

AMERICAN FLYER

Made by

GILBERT

The Greatest Advance in Diesel Model Railroading!

AMERICAN FLYER

Diesel "ROAR"

AUTHENTIC SOUND EFFECTS

Another glittering "first" for American Flyer — Diesel locomotives that not only *look* real but **SOUND** real, as well! All the fascinating variety of actual railroad Diesel motor sounds are faithfully captured in the 1955 American Flyer scale models. From a standing start in station to full throttle on the mainline, or from a rumbling idle to the roar given off bulling up a steep mountain grade, the new American Flyer Diesel locomotives sound like the real thing. When you hear the amazing **DIESEL ROAR** yourself, you'll agree it's the last word in realistic Diesel railroading. For further information, see pages 18-19 and 31.

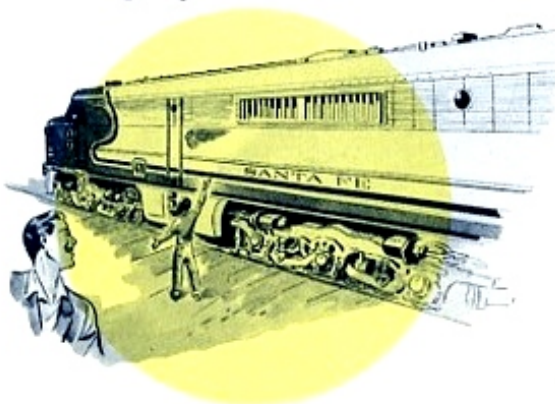

Roaring across the countryside...

Steady, pulsating idle...

Reving up for a smooth start...

Powering-up a steep mountain grade...

AMERICAN FLYER Now More Popular than Ever! *HERE'S WHY...*

2-RAIL "T" SHAPED TRACK

For realistic model railroading there can be only one kind of track — 2-rails, with each rail shaped like the letter "T" to provide flat-on-top traction. 2-rail track is the kind on which real trains run — and the kind after which American Flyer track is patterned. Only American Flyer has this great, true-to-life feature that provides absolute train realism and best performance.

ACCURATE SCALE MODELS

The unretouched photographs above furnish dramatic proof of American Flyer's scale model construction. The top picture is a real Union Pacific Railroad 4-8-4 "Northern" type steam locomotive. The bottom one is an American Flyer model of the same loco. Both have been reduced to the same height — and notice how both come out to the SAME LENGTH! The American Flyer locomotive is a precise SCALE MODEL of the real loco!

REAL SMOKE AND CHOO-CHOO

It's not enough that model trains resemble real trains in appearance — they must *sound* like them, too, as they speed along the track. And only American Flyer has steam locomotives which puff real red glowing Smoke and give off steady choo-choo sounds as they run. Both actions are synchronized to the movements of the big driving wheels. Run the train fast or slow and the smoke puffs and choo-choo sound effects vary accordingly. It's model railroading at its best!

MORE PULL WITH PULL-MOR!

When you buy an electric train you want a locomotive that will take the steepest of grades with ease, or will "walk away" with as long a string of cars as you want to couple to it. With American Flyer PULL-MOR you get just that. Pull-Mor equipped locomotives can haul 40 or 50 cars without effort; on flat terrain they have even pulled over 60! No other electric trains made anywhere in the world can match American Flyer Pull-Mor for speed, climb and pulling capacity.

100% NEW TRAINS! NEW ROLLING STOCK! NEW ACTION ACCESSORIES!

AMERICAN FLYER Safety First TRANSFORMERS

No. 30B

Above is photograph of 18B and 30B transformer, showing giant size terminal nuts and simplified hook-up.

No. 19B

No. 18B

No. 13

No. 16B

Photo at left shows rear view of 15B, 16B and 19B transformers, with simplified hook-up that permits multiple wire leads.

No. 15B

No. 4B

No. 30B DUAL TRAIN POWER CONTROLLER, WITH DOUBLE CIRCUIT BREAKERS

RATING: 300 WATTS, 115 VOLTS, 60 CYCLES, A. C.

The finest electric train power controller you can buy! Can run two trains at different speeds on separate loops of track, or FOUR trains (two running at same speed) on four separate layouts. Has full directional control; when train stops it will start up again without going into reverse first. Two panel meters indicate voltage — one for each control. Transformer has "Dead Man's Control." When throttle is let go, train halts! Operation is guarded by two circuit breakers — one for trains, one for accessories — which shut off power if over-load or short occurs.

No. 19B TRAIN POWER CONTROLLER, WITH CIRCUIT BREAKER

RATING: 300 WATTS, 115 VOLTS, 60 CYCLES, A. C.

It's more than a transformer — it's a real model railroad power controller. It gives you full control of direction: when train stops it starts again in same direction without going into reverse first. Panel meters indicate voltage and amperage. Has exclusive "Dead Man's Control" — if throttle is let go, train halts. Built-in Circuit Breaker shuts off current if transformer is overloaded or if a "short" develops. Has off-on switch.

No. 16B TRAIN POWER CONTROLLER, WITH CIRCUIT BREAKER

RATING: 175 WATTS, 115 VOLTS, 60 CYCLES, A. C.

Same as No. 19B Transformer described above except is without panel meters and has lower output.

No. 18B DUAL TRAIN POWER CONTROLLER, WITH DOUBLE CIRCUIT BREAKER

RATING: 175 WATTS, 115 VOLTS, 60 CYCLES, A. C.

Two circuit breakers guard transformer against short circuit damage or overload. Has exclusive "Dead Man's Control" and permits full directional operation. Can run two trains on separate track loops at different speeds.

No. 15B TRAIN POWER CONTROLLER, WITH CIRCUIT BREAKER

RATING: 110 WATTS, 115 VOLTS, 60 CYCLES, A. C.

New features provide full directional control: when train stops, it will re-start without going into reverse first. Built-in Circuit Breaker prevents transformer burn-outs. Green light indicates power-on; red light warns of a short circuit. Like real railroads it has exclusive "Dead Man's Control" — if throttle is released, train halts.

No. 4B TRANSFORMER, WITH CIRCUIT BREAKER

RATING: 100 WATTS, 115 VOLTS, 60 CYCLES, A. C.

Automatic Thermostatic Circuit Breaker, built-in, protects Transformer from burn-outs. Has three binding posts for simplified wiring.

No. 13 CIRCUIT BREAKER

If your transformer does not now have a Circuit Breaker you can provide one quickly with this accessory. Prevents transformer burn-outs and overloading.

No. 700 STRAIGHT TRACK

Two "T"-type running rails, for true-to-life operation! Sections are made of heavy gauge steel and measure 10". Fully insulated.

No. 701 STRAIGHT TRACK HALF SECTION

(not illustrated)

Each section measures 5" long. Fully insulated.

No. 702 CURVED TRACK

Two rail sections, fully insulated. Real railroad "T"-rail construction. 10" long.

No. 703 CURVED TRACK HALF SECTION

(not illustrated)

Measures 5" long. Fully insulated.

No. 725 RAILROAD CROSSING

No model layout is complete without one of these crossings! Enables you to have one train pass in front of another or to intersect two main lines. 10" long.

No. 27 TRACK CLEANING FLUID

Special solution that scientifically removes dirt and oil from rails, provides better locomotive performance. Inhibits rust, is non-toxic and non-corrosive. 5 1/2" high.

AMERICAN FLYER RUBBER ROADBED

An American Flyer exclusive! Makes track resemble real-life, two-rail right-of-way. Deadens sound of running trains — wonderful for apartments, small homes, etc. Non-slip design. American Flyer 3/16" ("S" Gauge) tracks slip into recessed slots.

No. 727 — Roadbed, curved, 10"

No. 726 — Roadbed, straight, 10"

No. 706 REMOTE CONTROL ELECTRIC UNCOUPLER

For remote control uncoupling of American Flyer cars. Clamps to any 10" straight or curved track section. Includes track section and remote control button.

No. 720A REMOTE CONTROL SWITCHES

Positive action electric switches with red and green position lights. Remote control box has two switch control levers. Lights remain illuminated even when train is not running.

No. 678 LEFT SINGLE SWITCH

(not illustrated)

Construction is similar to No. 720A Switches but is sold as left hand switch only, for track layouts where just one switch is required. Has single control box.

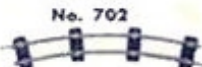

No. 679 RIGHT SINGLE SWITCH

(not illustrated)

Similar to No. 678 except is right hand switch.

No. 730

No. 731 PIKE PLANNING KIT

Lay out simple or complicated American Flyer track systems in a matter of minutes, where formerly it took hours! One of model railroading's greatest boons. Scaled one inch per foot. Pike Planning book tells how to build and landscape a model railroad.

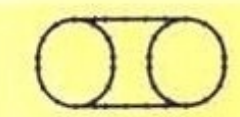

No. 520 KNUCKLE COUPLER KIT

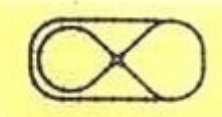

Converts American Flyer link coupler cars and tenders to new knuckle-type couplers. Complete directions included. Sold in pairs only.

No. 695 REVERSE LOOP RELAY

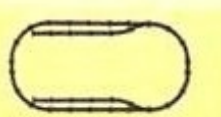

Enables you to construct loops and other track schemes with American Flyer 2-rail track. Consists of wire leads, fiber pins, terminals and an automatic relay mounted in railroad type trackside tool box.

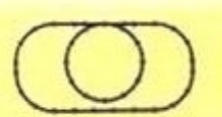

For 4' x 8' table. Requires 4 straight track, 20 curved, 6 half straight, 2 pair switches.

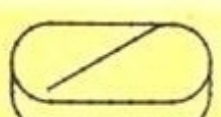

Space 52 1/2' x 108 1/2'. Track: 21 curved, 18 straight, 4 half straight, 2 half curved, 1 pair switches, 1 crossover.

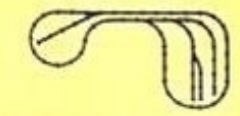

For 4' x 8' table. Requires 16 straight track, 14 curved, 2 half straight, 1 pair switches.

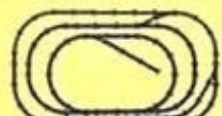

For 4' x 7' table. Requires 7 straight track, 22 curved, 1 pair switches, 4 half straight.

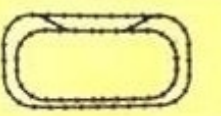

For 5' x 9' table. Requires 27 straight track, 17 curved, 2 half straight, 2 pair switches.

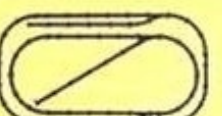

Space 70' x 140'. Track: 28 curved, 30 straight, 4 half straight, 2 pair switches.

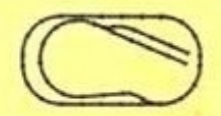

For 5' x 9' table. Requires 26 straight track, 36 curved, 6 half straight, 3 pair switches.

Space 60' x 120'. Track: 24 curved, 32 straight, 2 half straight, 2 pair switches.

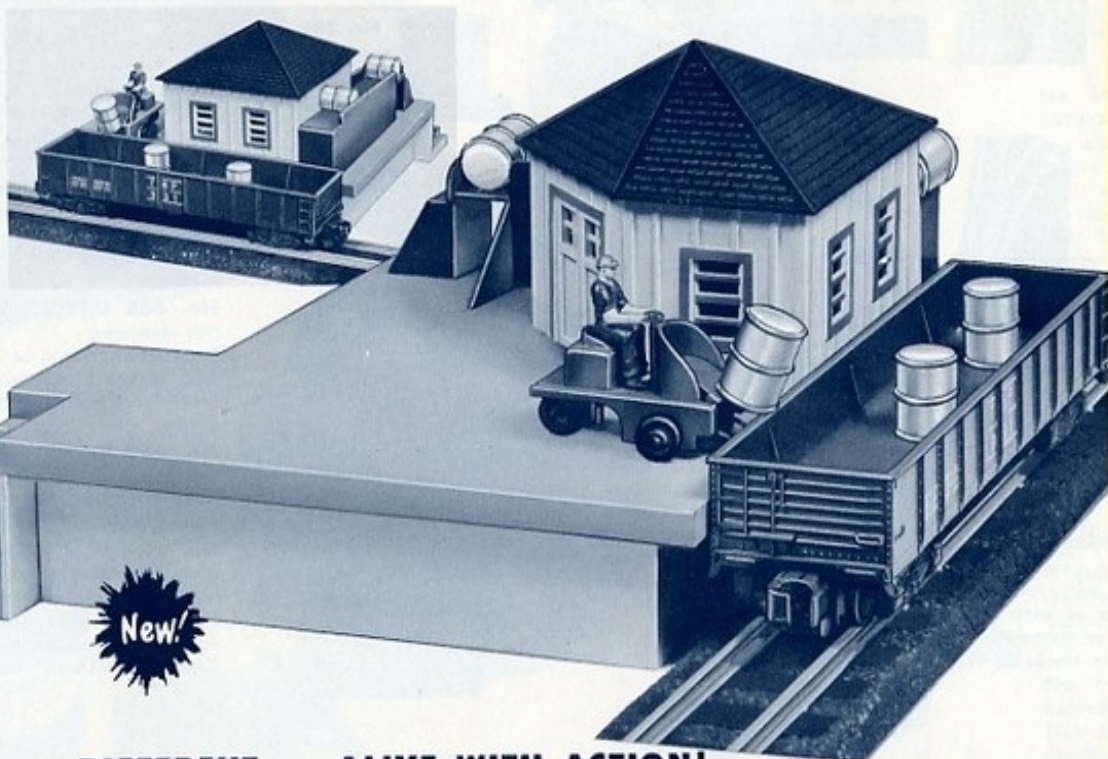

For 5' x 9' table. Requires 31 straight track, 25 curved, 6 half straight, 2 pair switches.

For 4' x 8' table. Requires 18 straight track, 21 curved, 2 half straight, 1 pair switches.

Brand New AMERICAN FLYER Action Equipment

Watch Louie the Loader Fill up the Freight Car!

IT'S NEW . . . DIFFERENT . . . ALIVE WITH ACTION!

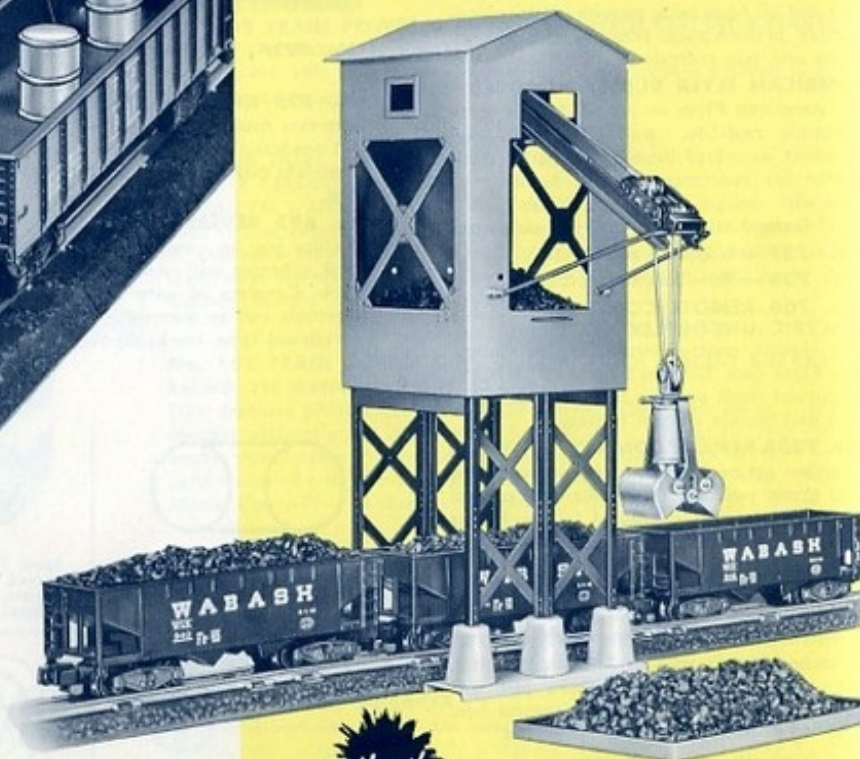

No. 779 AMERICAN FLYER OIL DRUM LOADER

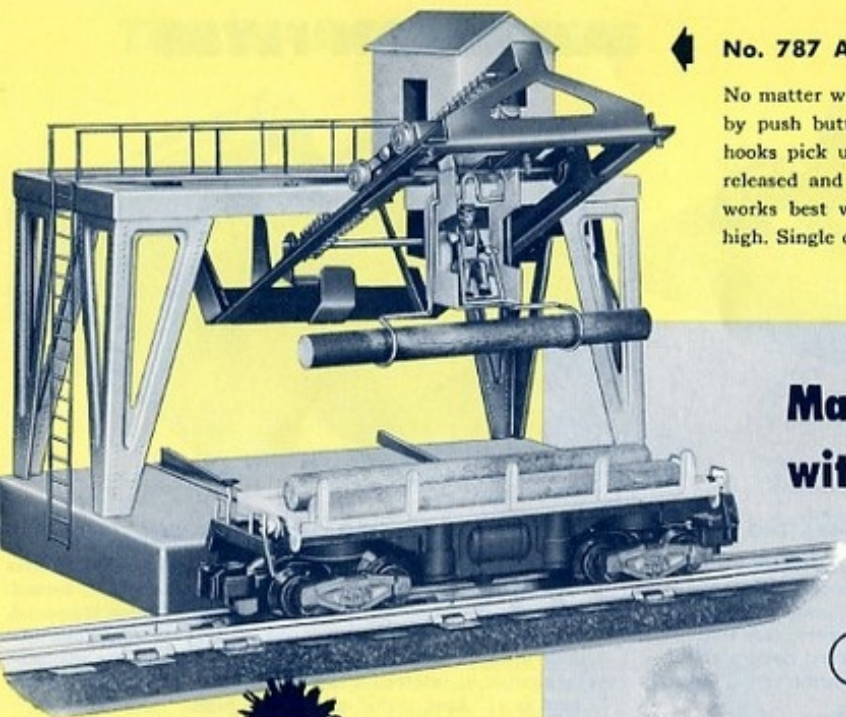

There are endless hours of fun in store for you with this intriguing accessory, unlike anything yet seen in model railroading. When remote control button is pressed, man who operates 3-wheel lift truck picks up barrel from ramp (as shown in line drawing), then motors over to waiting car on track, where he dumps barrel

before returning to ramp for another load. Fascinating to see! Tender's shack, colorfully finished, conceals electric motor which provides power. Gondola car illustrated is NOT included with accessory. Oil Drum Loader is packed with single button control and quantity of barrels. Dimensions: $8\frac{3}{4}$ " x $8\frac{1}{2}$ " x $5\frac{1}{2}$ " high.

No. 785 AMERICAN FLYER COAL LOADER

Fill up your coal cars just like the big roads do with this realistic railroad yard accessory that's brand new for '55. Operation is 100% remote controlled. With coal car in position beneath chute, as shown in photograph, (rolling stock illustrated is NOT included) you depress 1st control button, which closes jaws of clam-shell scoop. Bucket then carries load of imitation anthracite up to tippie and deposits coal into elevated hopper. Pressure on 2nd button releases coal, which cascades into car, while 3rd remote control button returns clam-shell bucket to coal pile for another load. Fascinating accessory to operate! Stands $14\frac{1}{4}$ " high. Base is 5" square.

◀ No. 787 AMERICAN FLYER LOG LOADER

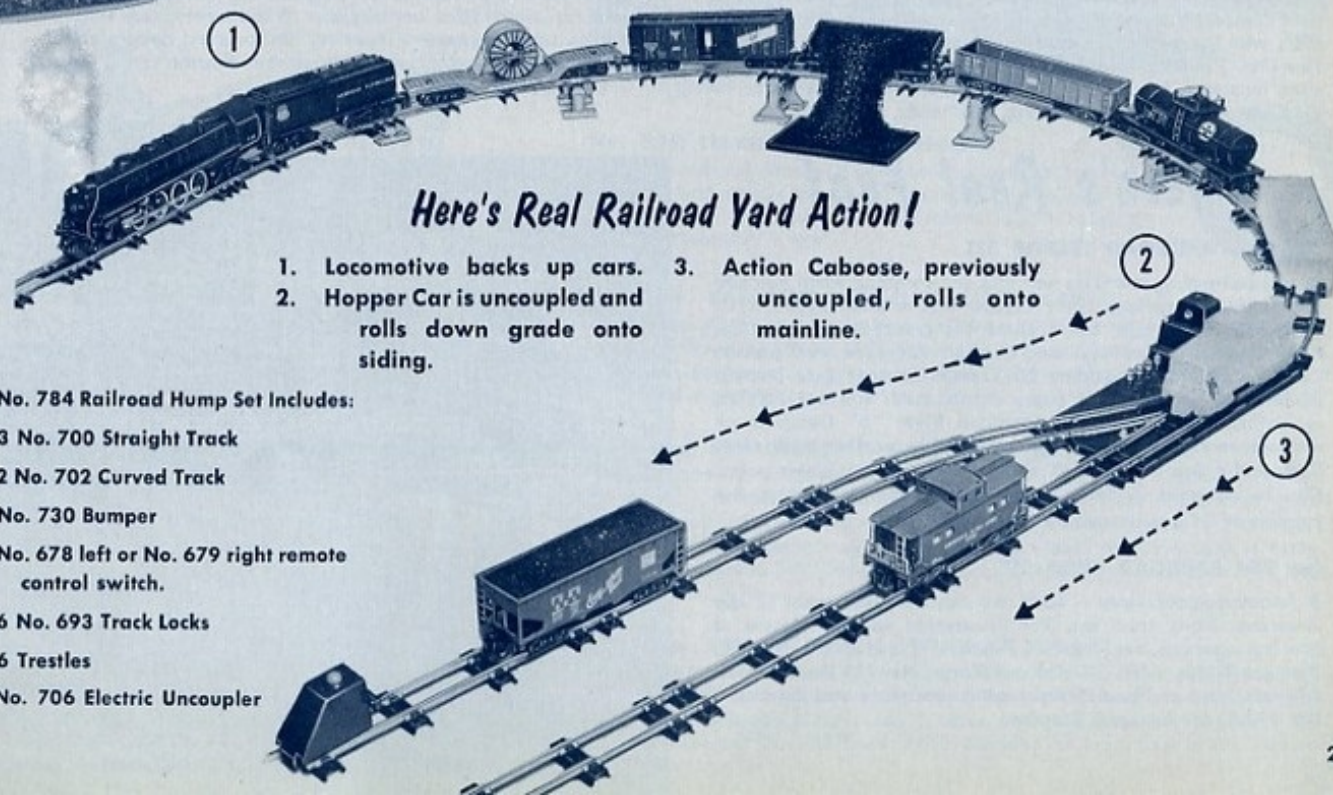

No matter what kind of layout you have, you'll want one of these exciting new action accessories that works by push button remote control. At touch of button, hand-painted lumberman goes into action, as big hooks pick up piece of timber and lift it up ramp. When log is in position over car it is automatically released and lumberman returns quickly for another load. Although any open car can be used, accessory works best with No. 914 car shown (NOT INCLUDED). Log Loader measures $9\frac{7}{8}$ " long, $6\frac{1}{4}$ " wide, $8\frac{1}{2}$ " high. Single control button included.

No. 784 RAILROAD HUMP SET

Every railroader knows what the "hump" is. That's the high ground from which cars are cut loose to roll down the grade to the network of sidings below, where they are sorted out by the switchmen who make up the various train combinations. Now, for the first time, you can create an authentic Hump for your own American Flyer train, with this interesting accessory. Set-up can be arranged as illustrated above. (TRAIN SHOWN IS NOT INCLUDED.) ▶

Make up your Trains the way the Real Railroads do... with this AMERICAN FLYER No. 784 RAILROAD HUMP SET

Here's Real Railroad Yard Action!

1. Locomotive backs up cars.
2. Hopper Car is uncoupled and rolls down grade onto siding.
3. Action Caboose, previously uncoupled, rolls onto mainline.

No. 784 Railroad Hump Set Includes:

3 No. 700 Straight Track

2 No. 702 Curved Track

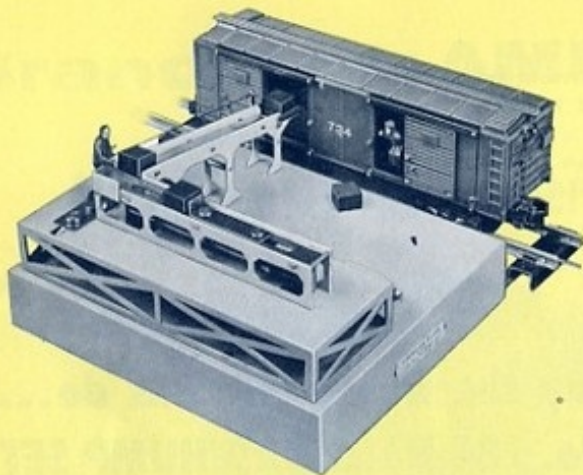

No. 730 Bumper

No. 678 left or No. 679 right remote control switch.

6 No. 693 Track Locks

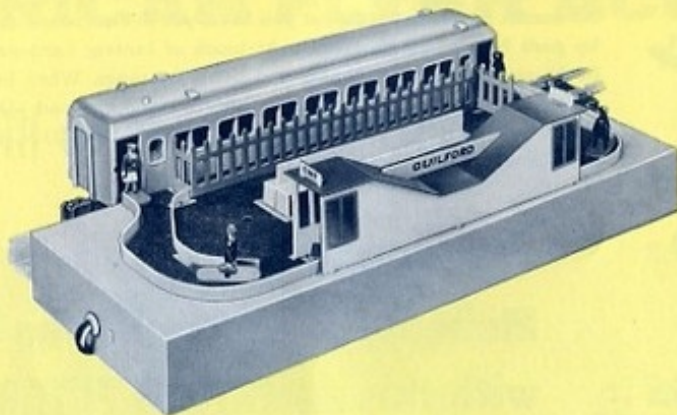

6 Trestles

No. 706 Electric Uncoupler

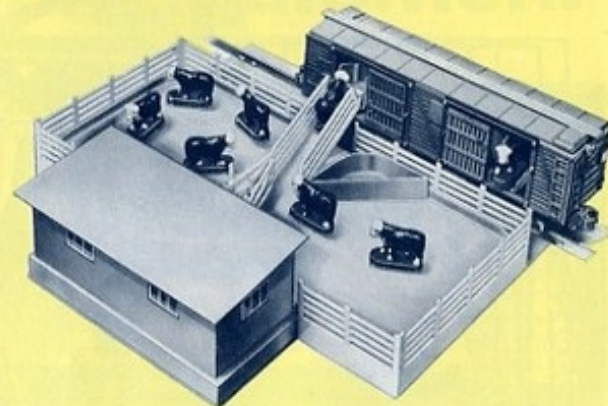

No. K775 BAGGAGE LOADING PLATFORM AND CAR

Handle your rail shipments at the touch of a remote control button with this exciting accessory that sends miniature packing crates down the chute and into the baggage car. Each time control button is pressed, a box is fed singly to baggage-man, who lowers chute extension and send crate sliding into Box Car. Trainman in Car tosses crate out of open door each time button is touched, so that cycle can be repeated. Car 7 13/16" long. Loader is 7" long, 8 1/2" wide, 3 3/4" high.

No. K766 ANIMATED STATION AND OPERATING COACH

Just like a real station, even to impatient passengers striding up and down platform before they board train! After train pulls into station, passengers file through exit gate into car, which then resumes trip. When train enters station second time, passengers leave car and proceed down station ramp. Action continuous and automatic. Station is 13" long, 7 1/8" wide, 3 1/2" high.

No. K771 OPERATING STOCKYARD AND CAR

One of the most popular and unusual railroad accessories ever made! All action automatic after switch is turned. Steers in pens mill about; when one of exit gates is opened, cattle file up ramp into car. Stock car unloads when exit door lines up with corral ramp. Accessory can be operated in number of interesting ways! Car is 7-13/16" long. Stockyard is 11" long, 10 1/2" wide, 2 3/8" high.

Here's Real Fun!

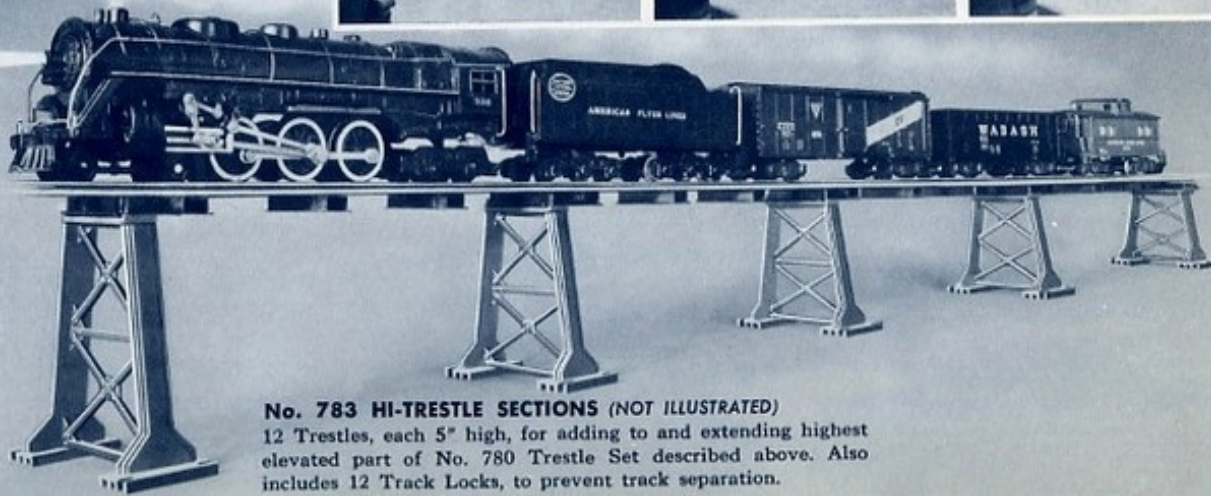

No. 780 RAILROAD TRESTLE SET

Model railroading takes on new fun and meaning when you add one of these American Flyer Trestle Sets to your layout. Your freight and passenger trains climb the grade, continue on the high elevated section and then descend. Elevated level portion can be extended by adding Hi-Trestle Sections (see below). Molded trestles resemble girder construction and are finished in realistic red-lead color. American Flyer "S" Gauge track sections recess into trestle slots and lock together with clips. Easy and quick to set up. Trestle rises to 5" at highest point. Can be arranged in figure 8, ovals, and other variations. Set consists of 24 trestles and 26 Track Locks.

No. 784 RAILROAD HUMP SET

A fascinating accessory — adds new fun and excitement to any American Flyer train set. For illustration and description of how set operates, see page 19. Hump Set includes 3 No. 700 Straight Track, 2 No. 702 Curved Track, No. 730 Bumper, No. 678 left hand or No. 679 right hand remote control Switch, 6 No. 693 Track Locks, 6 Trestles.

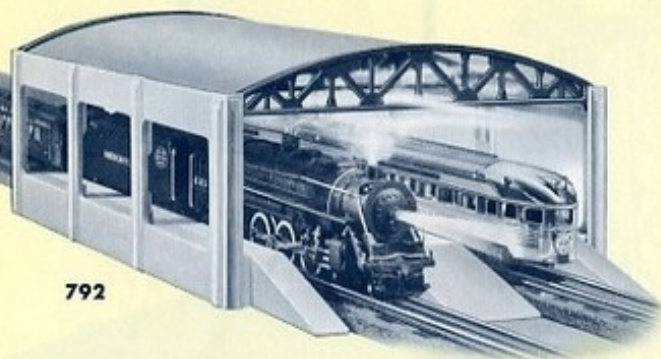

Photographs show variety of set-ups possible with Trestle Set.

No. 783 HI-TRESTLE SECTIONS (NOT ILLUSTRATED)

12 Trestles, each 5" high, for adding to and extending highest elevated part of No. 780 Trestle Set described above. Also includes 12 Track Locks, to prevent track separation.

TRAIN ACCESSORIES

792

No. 792 RAILROAD TERMINAL

No matter what kind of railroad layout you now have you'll want to add one of these new terminals that will handle two trains if used as shown above or, without center platform-and-ramp, can accommodate three. Clear-finish roof is supported by 4 girder arches. Platforms, with passenger ramps, can be used singly or in multiple. Terminal is made of medium impact styrene. Trains shown in photograph are not included. Dimensions: 16" long, 6 1/8" high, 11" wide.

No. 799 AUTOMATIC TALKING STATION

American Flyer's famous Talking Station, newly-designed to make it better than ever! When you press remote control button, this is what happens automatically: your train stops in front of the station, and while it waits you hear sounds right from the station interior—hissing steam, piston chugs, trainmaster's voice, etc. When sounds cease, train automatically resumes trip. Entire operation is electrical — no batteries required. Don't confuse this station with others which do far, far less. Dimensions: 16" long, 8 3/4" high, 9" wide.

799

742

New Reverse Action!

No. 598 TALKING STATION RECORD

Realistic railroad sounds; Diesel horns, exhausts, etc., on one side and steam locomotive whistles, piston sounds, etc., on other. For replacement of record in 799 Talking Station. Diameter is 4 3/4".

598

No. 742 AMERICAN FLYER HAND CAR

One of the most popular railroad accessories ever made — and newly designed for 1955 with automatic reversing action. When hand car strikes object, it goes in reverse. Power is supplied by Gilbert worm drive motor. Car is 4 1/2" long.

No. 600 CROSSING GATE WITH BELL

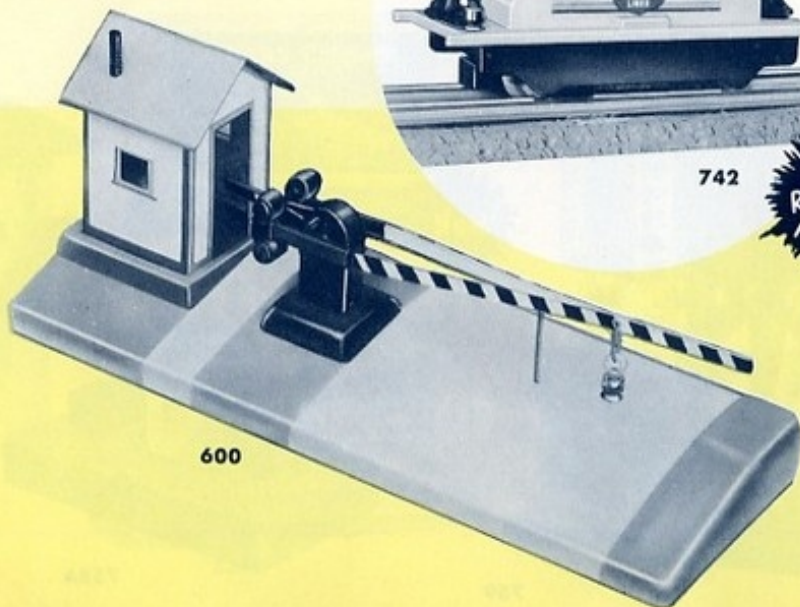

Automatic sound and action make this fascinating railroad accessory indispensable for your model "pike". When train approaches grade crossing, gate lowers and red light goes on and warning bell sets up a continuous clangor. After last car passes, gate rises, red light is extinguished and bell ringing stops. Includes track trip. Measures 8 3/8" long x 2 3/8" wide.

No. 760 AUTOMATIC HIGHWAY FLASHER

Warns motorists of approaching trains. As train nears, red lights flash on and off, cease only after last car has passed. Accessory has heavy die cast base and lamp housing; cross arms and stanchion are steel. Includes pair No. 696 Track Trips. Stands 4 3/8" high; base is 2 1/8" square.

760

600

AMERICAN FLYER TRAIN ACCESSORIES

793

No. 793 UNION STATION

WITH ILLUMINATION

This big-city station with impressive front entrance and tower is all ready to handle the rush of commuter and out-of-town traffic on your railroad system. Because tower unit is movable, station can be set up in variety of ways: use as shown or, if you like, have entrance through the station end. Station is made of medium impact styrene with frosted windows. Full interior illumination. Dimensions: 9" wide, 8 $\frac{3}{4}$ " high, 16" long.

No. 759 BELL DANGER SIGNAL

Fascinating sound and action. Approaching train causes bell to set up a warning clang while red lights on Crossing stanchion flash on and off. Spot a couple of these at key grade crossings on your layout — for the latest in railroad safety devices! Base and lamp housing are die cast; house is pressed steel. Track trips included 5" long x 2 $\frac{1}{8}$ " wide x 5" high.

No. 758A SAM THE SEMAPHORE MAN

Here's tireless Sam, all set to guard against rail accidents on your American Flyer pike. Press operating button and by remote control, Sam dashes out of shack, halting oncoming train. Press second button and Sam hustles back into house, enabling train to resume its trip. All-metal construction. 7 $\frac{1}{4}$ " high.

No. 761 AUTOMATIC SEMAPHORE

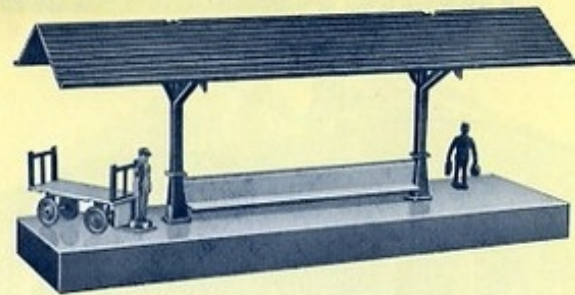

Safeguard your trains the way real railroads do! Semaphore can be wired to provide an automatic block system control of two trains; when train nears, blade rises and light turns green. After train passes, blade drops and bull's eye becomes red, automatically causing "dead block" to halt following trains. Stands 7 $\frac{3}{8}$ " high.

759

No. 586F WAYSIDE STATION

Just like the stations seen along suburban and commuter rail lines. Brightly finished in red, green and yellow. Heavy steel base; die cast supporting girders. Wealth of detail throughout. Twin bulbs cascade light from underside of roof. Includes redcap and baggage operator with truck. 12" long x 3 $\frac{3}{4}$ " wide x 5" high.

586F

No. 589 PASSENGER AND FREIGHT STATION

Modeled after the combination stations seen in rural areas and way stops. Baggage door slides open and shut; waiting room door swings on hinges. Realistic windows finished in bright trim. Station fully illuminated. Measures 12" long x 8" wide x 6" high.

596

No. 769A REVOLVING AIRCRAFT BEACON

Realistic structure which provides warning for low-flying aircraft — and adds interest and fun to your model railroad. Beacon revolves automatically, slowly swinging alternate red and green rays. Girder structure is all-steel; base is molded. Watchman's Shanty is pressed steel, colorfully finished. Stands 12" high; base 5" x 6".

No. 772 AUTOMATIC WATER TOWER

For that final, authentic touch place a couple of these colorful Water Towers, with automatic action, near factories in your industrial setting. Tank, with striking red-and-white checker pattern, sits atop all-steel girder type structure. Shack mounted on base is pressed steel, finished in white with green roof. Approximately 12 $\frac{3}{4}$ " high. Base measures 5" x 6".

No. 774 FLOODLIGHT TOWER

Wonderful for lighting up yard scene at night! Powerful new floodlights, mounted in double tier atop a steel girder-type structure, cast bright glow. Workman's Tool Shack at base is made of pressed steel. Approximately 11 $\frac{1}{2}$ " high; base is 5" x 6".

No. 590 CONTROL TOWER

Scale model copy of authentic signal towers which act as nerve center of busy train yards. Has interior lighting, doors that open and shut and outside stairway to second story. Finished in accurate railroad yard colors. Simulated clapboard siding. Measures 6 $\frac{1}{2}$ " high, base is 2 $\frac{1}{2}$ " square.

No. 566 WHISTLING BILLBOARD

If your steam locomotive doesn't have a built-in whistle you'll want this ingenious accessory for your pike. Whistle mechanism, concealed in housing, blows by remote control. Sound long blasts or short toots. 4" x 7 $\frac{1}{2}$ " x 4".

No. 561 BILLBOARD HORN

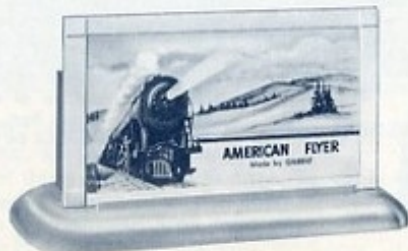

Realistic, deep-throated Diesel Horn sounds just like the kind in the real-life "growlers" that travel the nation's rails. Enables your pike to have sound effects even if your Diesel locomotive doesn't have a built-in horn. Remote control operation. 4" x 7 $\frac{1}{2}$ " x 4".

No. 596 OPERATING WATER TANK

Set up this realistic accessory in your yards for colorful railroad action. Press remote control button and spout lowers over tender; release button and spout snaps back to vertical position. Aircraft warning light and direction arrows on roof. Supports are simulated concrete piling. 6" x 6 $\frac{1}{2}$ " x 11".

AMERICAN FLYER TRAIN ACCESSORIES

No. 750 TRESTLE BRIDGE

Heavy, rolled-steel bridge designed to span rivers and gorges on your model railroad. Bridge Tender's house is illuminated inside. $17\frac{3}{4}''$ x $8\frac{3}{4}''$ x $4\frac{3}{4}''$.

No. 571 TRUSS BRIDGE

A great value! Low cost, realistic railroad bridge with heavy steel base and molded girder sides. Ideal for spanning narrow streams, chasms, etc. on your model railroad. Measures $10\frac{3}{4}''$ long x $4\frac{3}{4}''$ wide.

No. 581 GIRDER BRIDGE

Heavy die-cast bridge patterned after real railroad type. Slips under any straight track section. Can be used singly or in multiple. Measures $10''$ x $1\frac{3}{4}''$ x $4\frac{5}{8}''$.

No. 26 SERVICE KIT

Indispensable kit for every model railroader. Contains can of track cleaning fluid, bottle of train motor oil, tube of gear-and-stud grease, cleaning brush, sanding sticks, commutator stick, tube cleaners, cloth and 12-page instruction manual.

No. 778 STREET LAMP SET

Dress up your model pike with these realistic street lamps. One has mail box, another a fire alarm box. Create striking night scenes; just the thing for roads, boulevards, parkways, etc. Set of three. $5\frac{1}{2}''$ high.

No. 249 RAILROAD TUNNEL

Beautifully molded in many colors. Scene includes house, winding road, etc. Photograph shows scale relationship to locomotive (not included). $11\frac{1}{2}''$ long.

No. 21A IMITATION GRASS

For making landscapes of great beauty and realism. Scatter loose over layout or sprinkle over tacky green paint. Approximately half pound.

No. 22 SCENERY GRAVEL

Designed especially to create country roads, driveways, city park bridge lanes, etc., on your model pike.

No. 23 IMITATION COAL

If you have a hopper or gondola car you'll want at least one bag of this artificial coal—clean and dustless—when you make your runs from the coal fields to the big cities. Bag holds generous supply.

No. 24 RAINBOW WIRE

Different colors make it easy to trace wires to source. 4 wires, each 25 ft.

No. 25 SMOKE CARTRIDGES

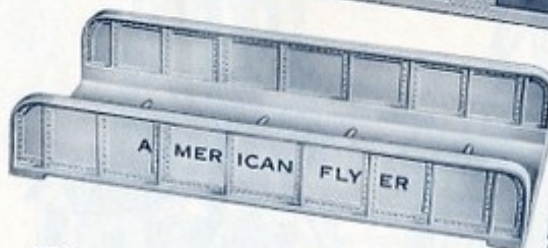

Produces thick, clean, white Smoke in few seconds. Should not be taken internally although harmless if swallowed accidentally. For all smoke-puffing locomotives shown in this catalog. Dozen cartridges in box.

No. 293 "THE METEOR" 4-6-2 LOCOMOTIVE AND TENDER

WITH SMOKE, CHOO-CHOO SOUND AND "PULL-MOR"

Remarkable new "Pull-mor" plus six big driving wheels give this hefty American Flyer locomotive capacity for rugged mountain climbing or long freight and passenger hauls. New Red Glowing Smoke combined with realistic choo-choo-choos that come from the boiler provide utmost in model railroading. 17 $\frac{3}{4}$ " long.

AMERICAN FLYER Steam Locomotives

No. 346 "THE YARD KING" 0-8-0 SWITCHER

WITH SMOKE, CHOO-CHOO SOUND, WHISTLE AND "PULL-MOR"

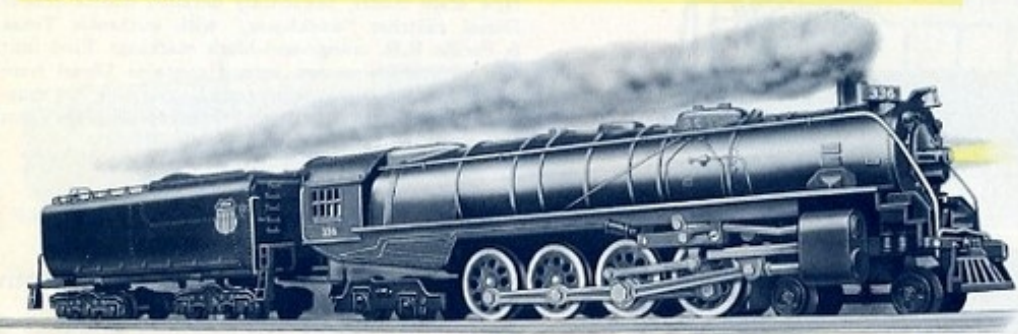

Look at the detail of this magnificent die-cast 0-8-0 "yard goat" and you'll understand why model experts and railroadmen alike consider it one of the finest steam switchers ever made. Has Red Glowing Smoke, Choo-Choo sound, steam Whistle and power-packed "Pull-mor." Measures 14 $\frac{3}{4}$ ".

No. 313 "THE TRAIL BLAZER" 4-6-2 LOCOMOTIVE AND TENDER

WITH SMOKE, CHOO-CHOO SOUND AND "PULL-MOR"

Watch this mighty die-cast Pennsylvania K-5 "Pull-mor"-equipped Locomotive snake a freight drag of 40 cars or steam up a rugged mountain grade and you'll know you're seeing a real loco in action. Red Glowing Smoke puffs out of the stack and right from the boiler you hear the steady choo-choo-choo sounds. Now press the remote control button and hear the thrilling steam Whistle blast for a grade crossing! 17 $\frac{3}{4}$ " long.

No. 336 "THE CHALLENGER" 4-8-4 LOCOMOTIVE AND TENDER

WITH SMOKE, CHOO-CHOO SOUND, WHISTLE AND "PULL-MOR"

Just see the sweeping length of this gigantic 8-wheel drive die-cast "smoker," patterned after one of the biggest American locomotives ever made! A full 21 $\frac{1}{2}$ inches—the mightiest steam locomotive in the American Flyer roundhouse—and with its big, new and more powerful worm-drive motor plus sensational "Pull-mor" it's a bearcat for performance. Watch it puff Red Glowing Smoke and hear it sound off with choo-choos—and then blow the remote control steam Whistle. 21 $\frac{1}{2}$ " long.

No. 326 "THE PACEMAKER" 4-6-4 LOCOMOTIVE AND TENDER

WITH SMOKE, CHOO-CHOO SOUND, WHISTLE AND "PULL-MOR"

Massiveness and power are in the lines of this hefty die-cast "Hudson" locomotive, made famous by the New York Central. Has "Pull-mor" feature that permits long car hauls and steep grade climbing. Choo-choo sounds keep time with the puffs of Red Glowing Smoke, while the built-in steam Whistle blows by remote control. 19" long.

**AMERICAN FLYER
Scale Model Diesel
Locomotives**

**No. 372 GP-7 UNION PACIFIC
DIESEL SWITCHER**
WITH BUILT-IN HORN AND PULL-MOR POWER

New and colorful General Motors switcher locomotive with authentic Union Pacific R.R. gray-and-yellow markings. Can pull 40 or more cars; Horn blows by remote control. 11 $\frac{1}{4}$ " long.

No. 466 "SILVER COMET" DIESEL LOCOMOTIVE
WITH PULL-MOR POWER

This big Diesel "growler" will handle your long freight drags with dispatch or make a speedy on-time passenger run. Powerful worm-drive motor assures realistic starting and stopping. Full remote control operation. Locomotive designed with satin silver finish and rich Arctic blue-green striping. Lettering and Comet design are yellow. 12 $\frac{1}{4}$ " long.

**No. 3745 TWIN UNIT DIESEL
SWITCHER LOCOMOTIVE**
WITH BUILT-IN HORN AND PULL-MOR POWER

New scale model, beautifully detailed double-header Diesel switcher "workhorse," with authentic Texas & Pacific R.R. orange-and-black markings. First unit has worm-drive motor, second contains Diesel horn which blows by remote control. Locomotive has massive heavyweight trucks and knuckle couplers front and rear. 21 $\frac{3}{4}$ " long.

No. 474 "SILVER ROCKET" DIESEL LOCOMOTIVE
WITH TWO MOTORS, PULL-MOR POWER AND HORN

The all-purpose Diesel workhorse you've been looking for — a double "A" unit American Flyer scale model of the famous Alco Diesel, with TWO worm-drive motors, built-in Horn and operating Knuckle Couplers. Made to travel at super speeds, it will also pull a heavy freight or passenger load. Forest Green and Gold on satin silver finish. 24" long.

Powerful, Triple Unit "CHIEF" featuring *Diesel "ROAR"*

No. 4713 AMERICAN FLYER DIESEL — "THE CHIEF"
WITH DIESEL ROAR, TWO WORM-DRIVE MOTORS, HORN AND PULL-MOR POWER

The finest Diesel locomotive made—and now with new American Flyer Diesel "Roar", reproducing the sound effects of real Diesel motors. Entire locomotive measures over 36 inches long and has twin motors to provide flashing speed and unlimited power. Built-in realistic Horn blows by remote control and with Pull-Mor power this big beauty can haul the longest freight or passenger train. Finished in Santa Fe R.R. colors: satin silver with red nose and yellow striping. Measures 36 $\frac{3}{4}$ " long.

Supplementary Units with *Diesel "ROAR"* sound effects

**No. 467 AMERICAN FLYER SILVER COMET
DIESEL "B" UNIT**
WITH DIESEL ROAR, HORN AND CONTROLLER

This trim, realistic "B" unit features the new true-to-life diesel "Roar", that reproduces the motor sound of both a running and idling Diesel locomotive. Provides brand new realism to the fun of model railroading! Can be added to any American Flyer Comet "A" unit loco. Built-in Horn blows by remote control. Locomotive is 12 $\frac{3}{4}$ " long.

**No. 476 AMERICAN FLYER SILVER ROCKET
"B" UNIT**
WITH DIESEL ROAR

If you now have or are planning to add a double "A" unit Silver Rocket locomotive to your American Flyer model railroad you'll certainly want this amazing "B" unit that duplicates the sound of real Diesel motors—from idling to running full throttle. Your Diesel trains will not only *look* real but will *sound* real, as well. Unit measures 12 $\frac{3}{4}$ " long.

**No. 480 AMERICAN FLYER SILVER FLASH
"B" UNIT**
WITH DIESEL ROAR, HORN AND CONTROLLER

Couple this "B" unit with the sensational Diesel Roar sound effects behind your Silver Flash "A" unit locomotive and you'll have a Diesel "growler" that really sounds like the McCoy. Advance the throttle and hear the big motors build up a thundering roar—reduce the throttle and the motor roar diminishes to a booming idle. It's the peak of railroading fun! Locomotive also has realistic built-in Horn. "B" unit is 12 $\frac{3}{4}$ " long.

No. 974 OPERATING BOX CAR

Your rail terminals will have all the hustle and bustle of a real freight yard when this remote control car goes into action! Crates load through sliding door and are carried to trainman, who tosses one out when you press button. Track included. 7-13/16" long.

No. 918 MAIL PICK-UP CAR

Action and fun at its best! Just like real railway post office cars on fast limiteds, this American Flyer rolling stock takes aboard one sack of mail while it tosses out another. Works by remote control at all speeds. Track section, stanchion and two sacks included. 10 3/4" long.

AMERICAN FLYER ACTION CARS

No. 914 LOG UNLOADING CAR

Here's the car you'll want for those logging operations in the "big timber" country. When you touch the remote control button the bottom tilts up, the sides lower and out spill the logs. Chassis is heavy die casting body and stakes are pressed steel. Automatic track section included. 7 3/4" long.

No. 919 OPERATING DUMP CAR

Load coal, ballast, ore, slag, etc., and dump it by remote control! Body tilts, sides lower and contents slide out. Heavy die-cast chassis. Bin, artificial coal, control units, etc., included. 6 1/4" long.

No. 915 UNLOADING CAR

You can have endless hours of fun, with this action car! Even though the car is far away, you press the remote control button and the platform swings around, tilts up and the truck rolls down the incline. Heavy steel construction, beautifully finished. Includes automatic track section, controls, etc. 7 3/4" long.

No. 977 ACTION CABOOSE

There's never been a car like it before in model railroading history — and it provides freight trains that have it with twice the realism. Each time train stops, trainman on rear platform leans out to check cars ahead. When train resumes run, he returns to his post. Lots of fun — and it's all automatic! 6" long. Illuminated.

New

No. 960G BAGGAGE AND CLUB CAR

A real beauty — aluminum finish body and heavy metal chassis features modern, up-to-date styling. Made to resemble the gleaming stainless steel baggage and club cars used by the New York Central, the New York, New Haven & Hartford and other real-life roads. Passengers are silhouetted in windows. Interior lighting. Green window stripe. 12½" long.

No. 961G STREAMLINED COACH

Big wide picture windows where your passengers (they're silhouetted inside!) can relax and enjoy the scenery. Satin finish body, on heavy chassis, resembles stainless steel de luxe coaches. Streamlined sides and top are corrugated. Illuminated inside. Die cast trucks beautifully detailed. Has green window stripe. 12½" long.

No. 962G VISTA DOME PULLMAN CAR

Intricately detailed model of the car which has created a sensation on real-life railroads. Observation dome on roof enables passengers to view entire train and countryside. Body has aluminum finish with streamlined corrugated sides and top. Heavy chassis; die cast trucks. Silhouetted passengers. Full illumination. Green window stripe. 12½" long.

No. 963G STREAMLINED OBSERVATION

Here's the finest, most luxurious lounge car ever made! Built to accurate 3/16" scale, it has the full sweep and length of real observations. "Boat-tail" end gracefully rounded; windows are extra size. Red warning light on rear is illuminated. Fully lighted inside. Silhouetted passengers. Die cast trucks minutely detailed. Green window stripe. 12½" long.

No. 951R BAGGAGE CAR

Patterned after the famous Railway Express Agency cars. Roof detail includes ventilators; chassis rides on double sintered iron trucks. Red finish. Equipped with railroad type Knuckle Couplers. 10¾" long.

No. 953R BAGGAGE AND CLUB CAR

Companion car to No. 952 Pullman and 954 Observation. Baggage door slides open to receive cargo; door at passenger end is hinged for opening and closing. Passengers silhouetted in windows. Red finish. Illuminated. 12" long.

No. 952R ILLUMINATED PULLMAN

A real masterpiece of scale modeling! Detail even includes imitation shades in inset windows! Lounge windows are opaque, as on real cars. Fully lighted inside. Accurate 3/16" scale throughout. Double sintered iron trucks. Passengers silhouetted in windows. Red finish. 12" long.

No. 954R OBSERVATION CAR

Railing is brightly finished; steps, double inset windows, hinged open-and-close doors, imitation window shades and other detail makes this illuminated car a real buy. Passengers silhouetted in windows. Red finish. 12" long.

**AMERICAN FLYER
PASSENGER CARS**

AMERICAN FLYER

Scale Model Freight and Work Cars

No. 916 CONTAINER GONDOLA CAR

Real railroads ship huge containers of chemicals and other liquids in gondola cars like this. 8" long.

No. 924 CEMENT CAR

Roof loading hatches, rivet heads, ladders and other detail all faithfully reproduced. Jersey Central R.R. markings. Gray finish. 6 $\frac{1}{2}$ " long.
