomotive runs, while Choo-Choos keep time. Brand new Air Chime Whistle blows by remote control. Length is 16".

No. 295

No. 305

## AMERICAN FLYER

### TRANSFORMERS

No model railroad or train set is better than the transformer through which the household current passes. That's why American Flyer "Safety First" transformers are built to the highest standards of quality and workmanship, are made to last a lifetime of normal use. When you select your Transformer, make sure it's the best - an American Flyer "Safety First."

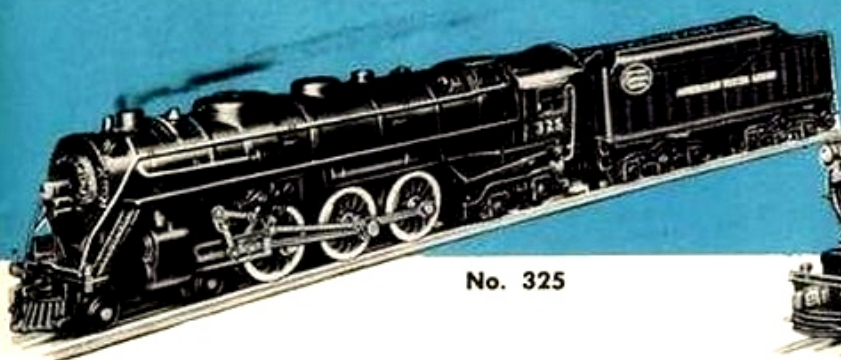

## No. 12B TWIN-CONTROL TRANSFORMER

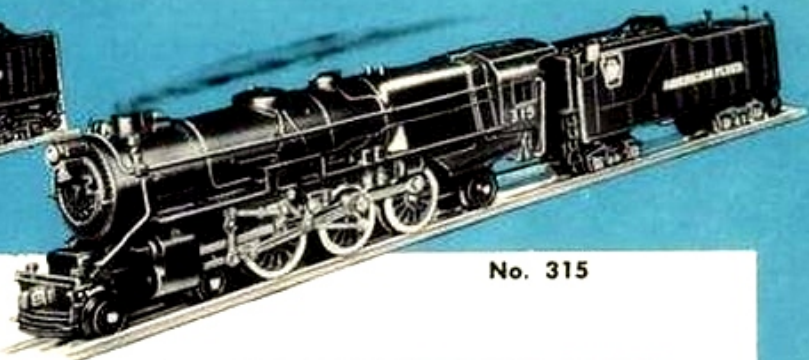

Output 250 Watts, 60 Cycles AC. Ideal for heavy duty on big track layouts with numerous accessories or more than one train. Has dual speed control throttle. Transformer will run from two to four trains on the same layout or on two separate layouts at different rates of speed! Has built-in Circuit Breaker with re-set button. Power cut-off switch eliminates need for disconnecting outlet plug. Red and green pilot lights show over-load and power-on. Durable steel case. Packed one per carton. Weight: 12 lbs.

# LOCOMOTIVES AND TENDERS

No. 325

No. 315

**No. 325 "HUDSON" LOCOMOTIVE AND TENDER  
WITH SMOKE, CHOO-CHOO AND AIR CHIME WHISTLE**

Magnificent scale model of the powerful real-life Locomotive made famous on crack New York Central runs. Has 14 wheels, including 6 drivers, 4 ponies, 4 boosters. Smoke puffs out while Choo-Choos keep time. New Air Chime Whistle blows blasts or toots by remote control. 19".

**No. 315 PENN. K-5 LOCOMOTIVE AND TENDER  
WITH SMOKE, CHOO-CHOO AND AIR CHIME WHISTLE**

A scale model beauty of one of the most famous rail giants in railroad history: the Pennsylvania Railroad K-5 steam engine. Now, for 1951, it has new remote control Air Chime Whistle, plus Smoke and Choo-Choo. 17-3/4".

**No. 322AC "HUDSON" LOCOMOTIVE AND TENDER  
WITH SMOKE AND CHOO-CHOO**

Same as above, except without Air Chime Whistle.

**No. 312AC PENN. K-5 LOCOMOTIVE AND TENDER  
WITH SMOKE AND CHOO-CHOO**

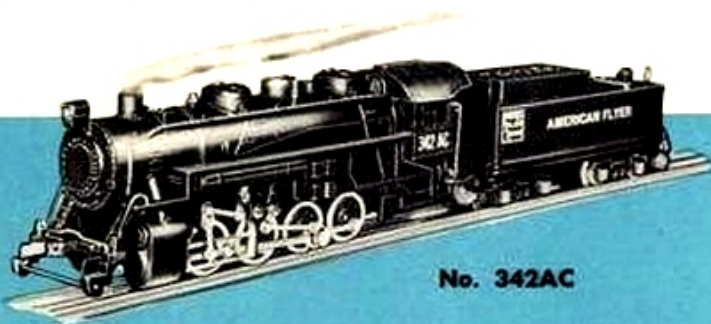

Same as above, except without Air Chime Whistle.

**No. 342AC "NICKEL PLATE R.R." SWITCHER  
WITH SMOKE AND CHOO-CHOO**

Perfectly scaled "yard goat" with regulation appointments and carrying a wealth of detail. Has eight big driving wheels (0-8-0) and intricate valve gear action. Smoke puffs out of stack in volume, while realistic Choo-Choos add utmost in model train realism. 14-3/4"

**No. 370 G.M. DIESEL SWITCHER**

Another American Flyer first! This beautiful scale model Locomotive, fully detailed, is patterned after the new General Motors GP-7 Road Switcher, already doing yeoman service in major railroad yards. Length is 10-1/2".

No. 342AC

No. 370

**No. 4B TRANSFORMER**

Output 100 Watts, 60 Cycles AC. Has Automatic Thermostatic Circuit Breaker built into Transformer. Three binding posts for simplified wiring. Case is durable pressed steel, enameled on attractive Gray. Underwriters' approved. Complete with 6 ft. Gray cord. Packed 6 per carton. Weight: 30 lbs.

**No. 2 TRANSFORMER** 75 Watts, 60 Cycles AC. Same as above except has black finish and is without Circuit Breaker.

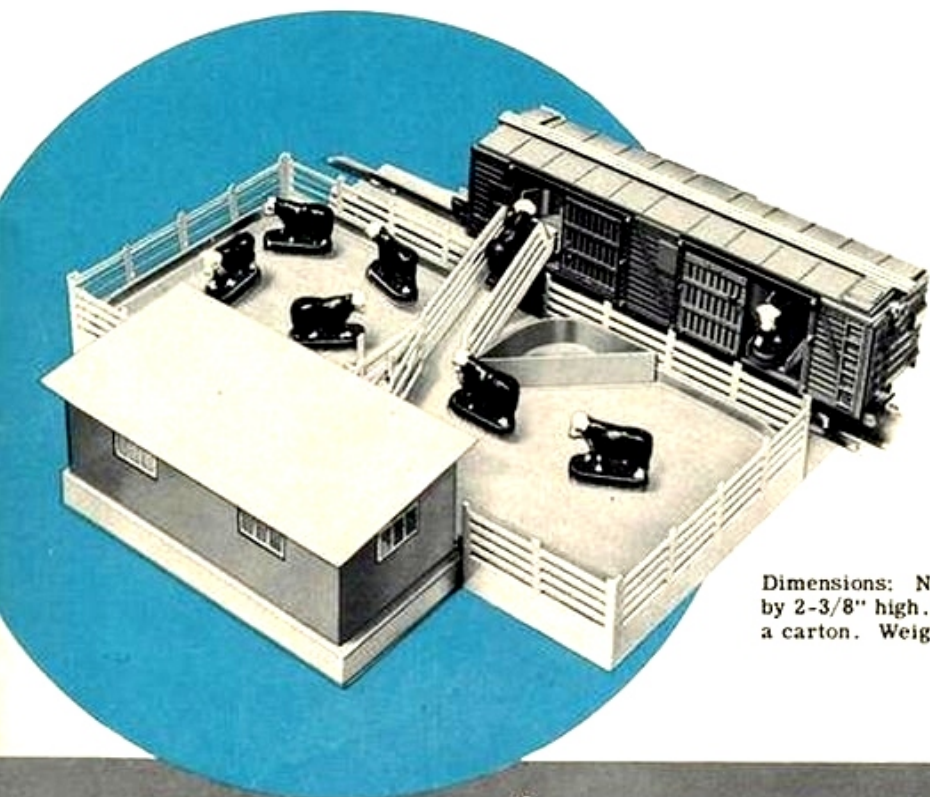

**No. 8B TRANSFORMER**

Power output 100 Watts, 60 Cycles AC. Has built-in Circuit Breaker with re-set button to use in starting, stopping and reversing the direction of your Locomotive. Packed 6 to carton. Weight: 29 lbs.

**No. 15 RECTIFIER**

Capacity - 4 Amperes. Provides easy method of converting alternating current to direct current for operation of Electronic Propulsion Locomotives. Must be used with transformer. Toggle switch controls locomotive direction. Packed three to carton. Weight per carton: 7 lbs.

#### No. 771 OPERATING STOCKYARD AND CAR

Fascinating to watch - ingenious in operation! Action is entirely automatic; when remote control button is pressed, white-faced steers in Stock Yard pens begin to mill about and move continuously. After exit gate is opened, cattle troop up ramp and into Stock Car! Accessory can be operated in a variety of ways - cattle in one pen will keep in motion while rest of animals file either into or out of car! Stock Car has two sliding doors to permit loading on one end and unloading from other end. Yard has realistic five-bar corral fence. Base is painted grass green. Stock shed enameled brown with green roof and yellow window trim. Base is designed to lock track in position and is equipped with contact mechanism for operation of Car.

Dimensions: No. 771 Stock Yard measures 11" long by 10-1/2" wide by 2-3/8" high. Stock Car is 7-13/16" long. Accessory is packed 3 to a carton. Weight 12 lbs. per carton. Sold as unit only.

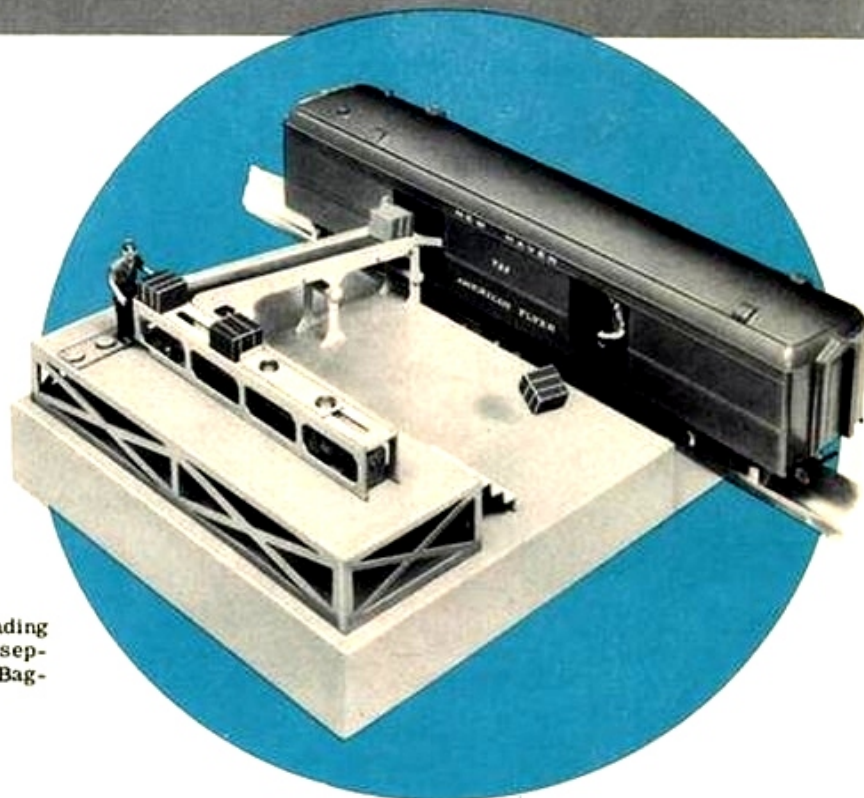

*Operates by

#### No. 770 BAGGAGE LOADING PLATFORM

Just like the real-life loading operations conducted in big railroad freight terminals! Includes die-cast Packing Boxes, each one with simulated crimped steel bands. Boxes are placed on loading ramp and, each time remote control button is pressed, are fed singly to Trainman who lowers chute extension and sends box into car. Ramp and Chute floor constructed of brass and finished in polished nickel. Base enameled in rich green. Measures 7" long by 8-1/2" wide by 3-3/4" high. Baggage car, illustrated, not included. Packed 3 per carton. Carton weight 6 lbs.

Baggage Car, shown above with No. 770 Loading Platform is NOT included. Platform is sold separately and can be used with either No. 732 Baggage Car or No. 734 Operating Box Car.

# FOR THE BEST IN ACCESSORIES

# American Flyer

No. 755A

## No. 755A TALKING STATION

Never in the history of electric trains has there been an accessory with the sustained popularity of this amazing station! Action is fantastic. Ingenious mechanism concealed in station interior automatically halts train and then, while train waits to load and discharge "passengers," produces life-like station sounds: hissing steam, piston chug, whistles, train announcements, etc. After sounds cease, train automatically proceeds on its way. Entire operation fascinating to see and hear. Resistor unit, new for 1951, does away with need for locking remote control unit and provides full directional control of locomotive. Station is all-metal; base, house, roof, etc., made of heavy pressed steel, deeply embossed. Measures 6" x 12" x 8". Packed 1 per carton. Carton weight 8 lbs.

NOTE: No. 598 Talking Station Records for accessory above are also sold separately.

## No. 760 HIGHWAY FLASHER

This colorful automatic accessory, patterned after those on all real railroad right-of-ways, warns "motorists" of approaching trains. As train nears grade crossing, red lights flash on and off, ceasing only after last car has passed. Accessory has heavy die-cast base; cross arms and stanchion are steel. Lamp housing die-cast. Two-post terminal. Stands 4-7/8" high; base is 2-1/8" square. Packed 6 per carton. Carton weight 11 lbs.

## No. 773 OIL DERRICK

Here's an ingenious accessory that's fascinating to watch and it's completely automatic! Constructed like the latticework steel derricks in oil fields, it has a center tube containing an amber oil-like liquid. In operation, liquid appears to be pumped from ground, giving the illusion of gushing oil. Action is continuous; no buttons to push. Accessory stands 12" high; base is 5" square. Packed individually and 6 per carton. Carton weight 6 lbs.

## No. 758A "SAM" THE SEMAPHORE MAN

One of the most successful, fun-packed railroad accessories ever made! Brand new operating design for '51 - has two-button control box plus resistor unit which provides full directional control of train. No need to lock remote control unit for reversing, forward speeds, etc. Press first button and Sam dashes out of shack, bringing on-rushing train to a halt. Press second button and Sam hustles back into house, enabling train to resume its trip. Accessory is sturdy all-metal construction; base, house and roof are pressed steel; tool box and Sam are die-cast. Bright enamel finishes are baked on. Stands 7-1/4" high. Packed 6 per carton. Carton weight 11 lbs.

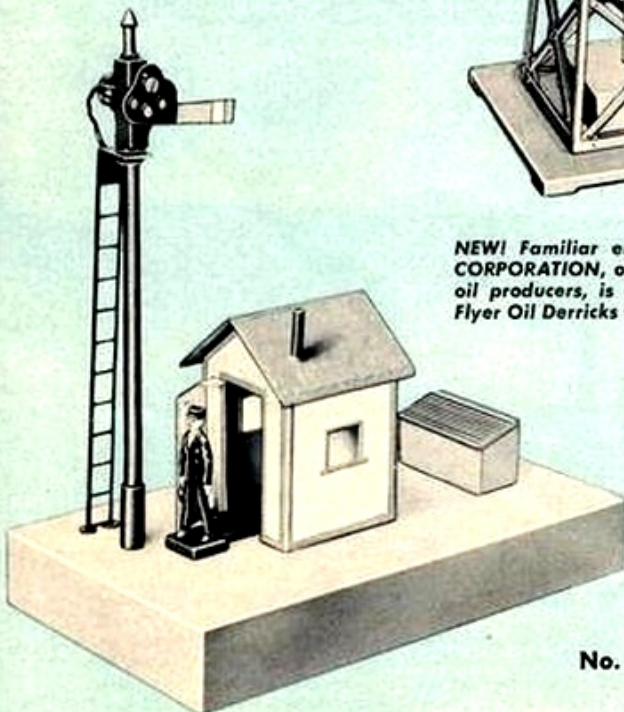

No. 760

No. 773

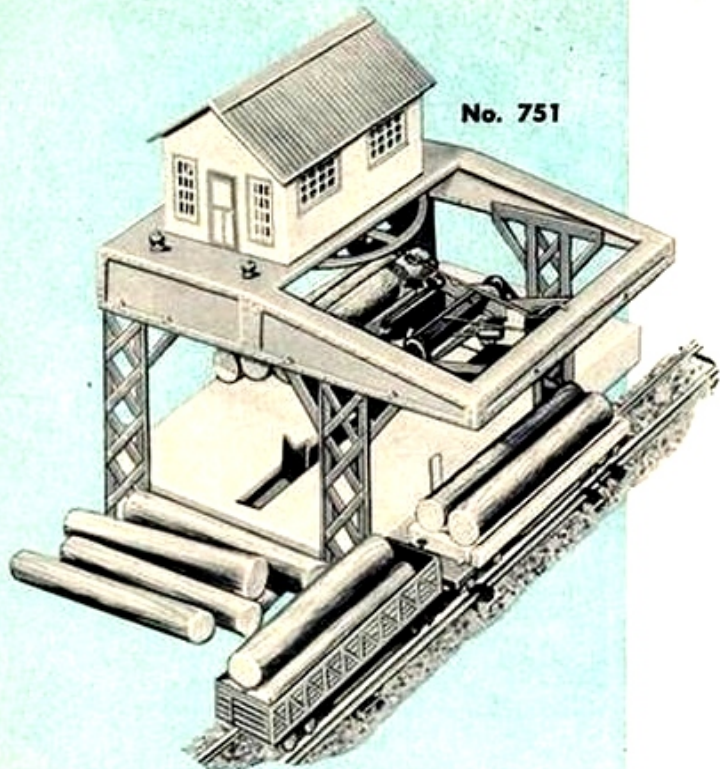

NEW! Familiar emblem of GULF OIL CORPORATION, one of world's largest oil producers, is carried on American Flyer Oil Derricks for utmost in realism.

# AMERICAN FLYER

No. 751

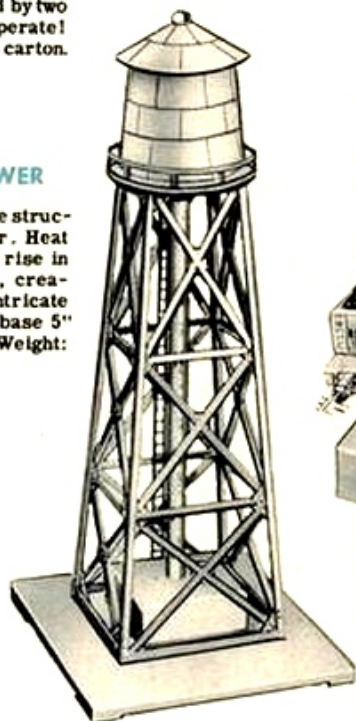

No. 751 AUTOMATIC LOG LOADER

Fascinating to watch! By remote control, Elevator lifts each log to overhead conveyor, which then carries log underneath roof to end of arms. Log tumbles into waiting car. Action is directed by two remote control push buttons -- easy to operate! 8-7/8" x 11-1/2" x 11". Packed 1 per carton. Weight: 7 lbs.

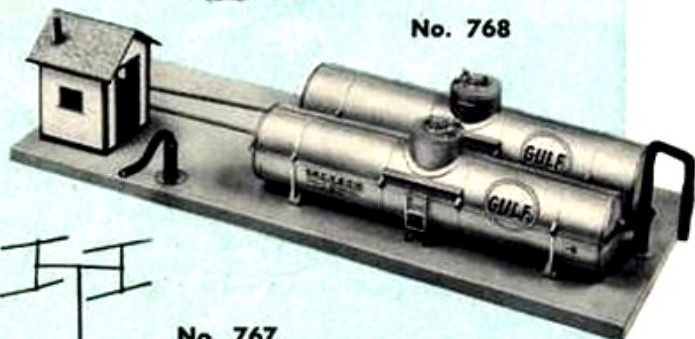

No. 772

No. 772 AUTOMATIC WATER TOWER

Remarkable action! Lattice-work girder-type structure houses transparent glass pipe in center. Heat lamp concealed in base causes bubbles to rise in pipe and flow into upper water storage tank, creating illusion of water pumped from well. Intricate molded detail, heavy base. 12-1/4" high, base 5" square. Packed indiv. and 6 per carton. Weight: 6 lbs.

No. 768

No. 768 OIL SUPPLY DEPOT

Suitable for big rail terminals or way stations on your miniature American Flyer layout. Scale proportioned after Oil Storage Depots which provide fuel for Diesel Locomotives. Base is durable and heavy; single-dome tanks carry Gulf Oil markings. Pump House, pipe lines, etc., add to realism. Dimensions: 12" x 4-1/2" x 3". Packed 6 per carton. Weight: 9 lbs.

No. 767

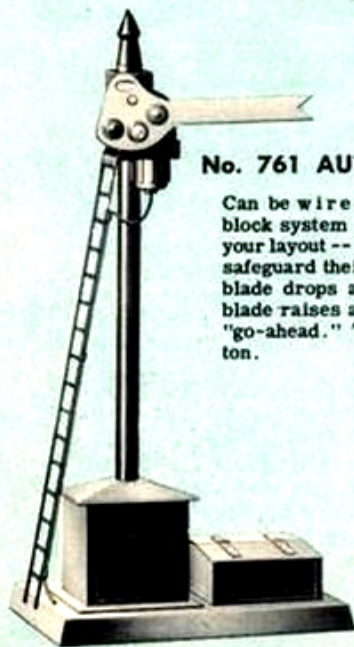

No. 767 ROADSIDE DINER

Colorful, realistic new Accessory designed to heighten interest in layouts of any size. Similar to diners located along highways and near railroad yards and terminals. Has inset windows plus exit and entrance door. Roof Television Antenna adds up-to-date touch! Has overhead sign. Measures 12" x 3" x 2-1/2". Packed 6 per carton. Weight: 7-1/2 lbs.

No. 761 AUTOMATIC SEMAPHORE

Can be wired to provide an automatic block system control of two trains on your layout -- just the way real railroads safeguard their runs! When train nears, blade drops and light turns red. Then blade raises and bull's eye shines green "go-ahead." 7-3/8". Packed 6 per carton.

No. 761

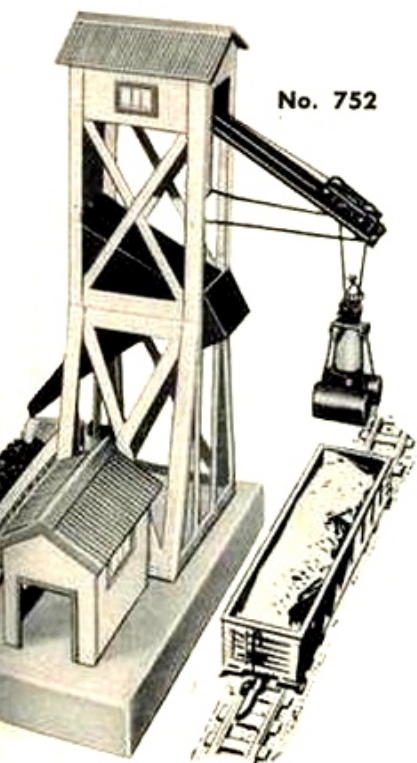

No. 586F

No. 586F WAYSIDE STATION With Figures

Similar to stations seen on suburban and commuter lines. Brightly finished in red, green and yellow. Has double bench; twin bulbs cascade light from underside of roof. Includes Baggage Truck and Operator plus Red Cap with luggage. 12" x 3-3/4" x 5". Packed 6 per carton. Weight: 12 lbs.

# Accessories for '51

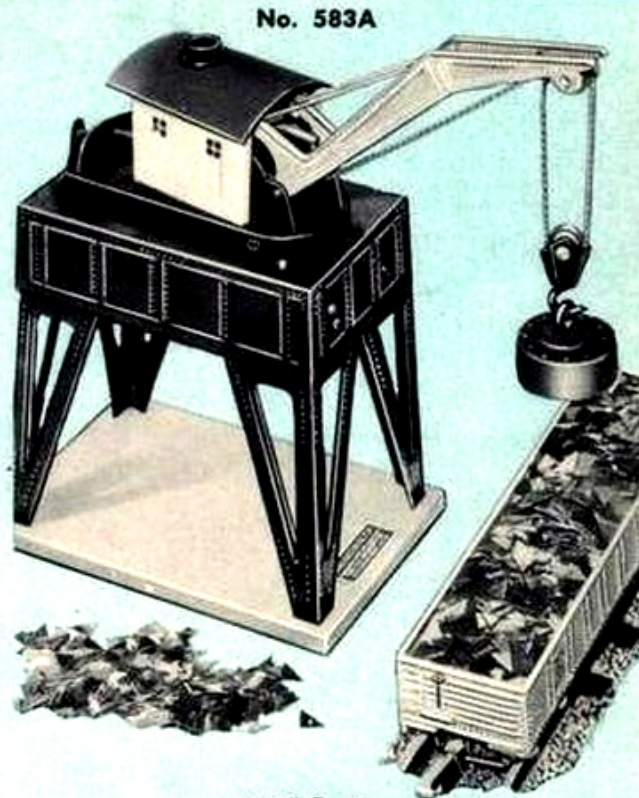

No. 752

## No. 752 AUTOMATIC SEABOARD COALER

No yard setting complete without it! Bucket drops to coal pile - jaws open, then close together when full. Loaded bucket hoists to top of bunker and coal dumps into chute leading to waiting car. Fully remote controlled. 8-5/8" x 10-7/8" x 16-1/2". Packed 1 per carton. Weight: 6 lbs.

## No. 583A ELECTROMATIC CRANE

Make your yards and depots a beehive of activity with this tireless giant Crane! Completely remote control operated. Powerful electro-magnet picks up steel scrap, hoists it into air and drops load into waiting car. Just like real! Cab revolves; boom raises and lowers; magnet goes up and down. 11" x 4" x 6". Packed 4 per carton. Weight: 12 lbs.

No. 583A

## No. 566 WHISTLING BILL BOARD

Sound true-to-life Whistle signals by remote control. Long blasts - sharp toots - all signals in Railroad Code Book. Mechanism concealed in housing. 4" x 7-1/2" x 4". Packed 4 per carton. Weight: 6 lbs.

WHOO-WHOO  
WHOO

No. 566

## No. 32A PARK SET

Dress up your miniature towns and city parks with this complete 12-piece assortment of equipment scaled for 3/16" and "O" Gauge size. Includes realistic park benches, fire hydrants and mail boxes, etc. You'll want several of these to give your layout real authenticity. Packed 6 per carton. Weight: 2-1/2 lbs.

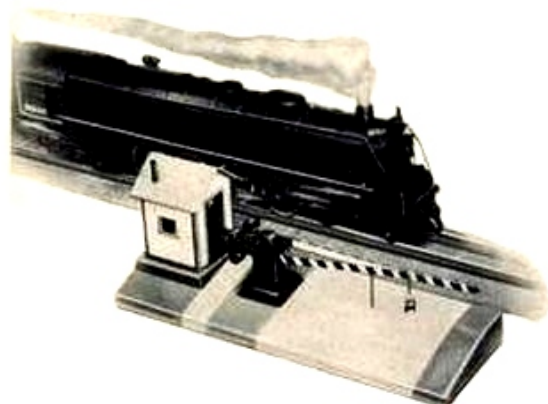

No. 32A

## No. 596 WATER TANK

Fill your Locomotive Tender with "water" from this realistic Tower! Press remote control button and spout lowers over Tender; release button and spout snaps back to vertical position. Aircraft warning light on roof. Simulated concrete piling. 6" x 6-1/2" x 11". Packed 6 per carton. Weight: 12 lbs.

No. 596

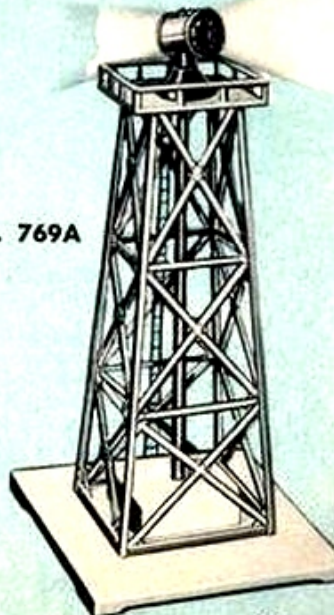

No. 592 A

## No. 592A CROSSING GATE

A necessity for all highway crossings on your pike! When train approaches, gate lowers and red light shines. After last car passes, gate rises and light is extinguished. Includes Shack and track trip. 10" x 5-1/4". Packed 4 per carton. Weight: 10 lbs.

## No. 769A REVOLVING AIRCRAFT BEACON

Latticework molded construction resembles steel beacons used to define real-life air lanes. Girder-type structure on durable base. Beacon light revolves automatically, casting red and green rays for night aircraft to use in taking bearings. Stands 12". Base 5" square. Packed 6 per carton. Weight: 6 lbs.

No. 769A

**NEW!**

**No. 774 FLOODLIGHT TOWER**

Illuminate your American Flyer model railroad operations with this new Tower that mounts four powerful floodlights on the upper platform! Especially suitable for night scenes; cascades light onto trains, stations, figures, etc. Molded tower resembles lattice-type girder construction; ladder is applied part. Floodlights swivel up and down. Stands 11" high. Base 5" square.

**NEW!**

**NEW!**

**No. 748 OVERHEAD FOOT BRIDGE**

Pedestrians can cross train tracks in complete safety by means of this new all-steel Foot Bridge. Can be used to span either single or double track. Made of sturdy embossed steel with girder-type rail supports. Gray enamel finish. Holes in base for accessory to be attached to layout. Bridge packed in three sections, can be assembled in few seconds. Dimensions: 7" high x 12-9/16" wide x 15-3/4" deep.

**No. 33 PASSENGER AND TRAIN FIGURE SET**

Makes any wayside station or city terminal appear to be teeming with activity; increases realism 100%. Eight hand-painted, die-cast figures, all in American Flyer 3/16" scale, include Flagman, Conductor, Trackman, two male and three women passengers. Figures approx. 1-1/2" high. Box measures 7-1/2" wide x 6-3/8" deep x 1-1/4" high.

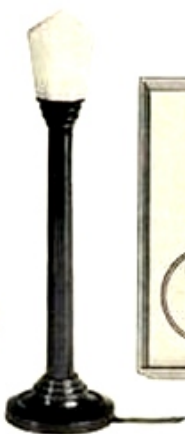

*make your Model*

The biggest train Accessory line in the world! Only American Flyer can offer such a huge array of model railroad equipment, including remote control and automatic Accessories, all perfectly made and accurately scaled. Whether it's a gigantic rail system or a modest beginner's layout, go the route of the experts—go American Flyer!

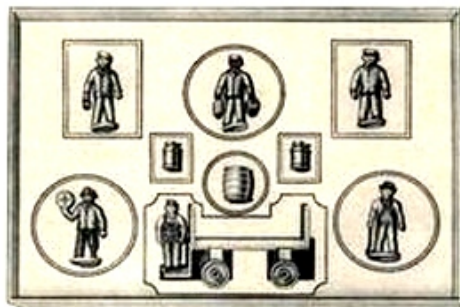

**No. 589 PASSENGER AND FREIGHT STATION**

Made to accommodate large number of passengers plus quantity of make-believe crates, trunks, boxes and other freight. Door swings open and shut; realistic windows finished in bright trim. Has bright interior illumination. 6" x 12" x 8". Packed 3 per carton. Weight: 12 lbs.

**No. 749 BOULEVARD LAMP**

Place several of these new Lamps on your layout, turn out all overhead lights and create night scene of startling realism! Removable nylon dome fits over bulb. Post has bronze finish. Stands 6-1/8". Packaged 3 to box. Packed 12 sets per carton. Weight: 7 lbs.

**No. 578 STATION FIGURE SET**

Make your stations, right-of-ways, terminals and way stops complete with this set, including an accurately-proportioned gandy dancer, conductor, grade crossing tender, baggageman and red cap. Milk cans and barrel can be loaded on platform truck. Figures are hand painted and finished colorfully. Packed 6 per carton. Weight: 4 lbs.

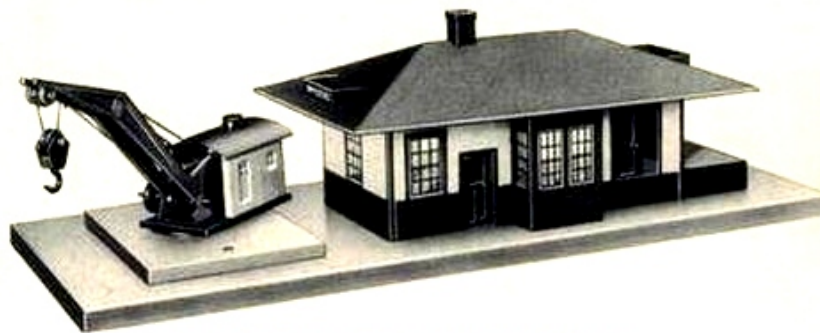

**No. 25 SMOKE CARTRIDGES**

For all smoke-puffing Locomotives shown in this catalog. Produces thick, clean realistic Smoke--makes speeding train look absolutely real. Easy to Insert, lasts for hours. In box of 12. Packed 36 to carton. Carton weight 6 lbs.

### No. 593 SIGNAL TOWER

Your railroad yards can't be completely realistic without one of these colorful Signal Towers, the nerve center of train routing. Outside stairway leads to lighted Operator's room. Windows on three sides. Enamel finish. Measures 7-5/8" x 5-1/2". Packed 4 to carton. Carton weight 7 lbs.

### No. 612 FREIGHT AND PASSENGER STATION with Crane

Unload Gondola and Box Cars right at trackside with this interesting Station Crane! Boom raises and lowers; Cab makes full swing. Illuminated Station has sliding doors. Includes Track Terminal. 19" x 8" x 5-1/4". Packed 1 per carton. 4 lbs.

### No. 460 LAMP ASSORTMENT KIT

The perfect way to stimulate sales of Lamps for all American Flyer Trains and accessories! Kit is colorful and attractively designed; box holds complete Lamp assortment. A "must" for every store! 9" x 6" x 1-3/4". Packed 4 per carton. Weight: 4-1/2 lbs.

### BULBS - ALWAYS HAVE EXTRAS ON HAND

#### Sold in Standard Packages Only

## No. 21A IMITATION GRASS

Realistic and colorful; can be used to make landscapes of great beauty. For permanent layout Grass can be sprinkled over "tacky" green paint or sodium silicate (water glass) solution, which provides bond. Packed 50 per carton.

## No. 22 SCENERY GRAVEL

Designed especially to create life-like country roads, driveways, city park bridle lanes, etc. Simple to use; just sprinkle over area desired and smooth. Score lightly for rutted road effect. Effectively used in conjunction with No. 21A Grass. Packed 25 per carton. Weight: 35 lbs.

## No. 23 ARTIFICIAL COAL

Absolutely clean and dustless! Realistic Anthracite for use with your American Flyer Hopper, Gondola, Coal Dump Cars and Accessories. Packed 25 per carton. Weight: 6 lbs.

## No. 28A TRACK BALLAST (Not Illustrated)

Sprinkle this Ballast around your tracks to make a real railroad roadbed, and see how your layout improves! Ground finely, to scale. Realistic gray shade. Packed 24 per carton.

## No. 29A IMITATION SNOW

Make dazzling-white snow scenes of breathtaking beauty! Clean, white, flaky. Simulates real snow. Non-inflammable, non-toxic. Easily cleaned from carpets. Packed 24 per carton.

## No. 30A HIGHWAY SIGNS

Set contains eight of the signs most frequently encountered along State Highways and suburban areas. Includes: Measured Mile, Stop, No Left Turn, Speed Limit, "S" Curve, R.R. and Parkway. Packed 6 per carton. Weight 2-1/2 lbs.

## No. 31A RAILROAD SIGNS

Box of eight hand-painted miniature die-cast signs of the type used along railroad right-of-ways. Ideal for spotting along your mainline and in rail terminals. Provides authentic railroad touch. Packed 6 per carton. Weight 2-1/2 lbs.

## No. 35 BRAKEMAN WITH LANTERN

Three miniature Brakemen, dressed in authentic railroad dress, to give your Locomotives and rolling stock utmost realism! Each figure has tiny hook to use in attaching to car or Loco. Packed 6 to carton. Weight: 4 lbs.

No. 29A

## No. 249 RAILROAD TUNNEL

Place several of these realistic accessories on your American Flyer layout and make your freight and passenger runs more interesting! Beautifully molded in many colors. Landscaped scene includes house, winding road, etc. Measures 11-1/2". Packed 6 per carton. Weight: 21 lbs.

The last word in realism! Here's how one of the Brakemen looks when he's attached (by means of hook) to head end of locomotive. Wonderful for yards, terminals and other busy railroad scenes.

(Not Illustrated)

No. 691 - 12 Steel Track Pins.

No. 692 - 4 Fiber Track Pins.

No. 693 - Track Lock (Prevents tracks from separating while trains are running).

No. 697 - Automatic Track Trip. Makes your switches automatically non-derailing!

# Model Layout just-like-real!

## No. 694 AUTOMATIC COUPLERS, TRUCKS, WHEELS AND AXLES

Made for converting rolling stock with old style American Flyer wheels and couplers to realistic automatic action type designed to fit 3/16" scale two-rail track. Sold in pairs only. Packed 6 per carton. Carton weight 2 lbs.

No. 690

## No. 700 STRAIGHT TRACK

Two running rails, for true-to-life operation! Sections are made of heavy gauge steel and measures 10". Packed 144 per carton. Carton weight 16 lbs.

No. 725

## No. 701 STRAIGHT TRACK, HALF SECTION

Each section measures 5" long. Packed 12 per carton. Carton weight 1 lb.

## No. 720A REMOTE CONTROL SWITCHES

Positive action electric switches with red and green position lights. Remote control box has two switch control levers. Lights remain illuminated even when train is not running. Packed 3 per carton. Weight: 11 lbs.

## No. 722 MANUAL PAIR SWITCHES

Similar in construction to electric switches described above except that operation is by hand. Control lever alters position of swivel rail. Not illuminated. Packed 3 per carton. Weight: 11 lbs.

## No. 725 RAILROAD CROSSING

No model layout is complete without one of these crossings! Enables you to have one train pass in front of another or to intersect two main lines 10" long. Packed 3 per carton. Weight: 3 lbs.

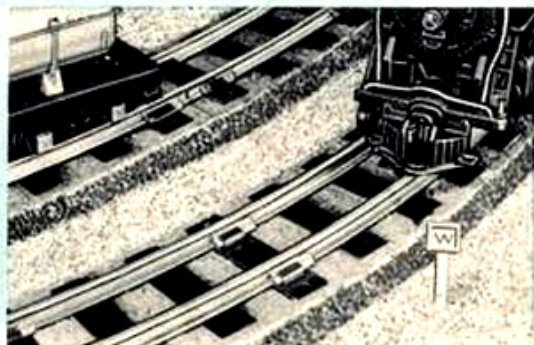

## AMERICAN FLYER RUBBER ROADBED

No. 727

No. 726

No. 726 STRAIGHT SECTION 10" long.

No. 727 CURVED SECTION 10" long.

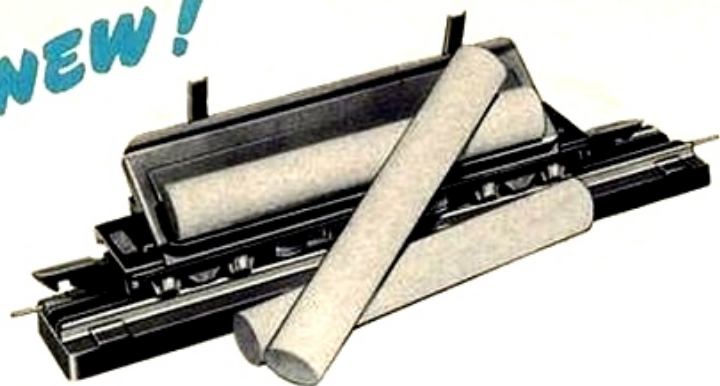

## No. 730 BUMPER

Every model pike needs several of those realistic bumpers for dead end sidings. Snaps on to track quickly and easily. Has authentic recoil spring and warning light. Complete with 10" track section. Packed 6 per carton. Weight: 2-1/2 lbs.

## THE LATEST FEATURE IN MODEL RAILROADING!

One of the finest model railroad accessories of all time and another American Flyer exclusive! Makes track resemble real-life two-rail right-of-way. Deadens sounds of running trains---wonderful for apartments, small homes, etc. Non-slip design; no need to attach tracks to board. American Flyer 3/16" ("S" Gauge) tracks slip into recessed slots in jiffy. Packed 48 per carton. Carton weight 13 lbs.

**NEW!**

**No. 714 LOG UNLOADING CAR**

Here's a car you'll want for those logging operations in the "big timber" country! Remote control operated--press button and bottom tilts while, at same time, sides lower, spilling out logs. Chassis is die cast; body and stakes are pressed steel. Finish is baked enamel. Automatic track section included. Car is 9" long. Packed 3 to carton. Carton weight approx. 5 lbs.

**No. 734 OPERATING BOX CAR**

One of the most interesting action cars in the line! Fully remote control operated. Tiny packing crates or dairy cans load through one of two sliding box car doors. Inclined roller conveyor automatically feeds them to Trainman, who opens door and pitches one out each time control box button is touched. Remote control contact is made through American Flyer No. 712 Track Section. Car measures 7-13/16". Can be used with No. 770 Loading Platform. Packed 3 to carton. Carton weight 3-1/2" lbs.

**No. 732 OPERATING BAGGAGE CAR**

Ingenious remote control operation! Miniature crates load through sliding door, are carried by inclined roller conveyor to baggageman at other end of car. Each time control box button is pressed man tosses out crate. Realistic, exciting action! Car holds four crates. Car can be operated separately or, even more effectively, with No. 770 Loading Platform, (see page 18). Length of car is 10-3/4". Packed 3 to carton. Carton weight 4 lbs.

**No. 629 CATTLE CAR**

Scale model of cattle car used by big rail lines for carrying prime steer to big stock yard centers. Doors slide open and shut. Slat sides ribbed and cross-braced. Measures 7-3/16". Packed 6 to carton. Carton weight 5 lbs.

Note realistic GULF emblem, symbol of one of world's largest refiners.

**No. 625 TANK CAR**

Counterpart of real-life Tankers which transport crude oil from the fields to the refinery. Tank mounted on heavy chassis and encircled by rivet heads. Guard rails applied parts. Measures 7-5/8". Packed 6 to carton. Carton weight 4 lbs.

**No. 628 LOG CAR**

Sturdy, die-cast Flat Car, with wealth of detail. Carries six realistic logs, similar to big timber milled in the Northwest. Simulated steel cables secure logs to chassis. Measures 8-3/4". Packed 6 to carton. Carton weight 6 lbs.

**No. 630 CABOOSE**

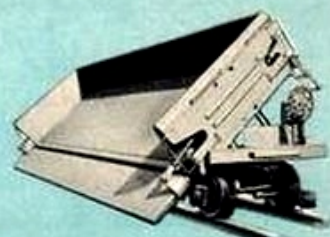

Patterned after type in use on all major railroads. Has center cupola, interior illumination. Ladder at each end is applied part. Shows grab and hand rails. Catwalk on roof. Measures 6". Packed 6 to carton. Carton weight 4 lbs.

**American Flyer**

**ALL WITH SCALE  
BUILT TO REAL RAIL**

**No. 719 OPERATING DUMP CAR**

Operates entirely by remote control. When button is pressed, side lowers and bottom tilts up, emptying load into bin beside track. Heavy-duty chassis is die cast. Car 8" long. Packed 3 to carton. Carton weight 6 lbs.

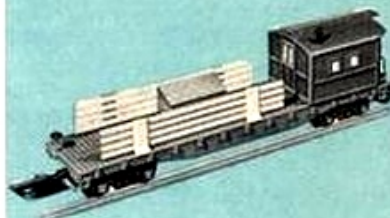

**No. 716 AUTOMATIC COAL DUMP CAR**

Unload imitation Anthracite or Bituminous by remote control! When button is pressed, car side lifts open and coal cascades out into unloading bin beside track. Includes automatic track section, imitation Anthracite, unloading bin and single-button control box. Measures 7-5/8". Packed 3 to carton. Carton weight 5 lbs.

**No. 645A COMBINATION BOOM AND WORK CAR**

Modeled after Crane Tenders used by most major railroads. Has heavy die-cast chassis with removable side stakes. Tool Locker, new feature for '51, has bright lacquer finish and simulated plank lid. Car measures 8-3/4". Packed 6 per carton. Weight 7 lbs.

**No. 643 CIRCUS FLAT CAR**

Most colorful Freight Car ever made! Die-cast Flat Car chassis carries two brightly-finished Circus Animal Cages pulled by realistic truck. Circus wagons have tiny animals inside! Flat Car chassis enameled yellow 8-3/4" long. Packed 6 to carton. Carton weight 6 lbs.

**No. 646 POWER FLOODLIGHT CAR**

Giant Floodlight mounts on die-cast depressed center Flat Car. Light swivels in full 360° circle and tilts up and down. Miniature electric generator patterned after kind which supply current for real railroad searchlights. Searchlight casts powerful ray. Measures 10-1/2". Packed 6 to carton. Carton weight 11 lbs.

# ROLLING STOCK

## MODEL LENGTH— ROAD SPECIFICATIONS

### No. 631 GONDOLA CAR

Carry loads of scrap, ore, slag or other cargo in this sturdily constructed Gondola Car! Has complete molded detail, including rivets, braces, ribs, steps, etc. Measures 8". Packed 6 to carton. Carton weight 4 lbs.

### No. 632 HOPPER CAR

Has simulated hopper doors on underside. Carries railroad markings and lettering. Intricate molded detail on car body. Has four-wheel trucks; journal boxes nickel-plated. Car measures 6-3/8". Packed 6 to carton. Carton weight 3 lbs.

### No. 633R BOX CAR

Sliding doors open on roomy interior for loading crates, barrels, etc. Has roof catwalk, dreadnaught ends, grab rails, steps, ribs and other detail. Red enamel finish. Measures 9-7/8". Packed 6 to carton. Carton weight 4 lbs.

### No. 636 DEPRESSED CENTER FLAT CAR

Heavy, die-cast chassis, with brake wheels, cross planking, rivet heads, etc. Car carries realistic reel of simulated steel cable, lashed to body. Measures 10-1/2". Packed 6 to carton. Carton weight 8 lbs.

### No. 637 M.K.T. BOX CAR

Exact replica in miniature of Box Cars in use on famous Missouri, Kansas, Texas Railroad. Has sliding doors for loading and unloading cargo. 9-7/8" long. Packed 6 to carton. Carton weight 4 lbs.

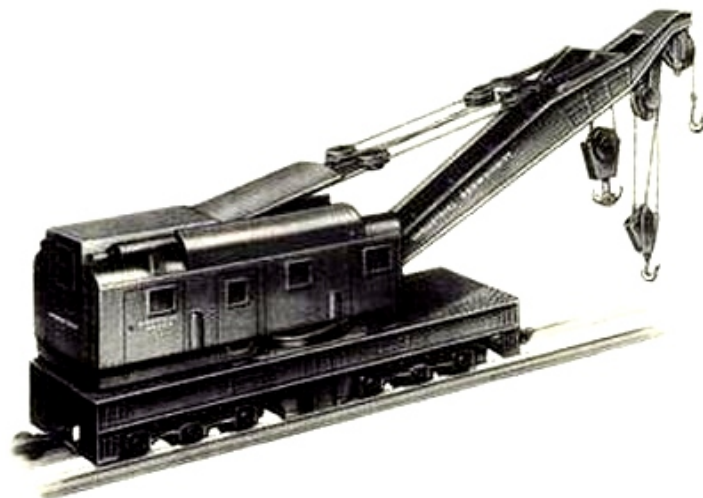

### No. 649 CIRCUS PULLMAN

Bright and colorful - like cars in which real-life clowns, acrobats, animal trainers and other troupers ride from city-to-city. Enameled brilliant yellow with red lettering. Illuminated. 10-3/4" long. Packed 3 to carton. Carton weight 3 lbs.

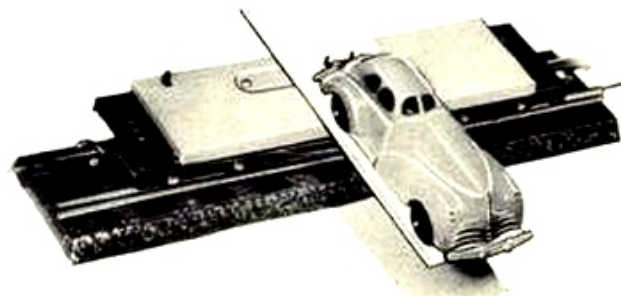

### No. 718 MAIL PICK-UP AND DISCHARGING CAR

Operates like real railroad mail cars which pick up mail sacks while traveling at high speed. All by remote control the metal pickup arm on the car extends and snatches up one mail bag while another is thrown out. Operates equally well at fast or slow speeds. Mail car finished in railroad red. Measures 10-3/4". Packed 3 to carton. Carton weight 7 lbs.

### No. 644 OPERATING WRECKING CRANE

You can actually lift up derailed Locomotives and Cars with this rugged Wrecking Crane! Operates just like the multi-ton monsters real railroads keep for emergencies and for routine heavy duty jobs. Massive boom is fitted with double paired block and tackle. Giant hook can be raised or lowered manually; another manual operation lifts or drops boom. Cab is highly detailed; heavy chassis is die cast. Has authentic six-wheel trucks. Car measures 10-3/8". Packed 3 to carton. Carton weight 5-1/2 lbs.

### No. 715 UNLOADING CAR

You can have endless hours of fun with this ingenious operating car which goes into action at the touch of a remote control button. Here's how it works: at pressure of button, platform on car swivels around at right angles, tilts up, and Automobile automatically rolls down incline. Includes automatic track section and single-button control box. Measures 7-3/4". Packed 3 to carton. Carton weight 4 lbs.

*modern  
as Tomorrow*

**No. 650 ILLUMINATED COACH**

Counterpart of Coaches used on fast Boston-New York runs by New York, New Haven & Hartford Railroad. Has double inset windows, roof ventilators, steps and other minute detail. Accurately proportioned. Carries double trucks with nickel-plated journal boxes. Finished in red or green. 10-3/4" long. Packed 3 per carton. Carton weight 3 lbs.

**No. 651 BAGGAGE CAR**

Patterned after Railway Express Agency cars. Inset doors are accurately panelled and have twin windows at top. Roof has ventilators; double trucks carry nickel-plated journal boxes. Finished in either red or green. 10-3/4" long. Packed 3 per carton. Carton weight 3 lbs.

**No. 652 ILLUMINATED PULLMAN**

Masterpiece of scale modeling! Double inset windows even have imitation shades! Lounge windows opaque, as on real cars. Full interior lighting. Includes roof ventilators, steps, etc. Has double trucks, nickel-plated journal boxes. Finished in red or green. 12" long. Packed 3 per carton. Carton weight 3 lbs.

**No. 653 BAGGAGE AND CLUB CAR**
