

# AMERICAN FLYER

Made by GILBERT

BRAND NEW!

*Vista-Dome* NORTH COAST LIMITED

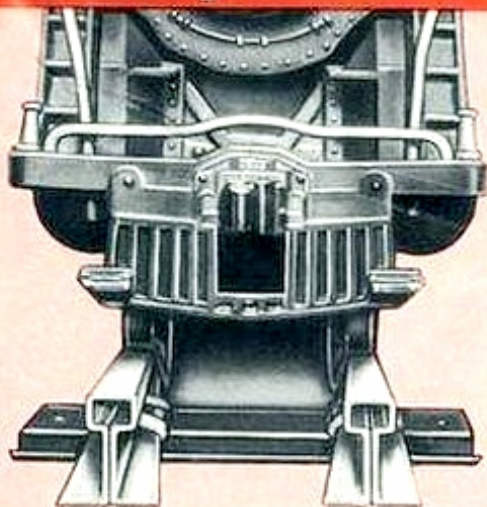

# 1 <sup>3</sup>/<sub>16</sub>-of-an-inch SCALE!

Every locomotive and car in the line is an accurate scale model — from beginner's train set to the big streamlined Diesels.

## Only AMERICAN FLYER Has So

# 2 2-RAIL TRACK!

Two rails, each one shaped like the letter "T", with flat-on-top traction. American Flyer trains run on the kind of track real trains use — 2-rail.

# 3 REAL SMOKE and CHOO-CHOO SOUNDS!

Red glowing Smoke that puffs out of the stack keeping time with the locomotive driving wheels . . . steady, rhythmic Choo-Choo sounds that come right from the boiler. Only American Flyer has this great twin feature!

## 4 DIESEL ROAR!

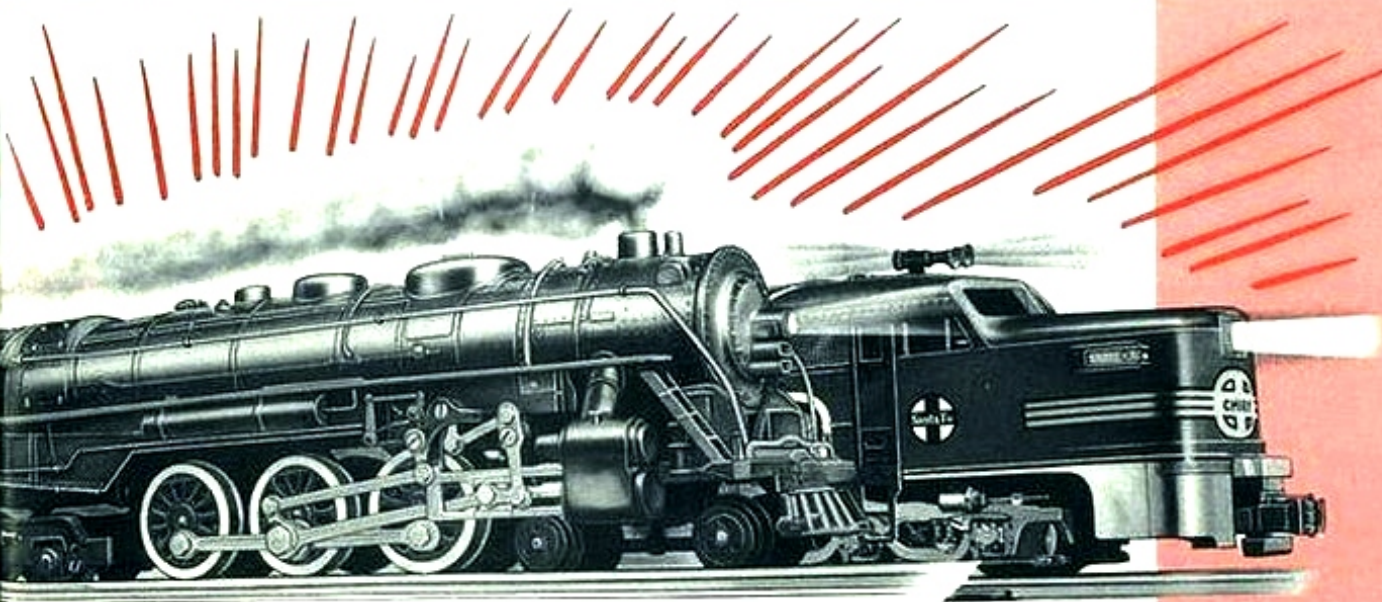

The ultimate in Diesel railroading! Built right into the locomotive are all the sounds of the big Diesel engines . . . from steady, pulsating idle and revving-up to roaring across the flatlands or powering up a steep grade. Just as in a real Diesel the sounds vary according to speed. It's uncanny!

## 5 PULL-MOR POWER!

American Flyer locomotives with Pull-Mor out-perform any other trains ever made! They can pull more cars, climb steeper grades and travel faster. Every 1956 locomotive has it!

# MANY Real Railroading Features!

## 6 *New* ELECTRONIC HORN and WHISTLE!

Never has there been anything like it in model railroading before! Built right into the locomotive, it sounds the most realistic train signal imaginable, all by electronic remote control!

AMERICAN FLYER TRAINS are made by The A. C. Gilbert Company, New Haven 6, Conn.  
SHOW ROOMS and EXPORT DIVISION: The Gilbert Hall of Science Building, Fifth Avenue at 25th Street, New York.

# AMERICAN FLYER Safety-first TRANSFORMERS

Protected Against "Shorts" and Burn-outs  
by built-in Circuit Breakers

## No. 1½B TRANSFORMER, WITH CIRCUIT BREAKER

RATING: 50 WATTS, 115 VOLTS, 60 CYCLES, A. C.

Has three binding posts for easy wiring of accessories; provides variable voltage for trains and fixed voltage for accessories. Circuit breaker is built-in.

## No. 4B TRANSFORMER, WITH CIRCUIT BREAKER

RATING: 100 WATTS, 115 VOLTS, 60 CYCLES, A. C.

Automatic Thermostatic Circuit Breaker, built-in, protects Transformer from burn-outs. Has three binding posts for simplified wiring.

## No. 15B TRAIN POWER CONTROLLER, WITH CIRCUIT BREAKER

RATING: 110 WATTS, 115 VOLTS, 60 CYCLES, A. C.

New features provide full directional control: when train stops, it will re-start without going into reverse first. Built-in Circuit Breaker prevents transformer burn-outs. Green light indicates power-on; red light warns of a short circuit. Like real railroads it has exclusive "Dead Man's Control" — if throttle is released, train halts.

## No. 16B TRAIN POWER CONTROLLER, WITH CIRCUIT BREAKER

RATING: 175 WATTS, 115 VOLTS, 60 CYCLES, A. C.

It's more than a transformer — it's a real model railroad power controller. It gives you full control of direction: when train stops it starts again in same direction without going into reverse first. Has exclusive "Dead Man's Control" — if throttle is let go, train halts. Built-in Circuit Breaker shuts off current if transformer is overloaded or if a "short" develops. Has off-on switch.

## No. 18B DUAL TRAIN POWER CONTROLLER, WITH DOUBLE CIRCUIT BREAKER

RATING: 175 WATTS, 115 VOLTS, 60 CYCLES, A. C.

Two circuit breakers guard transformer against short circuit damage or overload. Has exclusive "Dead Man's Control" and permits full directional operation. Can run two trains on separate track loops at different speeds.

## No. 30B DUAL TRAIN POWER CONTROLLER, WITH DOUBLE CIRCUIT BREAKERS

RATING: 300 WATTS, 115 VOLTS, 60 CYCLES, A. C.

The finest electric train power controller you can buy! Can run two trains at different speeds on separate loops of track, or FOUR trains (two running at same speed) on four separate layouts. Has full directional control; when train stops it will start up again without going into reverse first. Two panel meters indicate voltage — one for each control. Transformer has "Dead Man's Control." When throttle is let go, train halts! Operation is guarded by two circuit breakers — one for trains, one for accessories — which shut off power if over-load or short occurs.

### No. 731 PIKE PLANNING KIT

Lay out simple or complicated American Flyer track systems in a matter of minutes, where formerly it took hours! One of model railroading's greatest boons. Scaled one inch per foot. Pike Planning book tells how to build and landscape a model railroad.

### No. 730 BUMPER

Every model pike needs several of these realistic bumpers for dead end sidings. Snaps on to track quickly and easily. Has authentic recoil spring and warning light. Complete with 10" track section.

### No. 728 "S" GAUGE AUTOMATIC RE-RAILER

The greatest boon ever for a model railroader! Makes it possible to put any car on the track instantly without lining up wheel flanges on the rails. Just place car on the track (wheels can even be resting on the ties!) and push it through re-railer; wheels are automatically railed! If car becomes de-railed while train is running, dragging trucks are automatically put back on the rails as car passes through Re-Railer. Every model railroader will want at least one of these for his American Flyer pike!

### NEW and IMPROVED AMERICAN FLYER RUBBER ROADBED!

Now, more realistic than ever with added molded track ties, American Flyer "S" gauge track slips into recessed slots that makes track resemble an actual real railroad two-rail right-of-way. Besides providing realism, roadbed also deadens sound of running trains and prevents track from slipping. Molded in black rubber. **No. 727 CURVED RUBBER ROADBED**, 10" long. **No. 726 STRAIGHT RUBBER ROADBED**, 10" long.

### No. 725 RAILROAD CROSSING

No model layout is complete without one of these crossings! Enables you to have one train pass in front of another or to intersect two main lines. 10" long.

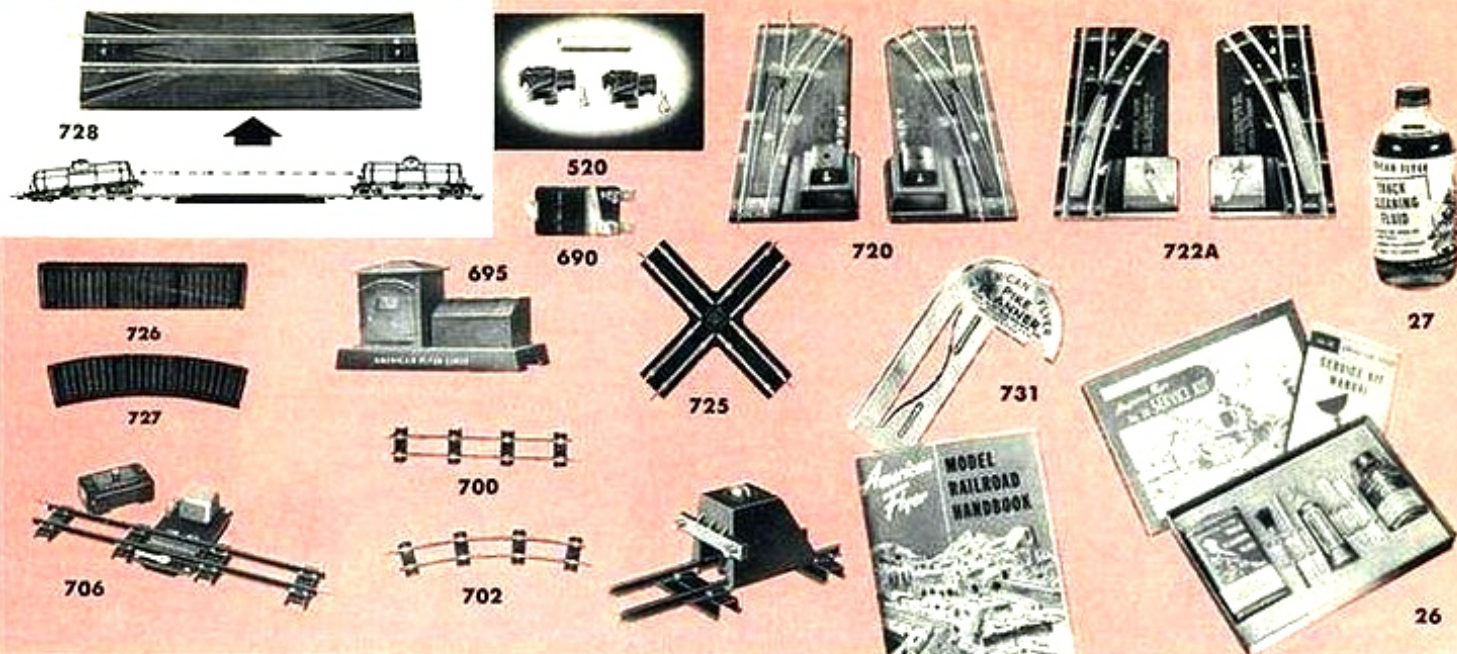

### No. 722A MANUAL PAIR SWITCHES

Similar in construction to electric switches except that operation is by hand. Control lever alters position of swivel rail. Not illuminated.

### No. 720 REMOTE CONTROL SWITCHES

Positive action electric switches with red and green position lights. Remote control box has two switch control levers. Lights remain illuminated even when train is not running.

## AMERICAN FLYER TRACK EQUIPMENT

### No. 706 REMOTE CONTROL ELECTRIC UNCOUPLER

For remote control uncoupling of American Flyer cars. Clamps to any 10" straight or curved track section. Includes track section and remote control button.

### No. 703 CURVED TRACK HALF SECTION

(not illustrated)  
Measures 5" long. Fully insulated.

### No. 702 CURVED TRACK

Two rail sections, fully insulated. Real railroad "T"-rail construction, 10" long.

### No. 701 STRAIGHT TRACK HALF SECTION

(not illustrated)  
Each section measures 5" long. Fully insulated.

### No. 700 STRAIGHT TRACK

Two "T"-type running rails, for true-to-life operation! Sections are made of heavy gauge steel and measure 10". Fully insulated.

### No. 695 REVERSE LOOP RELAY

Enables you to construct loops and other track schemes with American Flyer 2-rail track. Consists of wire leads, fiber pins, terminals and an automatic relay mounted in railroad type trackside tool box.

### No. 690 TRACK TERMINAL

Designed to provide an ideal power lead connection from Transformer or accessories to track section.

(not illustrated)

### No. 691 12 Steel Track Pins.

### No. 692 4 Fiber Track Pins.

### No. 679 RIGHT SINGLE SWITCH

(not illustrated)  
Similar to No. 678 except is right hand switch.

### No. 678 LEFT SINGLE SWITCH

(not illustrated)  
Construction is similar to No. 720A. Switches but is sold as left hand switch only, for track layouts where just one switch is required. Has single control box.

**No. 693** Package of 14 Track Locks, to prevent track separation. (not illustrated)

### No. 670 (not illustrated)

Automatic Track Trip. Makes switches automatically non-derailing!

### No. 520 KNUCKLE COUPLER KIT

Converts American Flyer link coupler cars and tenders to new knuckle-type couplers. Complete directions included. Sold in pairs only.

### No. 27 TRACK CLEANING FLUID

Special solution that scientifically removes dirt and oil from rails, provides better locomotive performance. Inhibits rust, is non-toxic and non-corrosive. 5 1/2" high.

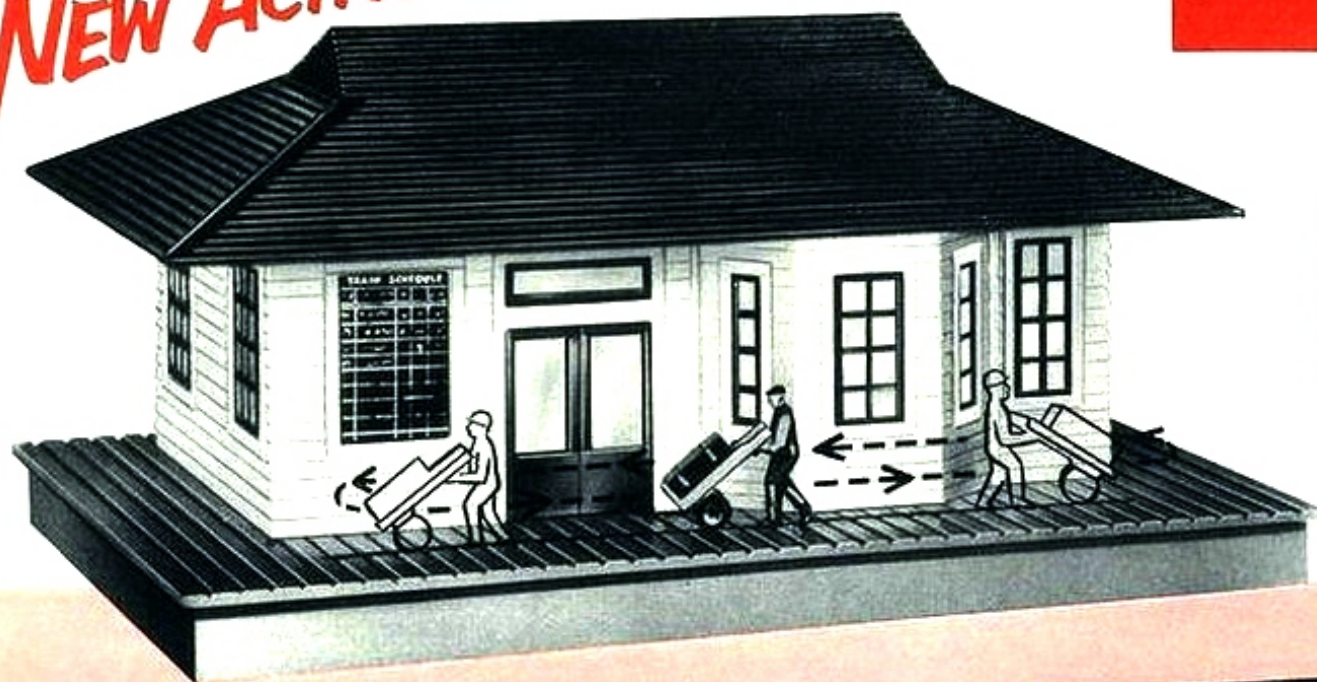

### No. 26 SERVICE KIT

Indispensable kit for every model railroader. Contains can of track cleaning fluid, bottle of train motor oil, tube of gear-and-stud grease, cleaning brush, sanding sticks, commutator stick, tube cleaners, cloth and 12-page instruction manual.

# New Action Station!

AMERICAN FLYER

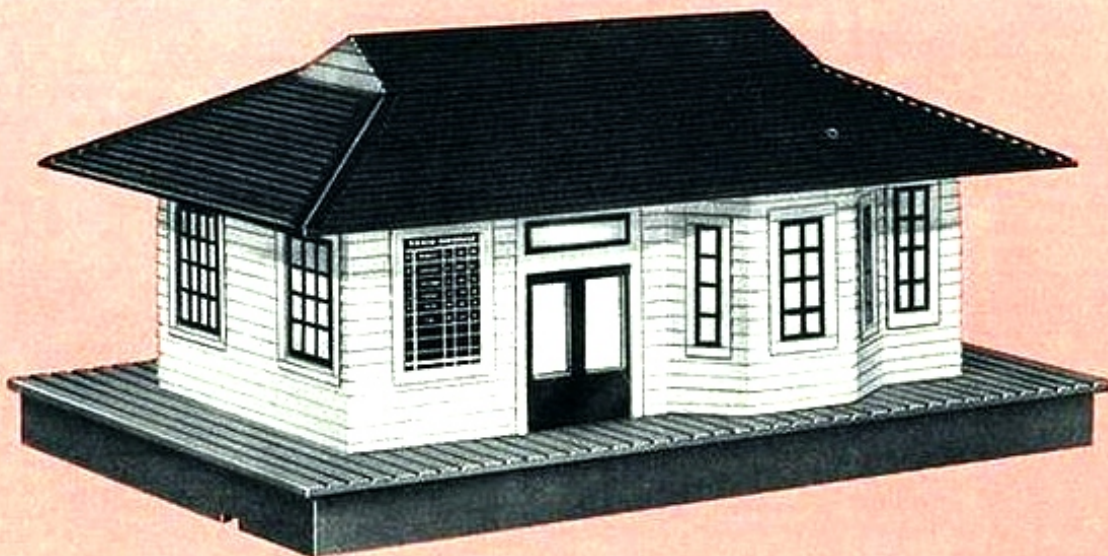

## No. 789 STATION AND BAGGAGE SMASHER

Realistic action for your wayside station stops! When current is on, Billy the Baggage Smasher tirelessly trundles his load of freight back and forth across the station platform, giving the scene motion and color a-plenty. Brand new and highly interesting accessory. Station fully detailed: clapboard siding is white; roof green and platform gray. Measures 10" long, 7 1/4" wide, 4 1/4" high.

New

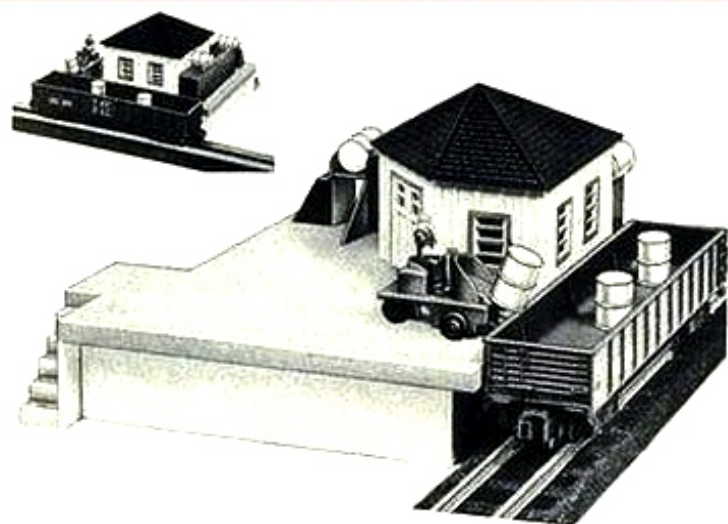

## No. 788 SUBURBAN STATION

Entirely new station made to resemble the kind seen in suburban areas. Patterned after type that accommodates both passengers and freight; has ticket seller's office, train arrival-and-departure board and other detail. Has white clapboard side, gray base and green roof. Dimensions: 10" long, 7 1/4" wide, 4 1/4" high.

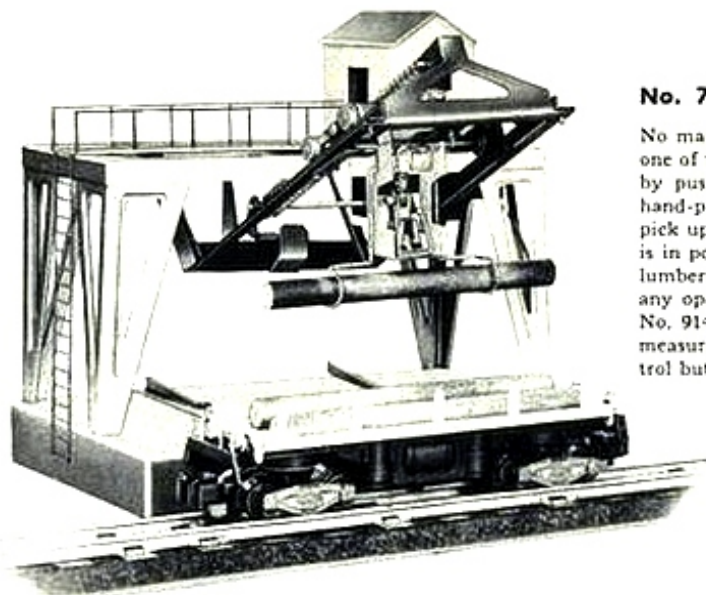

# Action Accessories

**IT'S NEW...DIFFERENT...  
ALIVE WITH ACTION!**

## No. 779 AMERICAN FLYER OIL DRUM LOADER

There are endless hours of fun in store for you with this intriguing accessory, unlike anything yet seen in model railroading. When remote control button is pressed, man who operates 3-wheel lift truck picks up barrel from ramp (as shown in line drawing), then motors over to waiting car on track, where he dumps barrel before returning to ramp for another load. Fascinating to see! Tender's shack, colorfully finished, conceals electric motor which provides power. Gondola car illustrated is NOT included with accessory. Oil Drum Loader is packed with single button control and quantity of barrels. Dimensions:  $8\frac{3}{4}$ " x  $8\frac{1}{2}$ " x  $5\frac{1}{2}$ " high.

## No. 787 AMERICAN FLYER LOG LOADER

No matter what kind of layout you have, you'll want one of these exciting new action accessories that works by push button remote control. At touch of button, hand-painted lumberman goes into action, as big hooks pick up piece of timber and lift it up ramp. When log is in position over car it is automatically released and lumberman returns quickly for another load. Although any open car can be used, accessory works best with No. 914 car shown (NOT INCLUDED). Log Loader measures  $9\frac{3}{4}$ " long,  $6\frac{1}{4}$ " wide,  $8\frac{1}{2}$ " high. Single control button included.

## No. 785 AMERICAN FLYER COAL LOADER

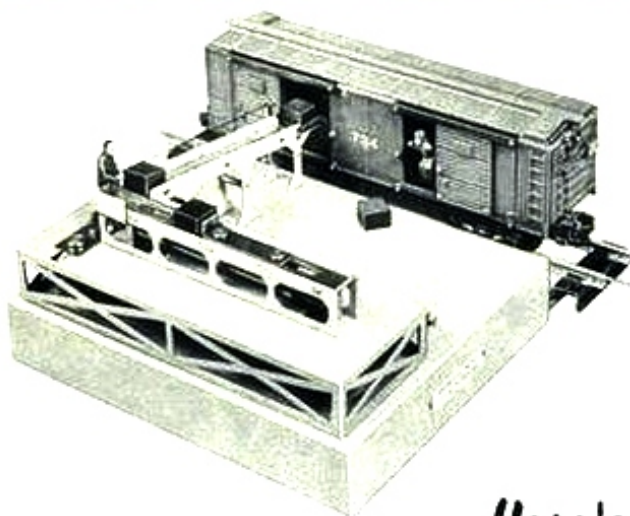

Fill up your coal cars just like the big roads do with this realistic railroad yard accessory that's brand new for '55. Operation is 100% remote controlled. With coal car in position beneath chute, as shown in photograph, (rolling stock illustrated is NOT included) you depress 1st control button, which closes jaws of clam-shell scoop. Bucket then carries load of imitation anthracite up to tipple and deposits coal into elevated hopper. Pressure on 2nd button releases coal, which cascades into car, while 3rd remote control button returns clam-shell bucket to coal pile for another load. Fascinating accessory to operate! Stands  $14\frac{1}{4}$ " high. Base is 5" square.

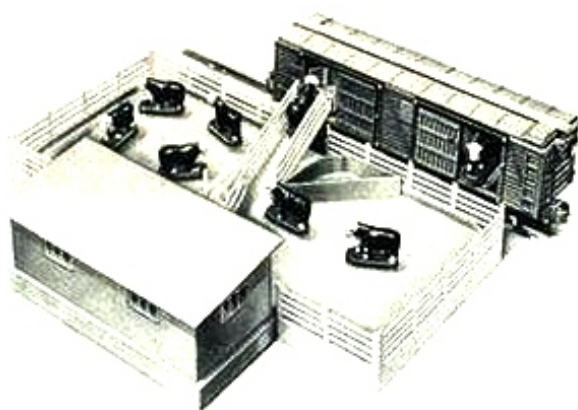

# AMERICAN FLYER

## Model Railroad Equipment

### No. K775 BAGGAGE LOADING PLATFORM AND CAR

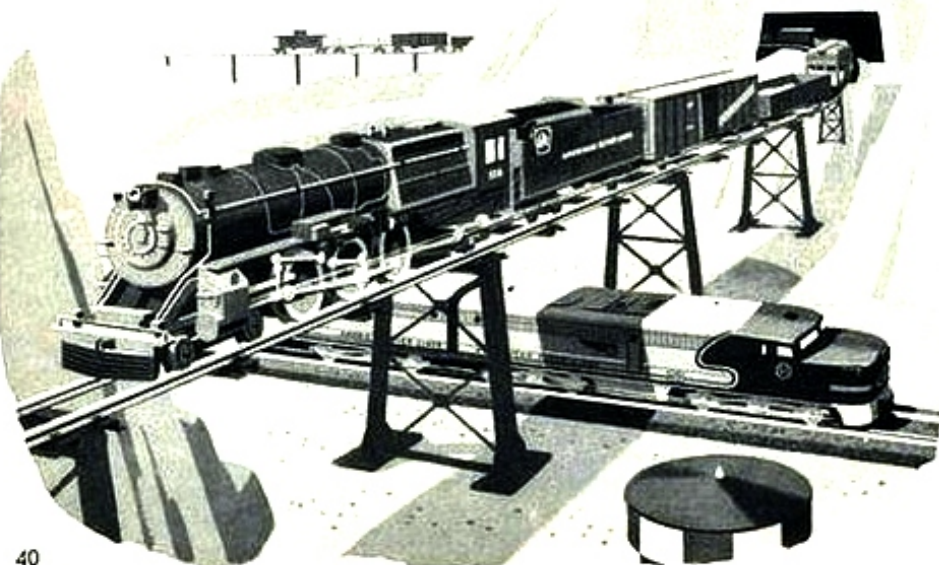

Handle your rail shipments at the touch of a remote control button with this exciting accessory that sends miniature packing crates down the chute and into the baggage car. Each time control button is pressed, a box is fed singly to baggageman, who lowers chute extension and sends crate sliding into Box Car. Trainman in Car tosses crate out of open door each time button is touched, so that cycle can be repeated. Car 7 13/16" long. Loader is 7" long, 8 1/4" wide, 3 3/4" high.

### No. K771 OPERATING STOCKYARD AND CAR

One of the most popular and unusual railroad accessories ever made! All action automatic after switch is turned. Steers in pens mill about; when one of exit gates is opened, cattle file up ramp into car. Stock car unloads when exit door lines up with corral ramp. Accessory can be operated in number of interesting ways! Car is 7-13/16" long. Stockyard is 11" long, 10 1/4" wide, 2 3/4" high.

*Here's Real Fun!*

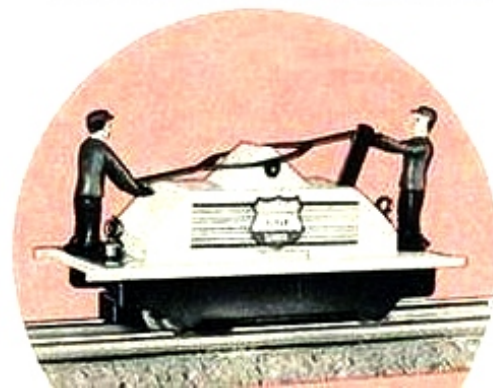

### No. 780 RAILROAD TRESTLE SET

Model railroading takes on new fun and meaning when you add one of these American Flyer Trestle Sets to your layout. Your freight and passenger trains climb the grade, continue on the high elevated section and then descend. Elevated level portion can be extended by adding Hi-Trestle Sections (see below). Molded trestles resemble girder construction and are finished in realistic red-lead color. American Flyer "S" Gauge track sections recess into trestle slots and lock together with clips. Easy and quick to set up. Trestle rises to 4 1/4" at highest point. Can be arranged in figure 8, ovals, and other variations. Set consists of 24 trestles and 26 Track Locks.

### No. 783 HI-TRESTLE SECTIONS (not illustrated)

12 Trestles, each 4 1/4" high, for adding to and extending highest elevated part of No. 780 Trestle Set described above. Also includes 12 Track Locks, to prevent track separation.

### No. 742 REVERSING HAND CAR

One of the most popular railroad accessories ever made — and newly designed with automatic reversing action. When hand car strikes object, it goes in reverse. Power is supplied by Gilbert worm drive motor. Car is 4 1/2" long.

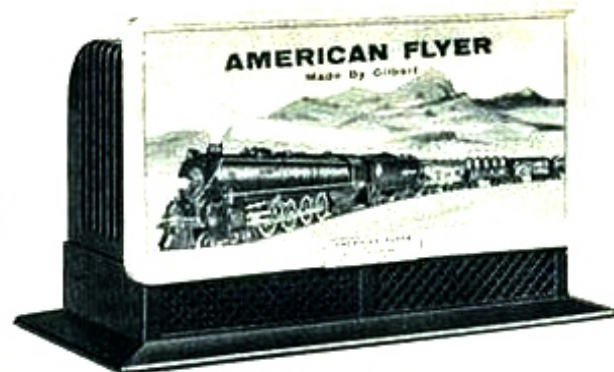

*New*

#### No. 561 BILLBOARD HORN

Realistic, deep-throated Diesel Horn sounds just like the kind in the real-life "growlers" that travel the nation's rails. Enables your pike to have sound effects even if your Diesel locomotive doesn't have a built-in horn. Brand new design. Remote control operation. 4" x 7½" x 4".

#### No. 568 WHISTLING BILLBOARD

*New*

If your steam locomotive doesn't have a built-in whistle you'll want this ingenious accessory for your pike. Whistle mechanism, concealed in newly-designed housing, blows by remote control. Sound long blasts or short toots. 4" x 7½" x 4".

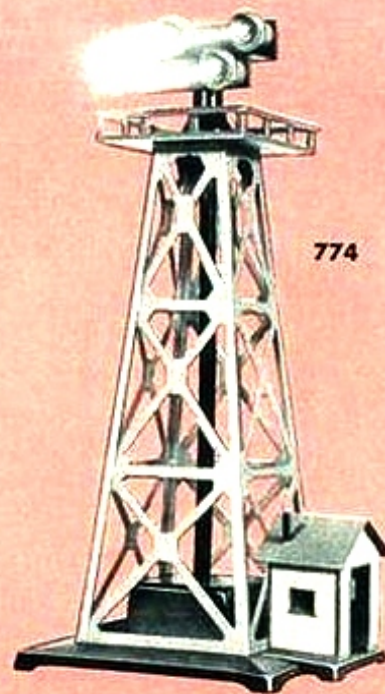

#### No. 772 AUTOMATIC WATER TOWER

For that final, authentic touch place a couple of these colorful Water Towers, with automatic action, near factories in your industrial setting. Tank, with striking red-and-white checker pattern, sits atop all-steel girder type structure. Shack mounted on base is pressed steel, finished in white with green roof. Approximately 12¾" high. Base measures 5" x 6".

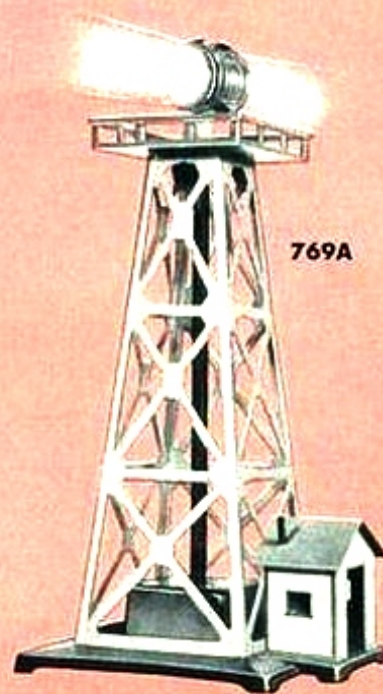

#### No. 774 FLOODLIGHT TOWER

Wonderful for lighting up yard scene at night! Powerful new floodlights, mounted in double tier atop a steel girder-type structure, cast bright glow. Workman's Tool Shack at base is made of pressed steel. Approximately 11½" high; base is 5" x 6".

#### No. 769A REVOLVING AIRCRAFT BEACON

Realistic structure which provides warning for low-flying aircraft — and adds interest and fun to your model railroad. Beacon revolves automatically, slowly swinging alternate red and green rays. Girder structure is all-steel; base is molded. Watchman's Shanty is pressed steel, colorfully finished. Stands 12" high; base 5" x 6".

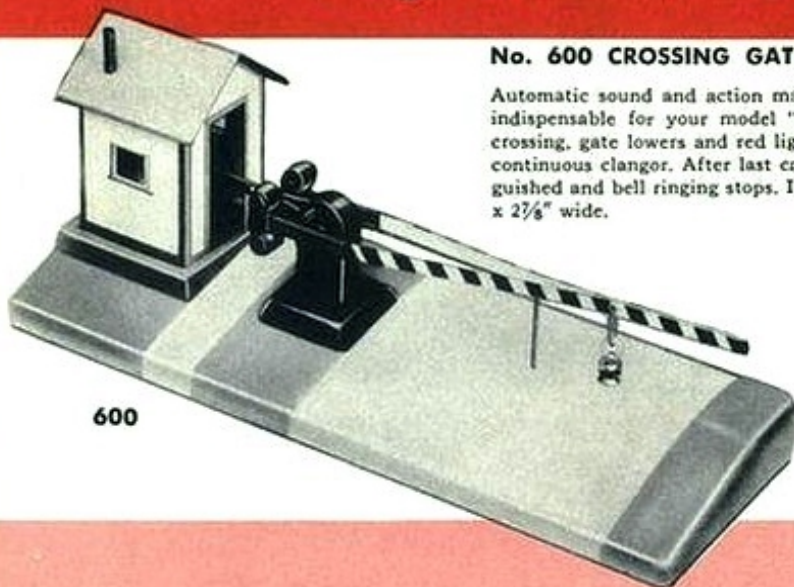

# AMERICAN FLYER

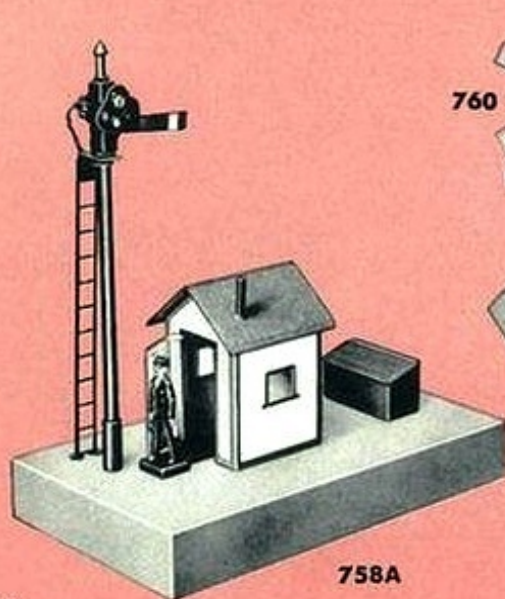

## Signals and Stations

### No. 600 CROSSING GATE WITH BELL

Automatic sound and action make this fascinating railroad accessory indispensable for your model "pike". When train approaches grade crossing, gate lowers and red light goes on and warning bell sets up a continuous clangor. After last car passes, gate rises, red light is extinguished and bell ringing stops. Includes track trip. Measures  $8\frac{7}{8}$ " long x  $2\frac{7}{8}$ " wide.

600

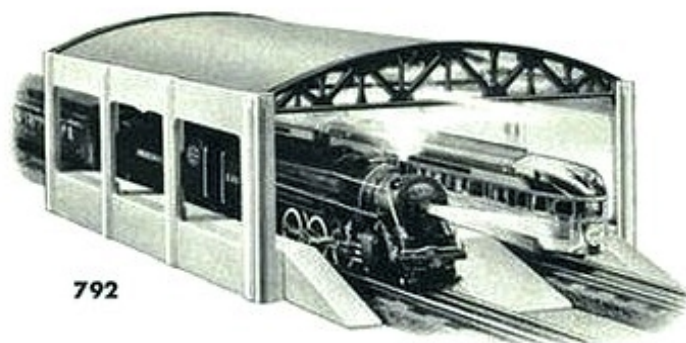

758A

760

761

792

### No. 792 RAILROAD TERMINAL

No matter what kind of railroad layout you now have you'll want to add one of these new terminals that will handle two trains if used as shown above or, without center platform-and-ramp, can accommodate three. Clear-finish roof is supported by 4 girder arches. Platforms, with passenger ramps, can be used singly or in multiple. Terminal is made of medium impact styrene. Trains shown in photograph are not included. Dimensions: 16" long,  $6\frac{1}{8}$ " high, 11" wide.

### No. 758A SAM THE SEMAPHORE MAN

Here's tireless Sam, all set to guard against rail accidents on your American Flyer pike. Press operating button and by remote control, Sam dashes out of shack, halting oncoming train. Press second button and Sam hustles back into house, enabling train to resume its trip. All-metal construction.  $7\frac{1}{4}$ " high.

### No. 759 BELL DANGER SIGNAL

Fascinating sound and action. Approaching train causes bell to set up a warning clang while red lights on Crossing stanchion flash on and off. Spot a couple of these at key grade crossings on your layout—for the latest in railroad safety devices! Base and lamp housing are die cast; house is pressed steel. Track trips included  $5\frac{1}{2}$ " long x  $2\frac{7}{8}$ " wide x 5" high.

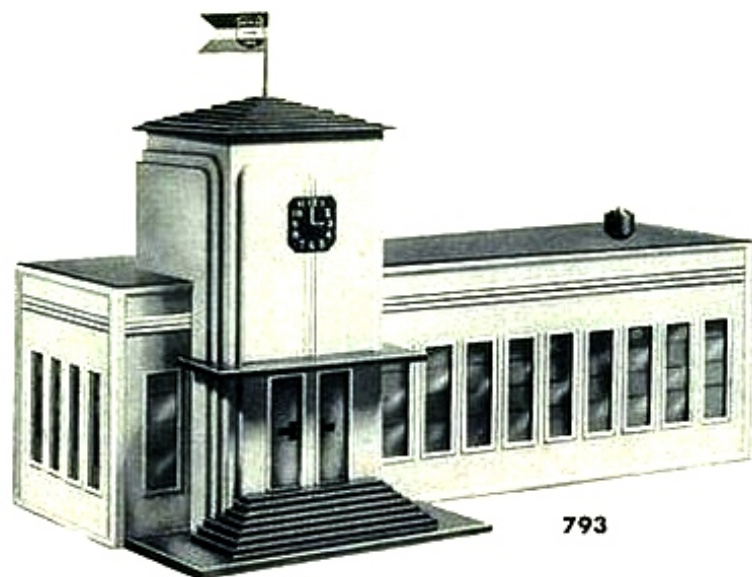

### No. 760 AUTOMATIC HIGHWAY FLASHER

Warns motorists of approaching trains. As train nears, red lights flash on and off, cease only after last car has passed. Accessory has heavy die cast base and lamp housing; cross arms and stanchion are steel. Includes pair No. 696 Track Trips. Stands  $4\frac{7}{8}$ " high; base is  $2\frac{1}{8}$ " square.

### No. 761 AUTOMATIC SEMAPHORE

Safeguard your trains the way real railroads do! Semaphore can be wired to provide an automatic block system control of two trains; when train nears, blade rises and light turns green. After train passes, blade drops and bull's eye becomes red, automatically causing "dead block" to halt following trains. Stands  $7\frac{3}{8}$ " high.

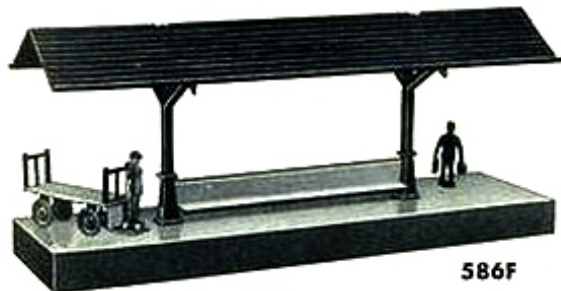

793

#### No. 793 UNION STATION (WITH ILLUMINATION)

This big-city station with impressive front entrance and tower is all ready to handle the rush of commuter and out-of-town traffic on your railroad system. Because tower unit is movable, station can be set up in variety of ways: use as shown or, if you like, have entrance through the station end. Station is made of medium impact styrene with frosted windows. Full interior illumination. Dimensions: 9" wide, 8 $\frac{3}{4}$ " high, 16" long.

586F

#### No. 586F WAYSIDE STATION

Just like the stations seen along suburban and commuter rail lines. Brightly finished in red, green and yellow. Heavy steel base; die cast supporting girders. Wealth of detail throughout. Twin bulbs cascade light from underside of roof. Includes redcap and baggage operator with truck. 12" long x 3 $\frac{3}{4}$ " wide x 5" high.

#### No. 589 PASSENGER AND FREIGHT STATION

Modeled after the combination stations seen in rural areas and way stops. Baggage door slides open and shut; waiting room door swings on hinges. Realistic windows finished in bright trim. Station fully illuminated. Measures 12" long x 8" wide x 6" high.

589

*New York, Philadelphia, Chicago and all points West!*

*Hiss-s-s-s*  
*American Flyer through train!*  
*All Aboard!*  
*Chug-Chug*

799

#### No. 799 AUTOMATIC TALKING STATION

American Flyer's famous Talking Station, newly-designed to make it better than ever! When you press remote control button, this is what happens automatically: your train stops in front of the station, and while it waits you hear sounds right from the station interior — hissing steam, piston chugs, train-master's voice, etc. When sounds cease, train automatically resumes trip. Entire operation is electrical — no batteries required. Don't confuse this station with others which do far, far less. Dimensions: 16" long, 8 $\frac{3}{4}$ " high, 9" wide.

#### No. 598 TALKING STATION RECORD

Realistic railroad sounds; Diesel horns, exhausts, etc., on one side and steam locomotive whistles, piston sounds, etc., on other. For replacement of record in 799 Talking Station. Diameter is 4 $\frac{1}{2}$ ".

#### No. 599 TALKING STATION FREIGHT RECORD

(not illustrated)  
 Brand new — and ideal for model layout terminal or freight yard use. One side features trainman's voice giving instructions for make-up of cars, with background of whistles, ringing loco bell, etc. Other side consists of realistic conversation between freight conductor and control tower in regard to freight hotbox trouble. Record is 4 $\frac{1}{2}$ " diameter. For use in 799 Talking Station.

598

**NEW**

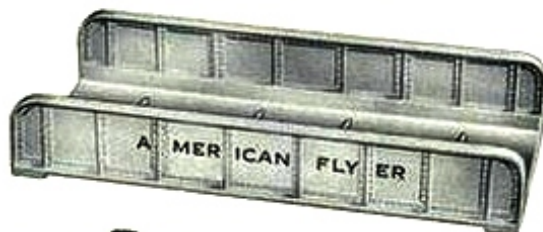

# AMERICAN FLYER

## Model Railroad Structures

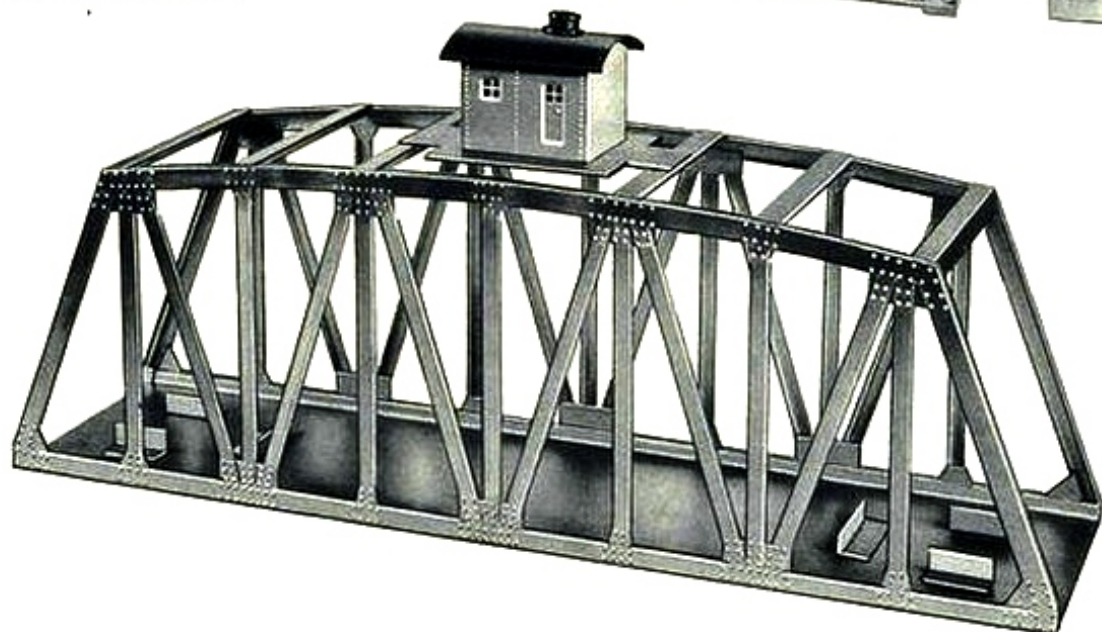

**No. 571 TRUSS BRIDGE**

A great value! Low cost, realistic railroad bridge with heavy steel base and molded girder sides. Ideal for spanning narrow streams, chasms, etc. on your model railroad. Measures  $10\frac{3}{4}$ " long x  $4\frac{3}{4}$ " wide.

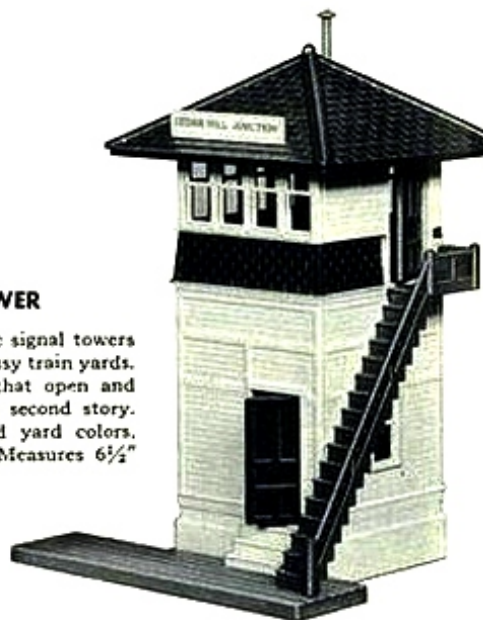

**No. 581 GIRDER BRIDGE**

Heavy die-cast bridge patterned after real railroad type. Slips under any straight track section. Can be used singly or in multiple. Measures  $10$ " x  $1\frac{3}{4}$ " x  $4\frac{3}{4}$ ".

**No. 590 CONTROL TOWER**

Scale model copy of authentic signal towers which act as nerve center of busy train yards. Has interior lighting, doors that open and shut and outside stairway to second story. Finished in accurate railroad yard colors. Simulated clapboard siding. Measures  $6\frac{1}{2}$ " high, base is  $2\frac{1}{2}$ " square.

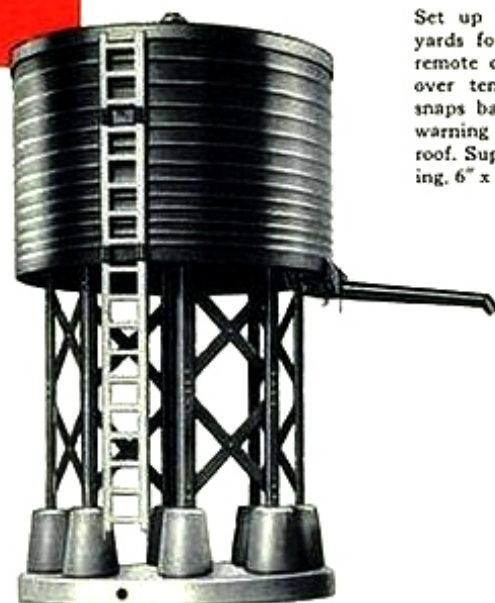

**No. 750 TRESTLE BRIDGE with Lighted House**

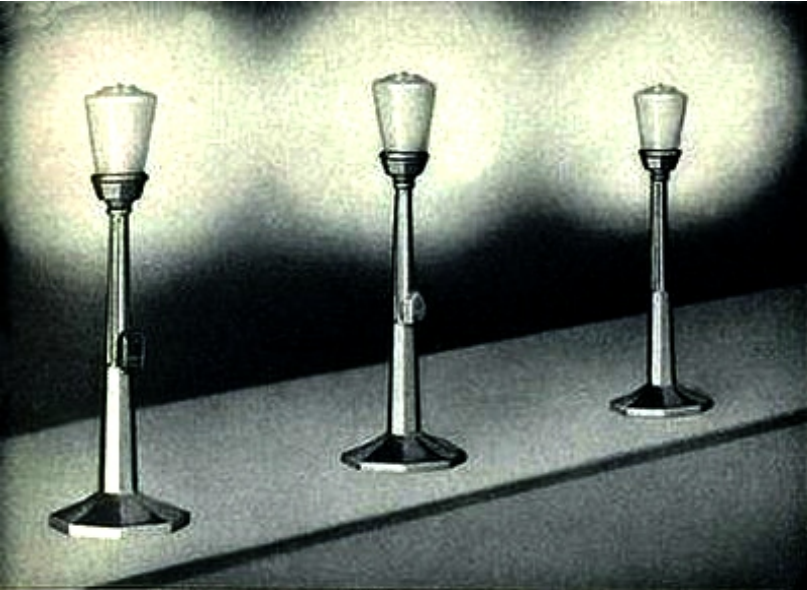

Heavy, rolled-steel bridge designed to span rivers and gorges on your model railroad. Bridge Tender's house is illuminated inside.  $17\frac{3}{4}$ " x  $8\frac{3}{4}$ " x  $4\frac{3}{4}$ ".

**No. 596 OPERATING WATER TANK**

Set up this realistic accessory in your yards for colorful railroad action. Press remote control button and spout lowers over tender; release button and spout snaps back to vertical position. Aircraft warning light and direction arrows on roof. Supports are simulated concrete piling.  $6$ " x  $6\frac{1}{2}$ " x  $11$ ".

#### No. 778 STREET LAMP SET

Dress up your model pike with these realistic street lamps. One has mail box, another a fire alarm box. Create striking night scenes; just the thing for roads, boulevards, parkways, etc. Set of three. 5 1/4" high.

#### No. 21A IMITATION GRASS

For making landscapes of great beauty and realism. Scatter loose over layout or sprinkle over tacky green paint. Approximately half pound.

#### No. 22 SCENERY GRAVEL

Designed especially to create country roads, driveways, city park bridge lanes, etc., on your model pike.

#### No. 23 IMITATION COAL

If you have a hopper or gondola car you'll want at least one bag of this artificial coal—clean and dustless—when you make your runs from the coal fields to the big cities. Bag holds generous supply.

#### No. 249 RAILROAD TUNNEL

Beautifully molded in many colors. Scene includes house, winding road, etc. Photograph shows scale relationship to locomotive (not included). 11 1/2" long.

#### No. 24 RAINBOW WIRE

Different colors make it easy to trace wires to source. 4 wires, each 25 ft.

#### No. 25 SMOKE CARTRIDGES

Produces thick, clean, white smoke in few seconds. Should not be taken internally although harmless if swallowed accidentally. For all smoke-puffing locomotives shown in this catalog. Dozen cartridges in box.

**AMERICAN FLYER LAMPS** Complete assortment: No. 460. Lamps, which may be purchased separately from your American Flyer dealer, are used as follows: No. 440, all Locomotives, 592A Gate; 441 and 443, Switches; 442, 774 Tower; 444 Stations and Cars; 451, 579 Light; 452, 758A Semaphore; 453, 720A Switches; 454, Transformers; 455, 730 Bumper; 760 Flasher; 461, 769A Beacon; 458, 15B, 16B, 18B, 19B, 30B Transformers. NOTE: All lamps are packed 3 per box, with exception of 451, 452 and 454, which are packed 1 per box. No. 460 Lamp Assortment contains total of 54 lamps.

#### INDIVIDUAL LAMPS

No.	Volts	Color	No.	Volts	Color

444	18	Clear	458	18	Clear
			461	14	Clear

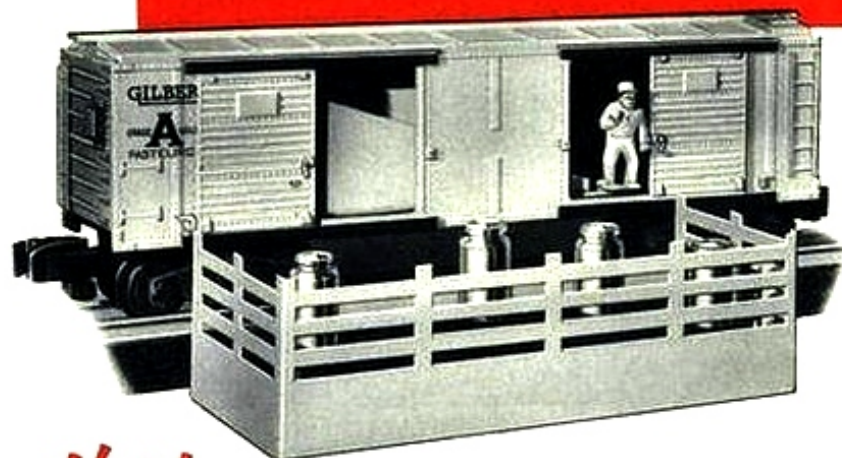

**New**

**No. 970 AUTOMATIC WALKING BRAKEMAN CAR**

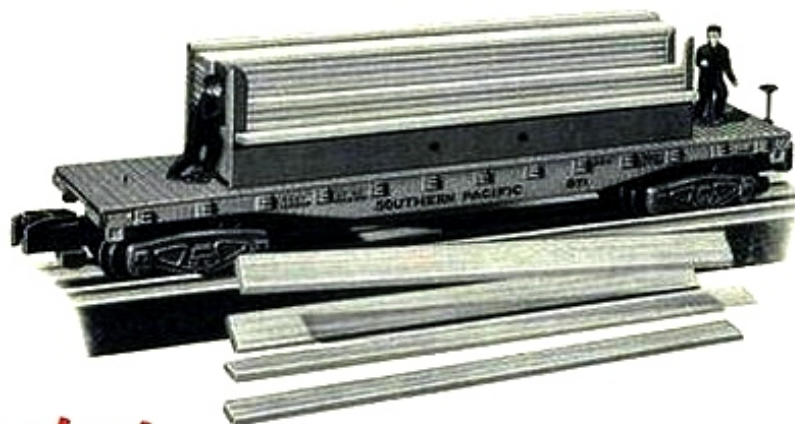

Smitty, the Walking Brakeman, patrols the catwalk atop the car, striding back and forth continuously. Operates as long as current is on, whether train is running or not. Car is 7-13/16" long.

**New**

**No. 973 OPERATING MILK CAR and PLATFORM**

Each time remote control button is operated, this tireless little milkman deposits a 25 gallon milk can on the platform. Cans load into left hand sliding door, are carried by roller conveyor to milkman. Platform and cans included. Car is 7-13/16" long.

**New**

**No. 971 LUMBER UNLOADING CAR**

Press the remote control button that operates this new car and watch Moe and Joe pick up a length of lumber and pitch it off the pile! Fascinating to see. Die cast chassis. 8 3/4" long.

**New**

**No. 978R ACTION OBSERVATION CAR**

Fully automatic. When train stops, brakeman on rear platform leans out to check cars ahead. When train starts up again, he returns to his post. Car has red finish and silhouetted passengers in windows. 12" long.

**AMERICAN FLYER**

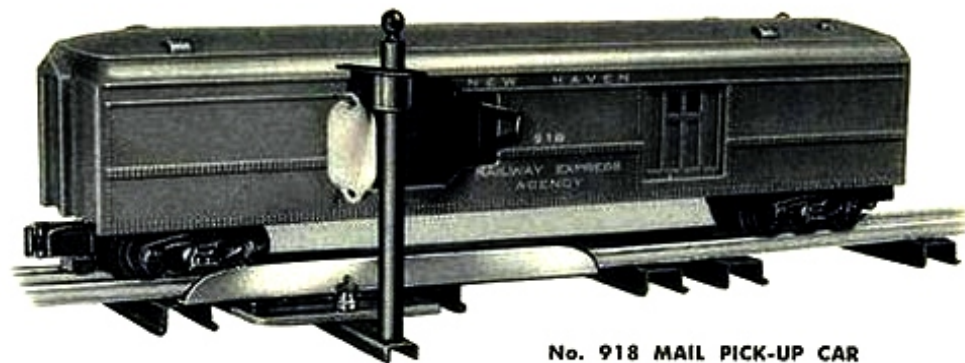

# Automatic Action Cars

**No. 915 UNLOADING CAR**

You can have endless hours of fun, with this action car! Even though the car is far away, you press the remote control button and the platform swings around, tilts up and the truck rolls down the incline. Heavy steel construction, beautifully finished. Automatic controls included.  $7\frac{3}{4}$ " long.

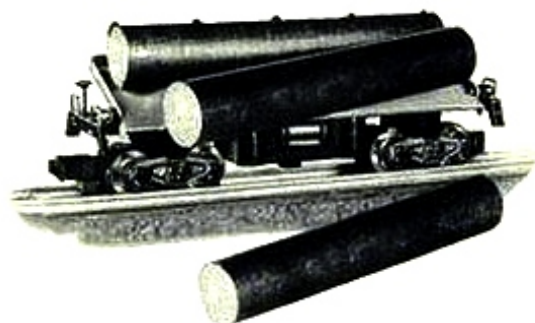

**No. 918 MAIL PICK-UP CAR**

Action and fun at its best! Just like real railway post office cars on fast limiteds, this American Flyer rolling stock takes aboard one sack of mail while it tosses out another. Works by remote control at all speeds. Mail stanchion and two sacks included.  $10\frac{3}{4}$ " long.

**No. 919 OPERATING DUMP CAR**

Load coal, ballast, ore, slag, etc., and dump it by remote control! Body tilts, sides lower and contents slide out. Heavy die-cast chassis. Bin, artificial coal, control units, etc., included.  $6\frac{1}{4}$ " long.

**No. 914 LOG UNLOADING CAR**

Here's the car you'll want for those logging operations in the "big timber" country. When you touch the remote control button the bottom tilts up, the sides lower and out spill the logs. Chassis is heavy die casting body and stakes are pressed steel.  $7\frac{3}{4}$ " long.

**No. 977 ACTION CABOOSE**

There's never been a car like it before in model railroad history — and it provides freight trains that have it with twice the realism. Each time train stops, trainman on rear platform leans out to check cars ahead. When train resumes run, he returns to his post. Lots of fun — and it's all automatic! 6" long. Illuminated.

# New AMERICAN FLYER Freight Cars

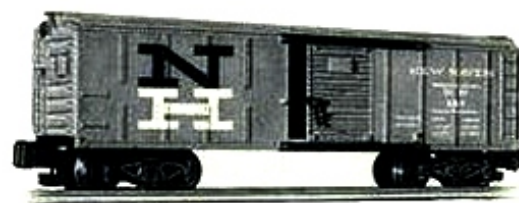

**No. 928 NEW HAVEN R.R. LUMBER CAR**

Carries load of timber on heavy die-cast chassis, painted black and marked with *New Haven Railroad* lettering. 8 3/4" long.

#### No. 951R BAGGAGE CAR

Patterned after the famous Railway Express Agency cars. Roof detail includes ventilators; chassis rides on double sintered iron trucks. Red finish. Equipped with railroad type Knuckle Couplers. 10¾" long.

#### No. 952R ILLUMINATED PULLMAN

A real masterpiece of scale modeling! Detail even includes imitation shades in inset windows! Lounge windows are opaque, as on real cars. Fully lighted inside. Accurate 3/16" scale throughout. Double sintered iron trucks. Passengers silhouetted in windows. Red finish. 12" long.

#### No. 953R BAGGAGE AND CLUB CAR

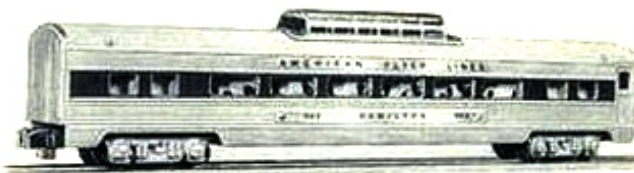

Companion car to No. 952R Pullman. Has six-wheel heavy-weight die-cast trucks and wealth of body detail. Ventilators, rivet heads, inset windows, steps, etc., are all authentically reproduced. Passengers silhouetted in windows. Red finish. Illuminated. 12" long.

## AMERICAN FLYER Passenger Cars

#### No. 960NH BAGGAGE AND CLUB CAR

A real beauty—aluminum finish body and heavy metal chassis features modern, up-to-date styling. Made to resemble the gleaming stainless steel baggage and club cars used by the New York, New Haven & Hartford and other real-life roads. Passengers are silhouetted in windows. Interior lighting. Red window stripe. 12½" long.

#### No. 962NH VISTA DOME PULLMAN CAR

Intricately detailed model of the car which has created a sensation on real-life railroads. Observation dome on roof enables passengers to view entire train and countryside. Body has aluminum finish with streamlined corrugated sides and top. Heavy chassis; die cast trucks. Silhouetted passengers. Full illumination. Red window stripe. 12½" long.

#### No. 961NH STREAMLINED COACH

Big wide picture windows where your passengers (they're silhouetted inside!) can relax and enjoy the scenery. Satin finish body, on heavy chassis, resembles stainless steel de luxe coaches. Streamlined sides and top are corrugated. Illuminated inside. Die cast trucks beautifully detailed. Has red window stripe. 12½" long.

#### No. 963NH STREAMLINED OBSERVATION

Here's the finest, most luxurious lounge car ever made! Built to accurate 3/16" scale, it has the full sweep and length of real observations. "Boat-tail" end gracefully rounded; windows are extra size. Red warning light on rear is illuminated. Fully lighted inside. Silhouetted passengers. Die cast trucks minutely detailed. Red window stripe. 12½" long.

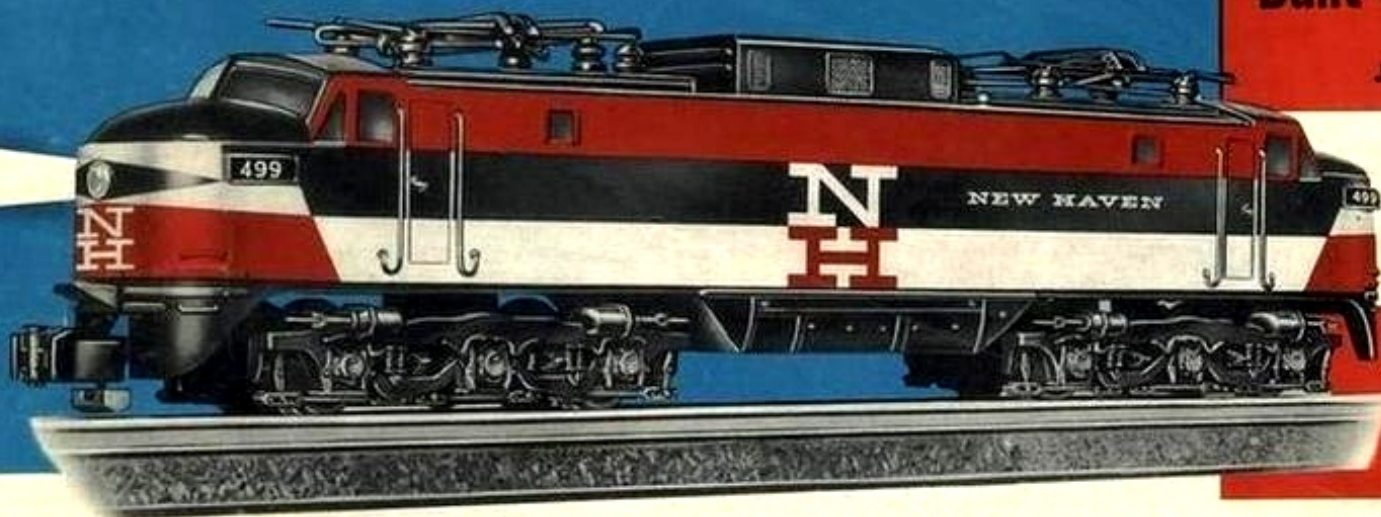

# *It's Brand New!*

## THE No. 499W

### NEW HAVEN

### ELECTRIC LOCOMOTIVE

#### Built-in ELECTRONIC WHISTLE

Yes, Whistle, not a horn!  
Just like the New Haven R.R. has

#### PULL-MOR POWER

This locomotive will pull 40 or more cars  
with ease, will climb steep grades!

#### WORM-DRIVE MOTOR

The best electric train motor made.  
Best for speed, best for climbing,  
best for hauling!

**No. 499W NEW HAVEN G.E. ELECTRIC LOCOMOTIVE**  
*With Built-in Electronic Whistle*

*Brand new with the New Haven Railroad — and brand new with American Flyer! This sleek beauty, (in real life, it's the most powerful electric loco made) with its trim orange, black and white striping, pulls passenger or freight cars with equal ease and it has a new built-in Electronic Whistle (not a*

*Horn!) just like the kind on the real New Haven locos. Motor is worm-drive and locomotive has Pull-Mor Power — the sensational development that makes all other locos without it old fashioned. Knuckle couplers front and rear. Measures 12 1/4" long.*

**THE A. C. GILBERT COMPANY**  
Erector Square, New Haven 6, Connecticut
