ACTION ACCESSORIES

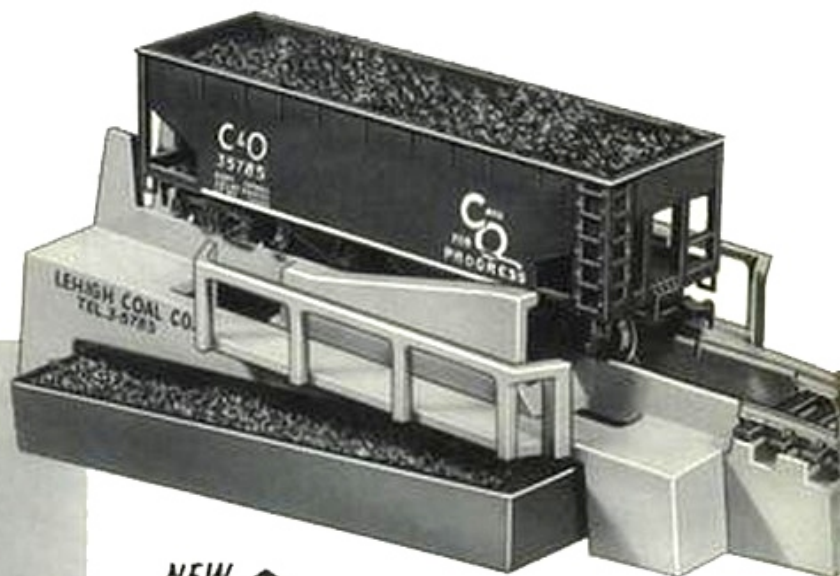

NEW

No. 35780 COAL LOADER. An absolute must for every H0'er. When coal loads through roof into tippie inside building and remote control button is pressed, double chute swings down and anthracite cascades into waiting car. Release button and chute swings back up. Car shown not included. **\$5.98**

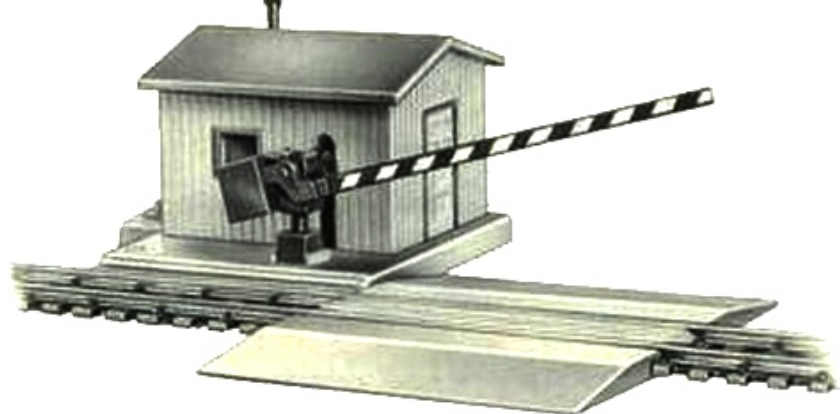

NEW

No. 35105 INSPECTION CAR. Periodic check-ups on condition of rails, sleepers and roadbeds will keep your layout in top operating shape — and this car and crew is ready to do the job. Gear drive motor. **\$4.98**

NEW ▲

No. 35785 AUTOMATIC COAL UNLOADER. Dumps the anthracite automatically! When loaded C&O car is backed up ramp, hopper opens and coal drops into bin. A great accessory for any H0 layout. **\$4.98**

No. 35702 CROSSING GATE — An HO layout without a crossing gate is almost as incomplete as a train without a locomotive. This grade crossing gate is a real zinger: when train approaches, remote control button lowers gate. After last car passes, release button and gate rises. Ideal HO accessory. **4.98**

No. 35710 BLOCK SIGNAL — When red light goes on (by manual control) train halts; on green, train starts up. 2 1/4" high. Includes control. **3.98**

No. 35705 GIRDER BRIDGE — Basic equipment for every HO railroad, used either singly or in multiple. Includes track section. Black, with molded detail. 7" long. **1.98**

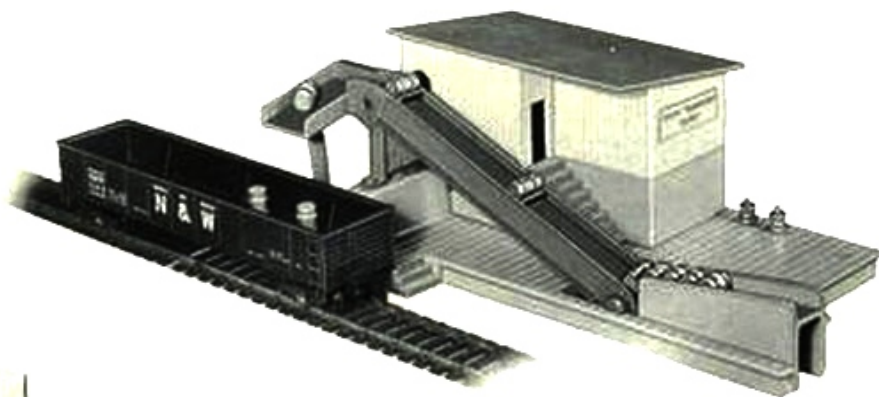

No. 35711 FLASHER SIGNAL — Red lights flash as train goes by, cease only after last car passes. Track included. 2 1/4" high. **3.98**

NEW

No. 35765 ACCESSORY KIT. Just what the HO hobbyist needs, whether he's a beginner or an old pro. Contains quantity of straight track, locomotive maintenance equipment, truss bridge and automatic re-railer. **\$4.98**

ONE OF THE GREATEST "HO" ACCESSORIES EVER!
• ALL-ELECTRIC IN OPERATION • AUTO-MAGNETIC ACTION ADDS REALISM

No. 35759 DRUM LOADING CONVEYOR. One of the finest HO accessories ever made! Action is continuous: endless belt lifts drums to elevated un-loader, from which they roll into waiting car. Mechanism concealed in house. Car shown not included. **\$9.98**

HO

LOCOMOTIVES

Made in the
U.S.A.

No. 31004 PENNSYLVANIA SWITCHER — Sweetest coal-burning yard goat anywhere, bar none. With her worm-drive motor she's a real workhorse, too, with plenty of class to take yard abuse. Watch her bustle about on her chores, puffing Smoke and sounding off with Choo-Choos and you'll agree there's nothing finer in HO." 9" long.

\$24.98

No. 31005 HUDSON LOCOMOTIVE — One of the classic locomotives in the "HO" field is this magnificent N. Y. Central "Hudson". Has powerful worm-drive motor and the most elaborate and authentic detail possible. A thoroughbred through-and-through. 14" long.

\$27.50

No. 31022 C & O ALCO DIESEL — With Automatic Ringing Bell. Only American Flyer "HO" has this big loco feature: a bell that clangs when train slowly enters and leaves station, stops when mainline speed is reached. Loco has ball-and-socket drive — all 12 wheels pull the load. 8 $\frac{3}{4}$ " long.

\$24.98

No. 31021 INDUSTRIAL SWITCHER — Don't let the size of this tiny hustler fool you — she's got more rugged power and get-up-and-go than locos twice her size. Couples front and rear for pushing or pulling on sidings, off sidings — or a straight run down the alley. 3 $\frac{1}{4}$ " long.

\$12.98

No. 32656 TWIN "PIKE MASTER" POWER PACK — Run two trains at the same time at different speeds with this dual power pack that includes built-in thermostatic circuit breaker, two separate throttle controls and two reversing switches. Reduces 110-120 A.C. current to 16 volts A.C. for accessory operation and to 12 volts D.C. for trains. 19.98

No. 32662 2 AMP "PIKE MASTER" POWER PACK — Reduces 110-120 volt A.C. household current to 12 volts D.C. for train operation and to 16 volts A.C. for accessories. Built-in thermostatic circuit breaker guards against shorts and overloads. Throttle control and reversing switch.

12.98

No. 32654 RECTIFIER — Changes A.C. current from transformer to low voltage D.C. for train operation. 3 amp. output. Has reset type circuit breaker. 3 $\frac{3}{4}$ " high, 4 $\frac{1}{2}$ " wide, 6 $\frac{1}{4}$ " long.
