DELICIOUS  
DESSERTS

# MY MIXER

TRADEMARK

**No. 14001 MY MIXER** — Now little daughter can make the dessert (for real!) with this new Gilbert Toy that's so much more than a toy! It's an actual hand-operated mixer, complete with bowl, safe nylon beaters and a unique proportioning scale that lets daughter easily and quickly measure the ingredients for cold desserts (16 party dessert recipes illustrated in full color included). New and unique, with steel and plastic parts that are easily disassembled for washing. Set also includes cat, clown and horse shaped molds to pour desserts into for chilling, plus a combination spatula, server and cutter. Easy, safe and fun for any little girl. The end result is an actual tasty dessert the whole family can enjoy!

BATHING  
IS FUN  
WITH  
BUBBLES!

# Scrubble Bubble

TRADEMARK

**No. 14101 SCRUBBLE BUBBLE** — Here's the newest break-through in bathing science — and it means more suds, fewer tears — cleaner youngsters, happier parents! What child could resist this wonderful new mother's helper that makes bathing really fun for the first time since tubs were invented? It's a combination scrubbing sponge and bubble blower! Uses any liquid soap and water. Funny face on the top is Disney's famous dwarf Dopey\*; bottom is soft plastic sponge. Rubbing action forms bubbles.

# TUGGY

TRADEMARK

**No. 14201 TUGGY THE 2-HEADED TURTLE—**  
This looks easy until you try it yourself! If you can get it away from your delighted kids long enough, you'll see what we mean: You and your opponent each have two concealed remote-control buttons to push. They're wired to Tuggy's motor so that each player has to push the right button — at the right time — to move the turtle toward his opponent's goal line and knock it over to win. Each game is an electrical tug-of-war, with excitement mounting all the time. Set includes Tuggy, control box and two sets of finish-line markers. Tuggy's motor operates on safe battery power (batteries not included).

*New  
MICRO-  
PROJECTOR  
Most versatile  
instrument in the  
Science Toy field!*

They said it couldn't be done, but here it is, the ingenious new Gilbert Micro-Projector with exciting features no science toy has ever offered before: (1) Direct viewing of enlarged image on frosted screen for tracing or analysis by several people at once; (2) Projection of enlarged image on wall, screen, drawing pad or any convenient area; (3) Enlarging and projecting *either* opaque objects (with light above) such as biology specimens, stamps, coins, or regular glass slides and transparencies with sub-stage lighting; (4) Remove entire optical system and position it on opposite side to view very large objects!

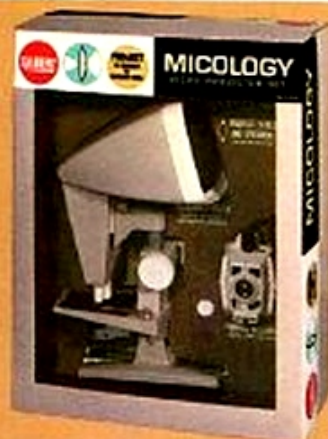

## MICOLOGY

Unique new science sets that combine many fields into one: Biology, geology, mineralogy, microscopy — with a superb new optical instrument whose wide versatility takes it far beyond the toy field!

**No. 13135 MICOLOGY — Land Lore Lab** — For use with Micro-Projector or Microscope or independently, for study of land life. Biological specimens: earthworm and huge lubber grasshopper; also butterflies, fossils, etc., glass slides, color transparencies, professional dissecting equipment, "Picture-window" carton in full color.

**LESS THAN \$10.00**

**No. 13136 MICOLOGY — Micro-Projector Set** — Project either opaque items — biology specimens, stamps, coins, etc. — or regular glass slides, magnified 5, 20 or 60 times. Far more than a toy, it has countless uses such as an aid in science homework, an instrument for collectors in many fields and all ages. Package has window and full color illustration.

**LESS THAN \$20.00**

**No. 13137 MICOLOGY — Micro-Projector Lab Set** — Includes the amazingly versatile new Gilbert Micro-Projector plus a large assortment of professional quality specimens and equipment: huge lubber grasshopper, crayfish, dissecting kit, laminated slides, 4-stage full-color transparencies, dissecting tray, etc. Package has window and full-color illustration.

## IS WHEN YOU'RE MAKING SOMETHING...

...and there's a world of "make" and "do" in this new Gilbert line of FUN IN SCIENCE—endless fascinating hours of profitable projects in electronics, electricity and physics. Every set is in a brand new pilfer-proof, high-visibility, self-sell package.

**No. 15055 FUN IN SCIENCE with Electricity**—Learn safely—and with fun—why electricity behaves as it does! Experiment with static electricity, electro-magnetism, build audio and visual code practice set, make a searchlight, test materials for electrical qualities, and do many other projects. Safe battery power.

**LESS THAN \$5.00**

**No. 15056 FUN IN SCIENCE with Electricity**—All the exciting features of the new No. 15055 set plus many more; make a rheostat, make a battery, make an electromagnetic crane, use compass in magnetism research, etc. Safety-tested—uses dry cell battery power.

**LESS THAN \$10.00**

**No. 15057 FUN IN SCIENCE with Physics**—Easy-to-follow experiments show what happens when certain conditions occur in dynamics, light, optics, fluids and air and water pressures. Safety tested! For boys and girls 10 and up. Laws of physics come alive through fun-to-perform experiments.

**LESS THAN \$13.00**

**No. 15058 FUN IN SCIENCE with Physics.** Crammed with parts, equipment, apparatus for hours of fun—experiments in Solar Heat, Optics, Air and Water, Light Bending, Fluid Dynamics pressure. Includes: radiometer, parabolic reflector, polarizing filters, optical bench, beaker, illuminator, etc., etc.

**LESS THAN \$20.00**

**No. 15059 FUN IN SCIENCE with Elec-Tronics**—Build any one of 9 different electronic circuits in 10 minutes—or less—without tools, solder or technical skill! Just follow "road map" templates and use snap-on jiffy clips for connections, to make broadcasting station, various transistor radio receivers, code practice set, etc.—all fully operational with safe dry cell power (batteries not included).

## "THE CASEY JONES"

**NO. 20763 — AMERICAN FLYER FREIGHT.** The color and romance of the great railroading era in which the legendary Casey Jones made his famous run inspired this colorful freight that's pulled by a 4-4-0 Burlington loco with remote control starting, stopping and reversing plus Pull-Mor power. Rubber-based material on drive wheels gives you better traction than steel

wheels — pulls longer trains at higher speed! Two new cars include Blue B & M Gondola and white box car with red Post Cereal markings. Realistic Pike Master track has only two rails with scale ties — 116 inches of it. Transformer operates train plus three illuminated accessories when desired. Coupling and uncoupling are automatic. **LESS THAN \$20.00**

## "THE KLONDIKE"

**NO. 20764 — AMERICAN FLYER FREIGHT.** Head down the high iron to fun with this exciting 7 unit freight train that's powered by a double-unit Great Northern diesel loco (orange, with green markings). It has famous American Flyer Pull-Mor power (better traction enables it to pull longer trains!), and starts, stops and reverses by electric remote control. Colorful

string of cars includes Monon gondola, bright yellow Shell tank car, red M & STL box, B & O hopper and yellow caboose. Super-realistic Pike Master 2 rail track includes special terminal uncoupler section. Transformer has ample power to run train and at least 3 lighted accessories. **LESS THAN \$30.00**

## "THE MOHAWK"

**NO. 20766 — AMERICAN FLYER FREIGHT.** The great days of steam railroading are here again with this handsome, husky 4-6-2 Pacific locomotive that puffs real smoke, has built-in choo-choo sound effects, Pull-Mor power, remote control and operating headlight. And rolling along behind are not less than six colorful, detailed, varied cars including auto

transport with removable truck and its load of autos, cream-colored Peabody deluxe hopper, orange Hooker tank, green GN reefer, N&W gondola and bright red deluxe caboose (lighted). Realistic 2 rail Pike Master track makes 136" of running rail — 50 watt transformer has built-in circuit-breaker, is UL/CSA approved. **LESS THAN \$40.00**

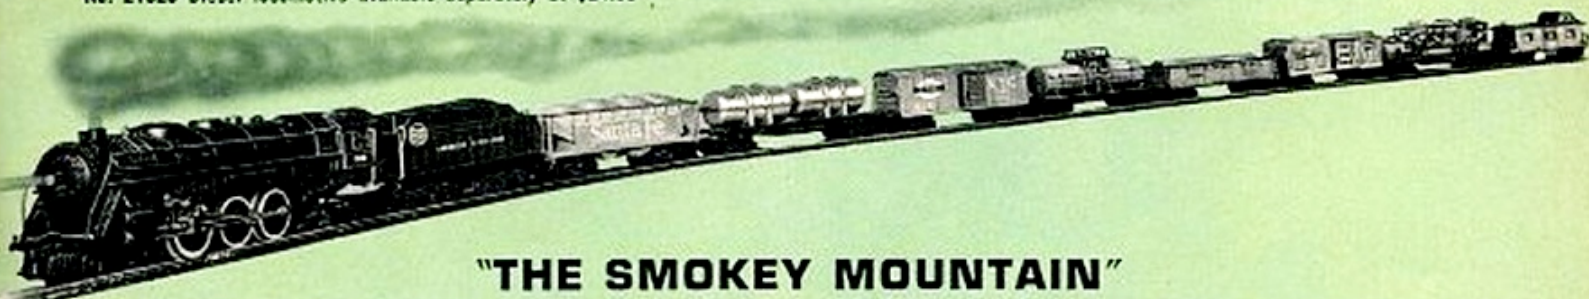

## "THE EAGLE"

NO. 20767 — AMERICAN FLYER PASSENGER. Makes you want to climb aboard and ride away to far places in luxury, doesn't it? This Missouri Pacific speedster offers all the features of deluxe passenger operation from the front coupler on the authentic Alco diesel to the fish-tail observation end on the last brilliantly-lighted car, which even has radio
